

The Profit Center's Choice

The GinSan® GS-400 Message Center

Customer satisfaction and profitability come together through the latest technology in the GinSan® GS-400 Message Center. Communicate with your customer through a variety of custom programmable messages. When it comes to getting your money's worth, you want to know your investment will hold firmly—quality engineered and built to last. What naturally comes after this? Profitability.

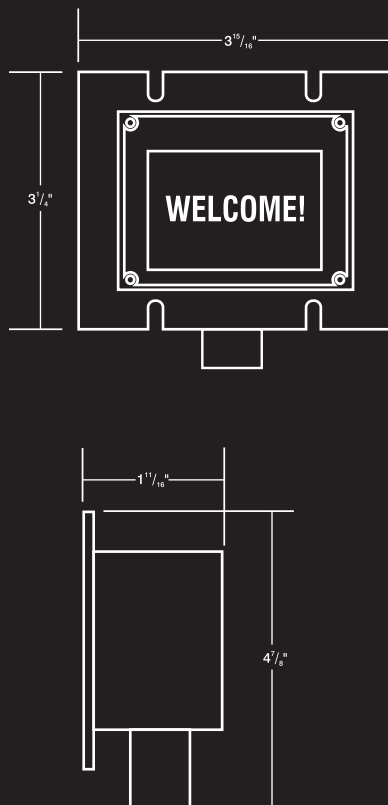

The GinSan® GS-400 Message Center

The GinSan® GS-400 Message Center was nominated for the 2006 Mid-Atlantic Carwash Association Trendsetter Product of the Year and is the display timer of choice for profitability. It is available in all new GinSan meterboxes and is designed to fit in most bay meterboxes where a countdown display

is used, making it easy to add cutting-edge functionality to your self-service bays. Custom-programmable features allow extra revenue to be generated. Easy to obtain reports empower you to accurately track important statistical information in each GS-400 Message Center controlled bay.

Interface message changes to reflect programmed messages and services
