## NOZZLES/SPRAY TIPS

### GENERAL PUMP® SPRAY TIPS

GENERAL PUMP

- General Pump High Pressure Spray Tips are built using an innovative design and manufacturing approach that ensures accuracy and provides consistent durability and performance for all types of high pressure cleaning systems.
- View chart below to determine nozzle size

### HOW TO DETERMINE NOZZLE SIZE:

- 1 Calculate GPM & PSI to determine nozzle size  
(Ex. 1200 PSI at 3.8 GPM = nozzle size of 07)
- 2 After determining nozzle size, choose a degree of spray pattern:  
15 = 15° (narrow)  
25 = 25° (medium)  
40 = 40° (wide)  
Available spray patterns : 05, 15, 25, 40, 50, 65, 80
- 3 Degree of spray does not affect nozzle volume

### WASHJET® IMEG® SPRAY NOZZLES SPRAYING SYSTEMS CO.

- Patented design provides optimized fluid dynamics to minimize turbulence and maximize spray performance
- The 302 stainless steel guide vane further stabilizes turbulent flow and improves pattern quality and cleaning efficiency
- Spray angles of 0° to 65°
- Uniform distribution – an internal guide vane stabilizes liquid turbulence
- Longer wear life and flow control accuracy with specially hardened stainless steel
- Please reference nozzle # chart above for help!

### ROUND HOGS HAIR FOAMY BRUSH WITH REPLACEABLE HEAD

INKFISH

- This round 4" foamy brush boasts genuine hog hair bristles with naturally feathered ends
- Soft rubber bumper gasket, a brass NPT thread, and a recessed hex screw on the top
- Modular design that allows for replacement brush cartridges
- 6" Diameter head with 4" bristles

#### REMOVING & REPLACING THE CARTRIDGE:

- Use an Allen wrench to gently turn the hex screw one or two rotations (do not remove)
- Grab the bristles with one hand and the head with the other hand and spin the cartridge to the left (left if you're looking from the bottom of the brush)
- Remove the cartridge and replace with new cartridge. Spin into place
- Once cartridge is even around the edges and snugly in place, gently turn the hex screw. Do not over-tighten

## VALUE LINE BRUSHES

### EAR STYLE HOGS HAIR BRUSH VALUE LINE BRUSHES

- Approx. 4.5" brush hair length
- 8" rubber bumper head
- Ear style brush
- Naturally feathered hairs
- Maximum density for ensuring prolonged usage and extra protection

**\$86.99**    **KRV1125**

### TRIPLE SIDED HOGS HAIR BRUSH VALUE LINE BRUSHES

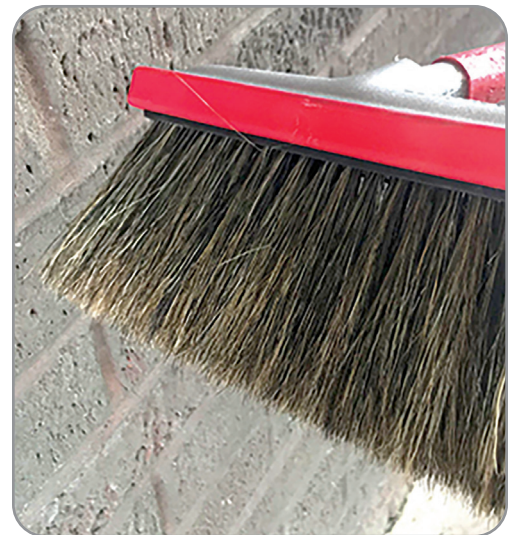

- A cost-effective tool for getting the job done right! Authentic hog's hair fibers facilitate an easier detailing process with no scratching
- Approx. 4.5" brush hair length
- 9.5" rubber bumper head
- Triple sided for more coverage
- Naturally feathered hairs ensure no surfaces or paint finishes are scratched
- Maximum density for ensuring prolonged usage and extra protection

**\$91.75**    **KRV1120**

## BENEFITS OF HOGS HAIR BRUSHES:

- Naturally tapered shape. The base of the bristle is thicker than the end, increasing strength and longevity.
- Maintain shape. Return to original shape when bent or manipulated, ensuring a long life.
- Naturally feathered bristle ends. Hogs hair provides a soft touch that will not damage clear coats, gel coats, glass, or fiberglass.
- Accumulate virtually no grit. Hog filaments are excellent at absorbing water without grabbing grit.
- Real hair is naturally resistant to oil and grease.
- Handmade. Each group of hog hair filaments is manually added to the brush. This adds to the quality construction of the brush.

### PS300 PERMASWITCH - ELECTRONIC 10 POSITION ROTARY SWITCH

IDX

- The IDX PS300 Electronic Rotary Switch has ten positions and uses push button operation for self-serve services. The PS300 uses the same front disk (PS200-10) and decals (DECPS200) as the PS200 rotary switch. Changes include a shorter rear box with a 1' long harness that connects to a separate relay box with a 2' connector cable.

# KLEEN-RITE COINBOXES

**Kleen-Rite coin boxes deliver reliable money acceptance and function control, perfect for self-serve car washes of all sizes. Thanks to a variety of size and option choices, Kleen-Rite coin boxes are suitable for use at new car wash builds or when upgrading older bays!**

Each coin box features industry components including Dixmor digital timers, IDX coin acceptors, and Mars bill acceptors. Kleen-Rite's boxes accept coins and tokens as well as \$1, \$5, \$10 and \$20 bills. The boxes are operated by a virtually maintenance-free rotary switch, allowing for up to 10 functions per bay!

## COIN BOX STYLE .....

### SHORT HULL

Kleen-Rite short hull coin boxes have a compact footprint and are designed for use with a separate safe. While paper money is held in the unit's bill acceptor, all coins drop through a tube into your hidden safe for extra security.

**SEE PAGE 400 FOR SAFE OPTIONS OR PAGE 468 FOR VAC IT UP SYSTEMS!**

### LONG HULL

Long hull boxes have a separate money drawer underneath the control unit. Coins drop down a chute into this vault, where they remain until emptied. Paper money continues to be collected and held within the unit's bill acceptor.

## COIN BOX SECURITY .....

### DELUXE

All-purpose choice suitable for many car wash businesses, especially those that have an attendant or are in low-crime areas. Each box has a durable, 11 gauge 304 stainless steel body and built-in cam locks to deter theft.

### HIGH SECURITY

High security coin boxes feature thicker, 7 gauge stainless steel construction. Each box also includes high security plug locks and extra security latches! Kleen-Rite high security coin boxes are a great choice for unattended car washes or high crime areas. While no single product can completely guarantee against theft, a high security coin box is a great deterrent! The added safety features make it harder to access funds, discouraging opportunistic thieves.

## SECURITY CONSIDERATIONS

- Is an attendant present at your wash during all business hours?
- Is your business located in a high crime area?
- Do you offer 24 hour a day services?
- Are there security cameras at your wash?

Plus, all Kleen-Rite coin boxes have slots to accommodate extra security bars. These bars fit over vulnerable areas such as cam locks and money drawers, then padlock into place for added protection.

## CUSTOM OPTIONS

Kleen-Rite coin boxes may be further upgraded and customized after purchase. Many operators enjoy adding credit card acceptance through the CryptoPay system. This plug-and-play technology integrates directly with Kleen-Rite coin boxes to provide credit card acceptance at an affordable cost. Standalone coin box parts, such as drawers, locks, and bill acceptors, are also available for a completely custom build. Give us a call at 1-800-233-3873 to customize your ideal coin box today!

## ADDITIONAL OPTIONS

- Extra function decal sets
- Addition of a push button
- Credit card acceptors
- Different type of coin acceptor

### DELUXE

### HIGH SECURITY

SHORT HULL DESIGN FOR USE WITH SEPARATE SAFE OR VAC-IT-UP SYSTEM.

### DELUXE COIN BOXES

### COMPLETE BOOM ASSEMBLY

ZIERDEN COMPANY

- The Zierden Boom is ideal for heavy commercial use in coin-operated car washes, service bays, and in car and truck fleet cleaning departments. The boom permits 360° of free and easy rotation around a vehicle in an 11 foot diameter. Heavy gauge steel mounting base, non-corrosive metal internal parts and double ram ball bearings for effortless boom swing. Boom is 5 feet. Extensions are also available.
