Product Description:

ShoreWalls is a highly efficient blend of acids and surfactants formulated to remove the heavy buildup of dirt and grime on the interior walls of car washes. ShoreWalls can remove unsightly stains from PVC and FRP Panels, Brick, Block, Concrete, and stone walls. ShoreWalls is also very effective in removing rust from many of these porous surfaces

Features and Benefits:

- 1.) No Hydrofluoric (HF) acid or Ammonium Bifluoride (ABF).
- 2.) Fast aggressive wall cleaner
- 3.) Rust remover
- 4.) Is able to be used in either hot or cold water.

Directions:

Dilution rates range from undiluted up to 50 to 1 with water depending on level of soil and amount of agitation during cleaning. Dwell time should not exceed 15 minutes. All projects should start with a test application to determine the suitability of the cleaner and acceptable application method. The test area should involve the most severely affected area. Before starting the project, allow the test area to dry in order to check for possible adverse reactions.

Physical Characteristics:

- | | |
|--------------------------|---------------------------|
| 1.) Form | Clear Liquid |
| 2.) Color | Water White to Pale Amber |
| 3.) Odor | Acrid |
| 4.) Foam Creation | High |
| 5.) pH (1%) | < 1.0 |
| 6.) Specific Gravity | 1.25 |
| 8.) Phosphorous Content | < 7.0% |
| 9.) Hard Water Tolerance | Good |

Titration Procedure:

- 1.) No titration required
