

16 CHANNELS

10 HOURS OF BATTERY LIFE

4 WATTS OF POWER

Increase productivity and add valuable hours to your day with the MB400 Industrial Grade Business Band two-way radio. Connect instantly with co-workers, check status on a project or just “get the word out” with a push of a button. Receive the information you need when you need it, instead of searching for your co-worker. BizTalk radios are built for dependable communications in your fast-paced professional environment, saving you time and money.

DURABLE, RELIABLE

Designed for demanding environments, the MB400 has a die-cast metal inner frame and an IP67 Rating to ensure it will hold up in the harshest of workplaces, from construction to manufacturing.

IP67 PROTECTION

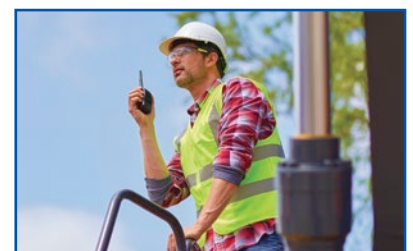

The MB400 meets the rigorous international standard for protection from dust and moisture getting inside your radio, protecting your investment in a high-quality business radio.

CONFIGURABLE

The MB400 is preprogrammed and ready to use out of the box, but if you need to change its programming, you can do so with our easy to use Programming Software. Select from a menu of 99 Business Band Frequencies or what features to turn on/off to configure your radios to the way to want them. You can easily transfer the programming from one MB400 radio to another MB400 using the radio to radio cloning feature.

BI-LINGUAL

The MB400 has English or Spanish voice prompts to let you know what channel you are on, when to charge your battery or what feature you turned on/off.
