ORIGINAL

Grand Prix™
HP120

The first automotive detailing machine
to be powered on just one cord!

Includes:

- 15' Hose-n-Hose™ vacuum & internal solution hose combo.
- 4" stainless steel upholstery tool.

The Grand Prix™ automotive detail extractor transformed the automotive detailing industry. It was the first heated extractor to feature a single power cord, making it easy to find a power source. This is especially important when you have a mobile detailing service.

Specs:

- 10 gallon capacity solution tank.
- 1,200 watt in-line heater.
- Powerful 3-stage vacuum motor.
- 120 PSI diaphragm pump.
