VisionClear™

For Protection From Rain, Snow and Sleet - A silicone-containing product that forms a molecular film for your windshield and seals the microscopic pores thus repelling rain, snow and sleet. The VisionClear™ protected surface causes water droplets to bead up, allowing the windshield to blow the droplets away as you drive. The results: better vision and safer driving.

- A silicone-containing product that forms a molecular film for your windshield and seals the microscopic pores
- Repels rain, snow and sleet
- Allows the windshield to blow droplets away as you drive.

- Tunnels with limited space can save room by having two services on one arch.

SIMONIZ HOT WAX *and* SHINE™

"The concept is simple. Simoniz® Hot Wax and Shine is a credible service that produces eye popping results. We suggest you position it by offering it in a brand new Top Package. Many operators are reporting an overall increase of \$1.50/car by creating a new Hot Wax and Shine Top Package... because it does what the name implies."

Bill Gorra, Simoniz® USA
