

# GUARDIAN XP™

## CAR WASH PAY STATION

Standard Change-Makers' **GUARDIAN XP (GXP)** Car Wash Controller is designed to help car wash owners maximize their revenue opportunities with promotional features. The **GXP** was specifically designed to be an entry-level pay station for Automatic Wash Bays with several marketing and promotional features; such as discount code entry, time-of-day and day-of-week discounts, and discount/free wash token acceptance.

With the GUARDIAN XP, owners can easily promote their car wash location in a variety of ways using these programmable incentives. Tracking the effectiveness of promotions is a snap using a PIN-based code on the keypad to "quick print" a summary report.

Available with a Painted Steel or Stainless Steel Cabinet, owners can provide a user-friendly interface for credit card acceptance. The GUARDIAN XP offers flexibility without cumbersome back-end computer systems.

### The GUARDIAN XP features:

- ▶ Secure Painted or Stainless Steel Cabinet with two (2) Crank locks, Medeco™ lock plugs, Marlboro hinges & LED Accent Lights
- ▶ Clean & Efficient internal design for Quick & Easy Connections!
- ▶ (1) CPI® T7 Talos Bill Validator with 500 bill stacker box.
- ▶ (1) Standard Modular Series *Smart* Hopper - holds 2,000 Tokens
- ▶ (1) **Electronic Coin Acceptor** - will accept \$1 Coins, Quarters and one (1) different token
- ▶ (4) Programmable Wash Selections - **durable metal selection buttons** also assist the owner with external programming inputs and diagnostic feedback inputs
- ▶ **Metal push button keypad** for special "code entry" discount programs used in conjunction with coupons, mailers, and advertisements
- ▶ Simple, reliable & flexible relay interface to all popular automatic wash equipment
- ▶ Retrofit Cabinet available that can fit inside existing, older ACW's - no need to rebuild or repair existing masonry or security structures!

**Re-Designed for 2025**  
New Relay Interface to Car Wash Equipment

### Some GUARDIAN XP OPTIONAL FEATURES: (Purchase with the machine or for easy field upgrades)

- ◆ **Bonus Token Dispense** - with an additional *Smart* Hopper - sized to your Token
- ◆ **Credit Card Acceptance Kit** - includes weather-proof, **bi-directional** card reader with hi-speed processing available via Nayax and Cryptopay (Other solutions also available!)
- ◆ **Receipt & Audit Printer** - available for cash and credit card transactions. Also allows the owner use of the "quick print" diagnostic and audit report feature
- ◆ **Remote Notification** - send texts to cell phone or email for up to 8 error conditions at your wash. Send daily audit reports via internet connection.
- ◆ **Customizable Voice Prompts & Speaker** - Auditory enhancement that prompts customers with instructions that are on the screen, and provides voice feedback of selections
- ◆ **POS Pay-At-Pump Code Interface** - works with POS-4000 for C-Stores or Petroleum Stations
- ◆ **Stainless Steel Base** - 20" or 26" High Straight design for free standing installations

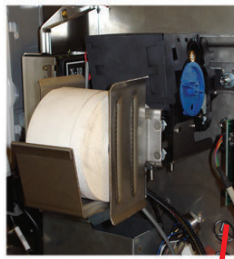

3130 N. Mitthoeffer Road Indianapolis, IN 46235

**Large LCD Display** displays instructions and feedback to the customers. The display is specifically designed for high visibility in sunlight.

**Receipt & Audit Printer** is a thermal paper receipt printer with a high capacity paper roll bracket. Works with "Quick Print" feature to provide audit information on revenues and promotion feedback.

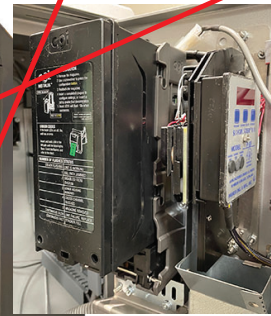

**CPi™ (Mars) Bill Validator** (with 500 bill stacker) will accept \$1 - \$20 bills. **Coinco® Vantage** available as an optional feature and in Canada.

**SlugBuster® III Coin Acceptor** will accept quarters & dollar coins, plus one (1) Token. Tokens can be used for various wash levels or promotions.

**MDB Credit Card Solutions**

Choice of Nayax VPOS-Touch, Cryptopay, Swipe, Cryptopay Tap+, Canteloupe ePort Readers. Customer purchases readers direct, and Standard installs in machine prior to shipment.

**Durable Metal Keypad**

Keypad can be used for promotional code entry, PIN entry, and "Quick Print" feature. Will also allow you to program instructions and greetings via "text messaging" entry process.

**Metal Selection Buttons** allow customers to choose from four (4) different wash levels. Buttons have LED light for added attention! Also used for programming functions without opening machine. Four upsell buttons are available (optional).

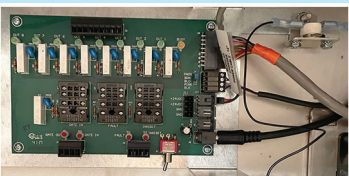

**Secure Stainless Steel Coin Cup** design is intended to provide comfortable removal of coins or tokens and to prevent rain from getting into the interior of the cabinet.

**The GUARDIAN XP will help you promote your car wash location with these special options and features:**

- ▶ Up to 19 Code-Based Discounts (*Coupons, Ads, & Direct Mailers*)
- ▶ Time-of-Day & Day-of- Week Discounts (*Promote via Ads & Mailers, Load Balancing*)
- ▶ Non-Value Coupon Acceptance (*Mailers*) (requires specific validators & specific printing parameters)
- ▶ Token Discounts (*Charities, Loyalty, Complaints*)
- ▶ Credit Card Acceptance (*Nayax, Cryptopay, Monex, and more being integrated*)
- ▶ Dispense a "bonus token" with your change - can offer a free vacuum start or discount on future washes
- ▶ Integrating to multiple Third-Party alternate payment system interfaces (*SitePRO+ system, XpressWash RFID, PayRange Mobile Payments*)

**EF-4 Pay Station Control Board** is the Command Center for the GUARDIAN XP. Our design engineers built this unit with the goal of easy access and being able to replace this, and any component, in no more than 10-15 minutes.

**NEW Relay Controller** for interfacing with your automatic wash bay equipment. Provides better feedback.

**Heating Element** will keep cabinet warm in cold weather conditions, and help keep ice off the Pay Station door.
