KLEEN-RITE CORP.
YOUR RELIABLE SUPPLIER FOR THE CAR WASH INDUSTRY

Easy Ways To Earn Free Shipping!

Getting free shipping on your orders has never been easier. See below for our 2 programs that let you receive free shipping.

OPTION

[1]

Join Our Rewards Club

Get rewarded for your purchases when you join the FREE Kleen-Rite Rewards Club! Earn points for every dollar that you spend, and redeem for great perks like complimentary shipping and special savings.

How do I sign up for the Kleen-Rite Rewards program?

Your sign up for the Kleen-Rite Rewards program must be completed on www.kleenrite.com. Unfortunately, our sales or customer service reps are unable to sign you up.

What if I already have a web account?

If you already have a Kleen-Rite Web account, you can sign up for the program from the "My Account" page by clicking on the "Join Rewards Program" button.

Can I use my points if I phone in my orders?

Yes, you can. Just tell your sales rep you'd like to use points. They will be able to check and see what points you have and redeem your rewards with your points.

**My Kleen-Rite

YOUR RELIABLE SUPPLIER FOR THE CAR WASH INDUSTRY

CORPORATE OFFICE

257 South 9th Street
Columbia, PA 17512

800-233-3873

SERVING THE CAR WASH INDUSTRY FOR OVER 50 YEARS . . .

Here at Kleen-Rite, we have always operated our own company car wash alongside the supply side of our business, which gives us an operator's insight into the needs, problems and solutions for running a successful car wash. It enables us to have our finger on the pulse of what our customers need. Our car wash has always been Kleen-Rite's test site, as well as our roots. When a new product comes to market, we can put it to the test at the car wash. This helps us understand very quickly why a product works or not, or the struggles and problems inherent in a piece of equipment - because we deal with and understand them firsthand. This inside knowledge enables Kleen-Rite to gain an understanding of an operator's - and their customers' - perspective.

4 LOCATIONS ENABLE US TO GET YOU YOUR NEEDED SUPPLIES & PARTS FAST . . .

We know that running a successful operation includes having a reliable supplier that can deliver you the replacement parts and supplies that you may need as fast as possible. When a piece of equipment fails, you need to get it back in working order as quickly as possible. That's why we have 4 strategically located warehouse locations across the U.S., so we can get your orders out to you fast. Operators across the country have come to rely on our extensive inventory, knowledgeable staff and quick turnaround time. Our goal is to always give you the "Best for Less" and to be "Your Reliable Supplier for the Car Wash Industry!"

Proposition 65, known as the Safe Drinking Water and Toxic Enforcement Act of 1986, aims to protect drinking water sources and California citizens from exposure to chemicals known to cause cancer, birth defects, or other reproductive harm. The law requires people be informed about exposure to such chemicals. The State of California maintains and updates a list of chemicals known to cause cancer or reproductive toxicity. Consult the State of California to learn more. Businesses are required to give a clear and reasonable warnings before knowingly exposing anyone to a chemical above the listed levels. Warnings are commonly posted in businesses or public areas affected by chemicals. Often, business owners, hotel owners, apartment owners, and managers will post warning signs to notify tenants, guests, and employees of the presence of chemicals on the Proposition 65 list, such as pesticides, lead paint, or asbestos. **PLEASE NOTE:** As manufacturers update their products, new components may be added and these components may fall under the Prop 65 act. As we obtain updated information it will be listed on our website. Please check kleenrite.com for the latest information on products.

NOTE: This information is a summary interpretation and was prepared as general reference material only. This summary is not authoritative as laws can be amended over time. For specific compliance requirements and updates, please refer to the actual code language and the statute or legal counsel at oehha.ca.gov/proposition-65.

VISION:

We will be THE reliable supplier to the car wash industry.

MISSION:

We service our customers with the best people, products and pricing to help them achieve success.

VALUES:

Reliable – *you can count on us.*

Integrity – *always doing the right thing.*

Dedication – *committed to doing our best.*

Family – *we take care of each other.*

Community – *investing in where we live.*

Faith – *God honoring company.*

Profitability – *success breeds success.*

“The reason we’re successful is we keep after things.
We get calls all day long. If it’s something we don’t have, we go search for it.
We tend to business all day and night.”

Harold McKonly
Kleen-Rite Corp. Founder

TERMS & CONDITIONS

TELEPHONE & FAX ORDERS

PLEASE PREPARE YOUR ORDERS IN ADVANCE. WHEN YOU CALL PLEASE PROVIDE THE FOLLOWING INFORMATION:

1. YOUR CUSTOMER NUMBER AND NAME
2. Shipping address if other than billing address
3. Shipping requirements (regular UPS, FED EX Ground, Next Day Air, 2nd Day, 3rd Day, or Freight)
4. Credit card number (Master Card, Visa, Discover, and American Express)
5. PRODUCT NUMBER, description, quantity, etc.

PAYMENT POLICY

We accept payment by Credit Card or ACH Debit.

SHIPPING POLICY

1. All orders are shipped UPS/FedEx Ground or common carrier.
2. Inspect your packages for damage upon delivery & notify delivery agent before they leave your site.
3. Shipping charges are the responsibility of the customer and will be added to all orders.
4. Free Shipping - To qualify your order for free shipping, all orders must be a full pallet of Self-Serve, In-Bay Automatic or Tunnel Soap chemicals.
5. All orders are F.O.B. from Kleen-Rite or from manufacturer. Claims are the responsibility of the carrier.
6. Reshipments due to errors will be shipped UPS/FedEx Ground only.
7. Any quote of freight charges by a salesperson is an estimate only and may vary at delivery time.

SPECIAL ORDERS

** Special orders may be returned only with permission of the manufacturer and may be subject to restocking charges.

PRICES

1. All prices are subject to change without notice.
2. Orders will be invoiced at the prices prevailing at the date of shipment.

BACK ORDERS

1. All backorders are shipped F.O.B. or from manufacturer ASAP
2. Backorders of small dollar value may be held for next order
3. Freight charges will be added to all backorders

Save On Shipping Costs AS EASY As.... 1-2-3

1. Buy 150 lbs or more to take advantage on UPS hundred weight and UPS Ground Freight shipping. UPS offers discounts of 15-45% from regular ground rates for multiple packages shipping the same day to the same address, and they deliver on the small package truck. Ground freight shipments must meet the following conditions:

- No hazmat
- Destination in the 48 contiguous states
- Order total must be between 150 lbs and 999 lbs

2. Many cases of vending supplies can be bundled together to help you save on shipping costs. Your salesperson can help guide you to understand what quantities of supplies can help reduce your overall shipping costs. Buy more and save more.

3. Shipping to a business address instead of a residential address saves you money. Both freight carriers and small package service providers charge additional shipment and or per package fees for residential delivery. Ship to a business address and avoid those fees altogether.

FREE But of course, the best way to get way to save on shipping is to pay no shipping costs at all! To qualify your order for free shipping, all orders must be a full pallet of Self-Serve, In-Bay Automatic or Tunnel Soap chemicals. We will ship your pallet anywhere in the continental United States and most provinces in Canada absolutely free. Top off your pallet with vending supplies and parts to experience even more savings.

For your convenience Liftgate service is free to most direct destinations from our select freight carriers. All orders containing 30 gallon and 55 gallon drums will be shipped with a liftgate for your convenience unless you request otherwise. Liftgate delivery may slow arrival of your shipments depending on equipment constraints at the carrier's terminal so please plan your stock accordingly.

Date: _____ Signature: _____

Note: Debit authorizations must provide that the receiver may revoke the authorization only by notifying the originator in the manner specified in the authorization.

****Please attach voided check****

Effective July 1, 2013 Kleen-Rite Corporation will be implementing a new Payment Policy Change: Any Non-Sufficient Checks or ACH Payments received will incur an additional charge of \$25.00 to off-set the fees we are charged by the bank. We regret that this change must occur, but the fees and tedious work involved in tracking down and clearing these charge backs has made this policy change necessary.

ADD MORE REVENUE THROUGH MONTHLY MEMBERSHIP SALES WITH EVERWASH

EverWash is a marketing company with a unique membership solution for all car washes

Are you interested in membership, but unwilling to spend thousands on an RFID system for your wash? Do you already have a membership program, but struggle to keep up with all of the member accounts, sales and billing? Have you bought in to the idea of membership, but haven't wanted to deal with the headaches you've heard come along with it?

If any of this sounds familiar, there is a solution out there for you: EverWash.

EverWash allows car wash operators to focus on doing what they do best: cleaning cars. This leaves EverWash to focus on attracting new customers, selling memberships, and strengthening customer relationships.

How Does EverWash Work?

Studies show that monthly members are more profitable than the average pay-as-you-go car wash customer, so when it comes to increasing revenues, nothing in the industry comes close to moving the needle like a successful monthly membership program. Rather than having to start each day at zero and chase each dollar, EverWash helps car wash operators create a new revenue stream through monthly recurring revenue, regardless of customer usage year-round, rain or shine.

EverWash is a free-to-use, app-based service that offers users a unique, easy and personalized way to find your car wash, learn about its membership options and easily purchase an unlimited wash plan from the convenience of their smartphone.

While other monthly membership solutions are only able to reach the consumer and sell memberships in the few short minutes that a customer is physically at the car wash, the EverWash app allows customers to quickly and easily become a monthly paying member at any time and from anywhere. These members help generate a predictable and sizeable revenue stream that operators can grow their business around.

However, membership is only part of the EverWash solution.

“ Their app makes it so easy to sell monthly memberships.... Which really improves our bottom line. ”
- KC Fordham, KC's Car Wash

More Than Membership

It takes more than just software to run a successful membership program. Ultimately, EverWash is a marketing company that brings various membership solutions to the table for all types of car washes.

Our sales and marketing team are a resource to our wash partners, providing valuable assistance in outreach marketing, brand consulting, signage, email marketing, social media, web design, and more. The app even features a built-in “Invite a Friend” feature that encourages users to refer contacts to membership at a wash, helping them discover a better, more convenient way to wash their car.

“ We love EverWash and their app. They handle everything; the marketing, member sign-ups, billing, collections... and they pay us! It's that simple. ”
- Dino Nicoletta, Asbury Circle Car Wash

EverWash also issues regular updates to their app and dashboard to ensure that car wash owners and attendants have new tools at their disposal when building membership and engaging with new customers.

Completely Free to Join

EverWash only earns commission based on the additional revenue stream we generate from membership sales. There is no need for pricey RFID equipment, POS systems or intrusive set-ups — EverWash handles all of your membership accounts in-house so you don't have to. This structure keeps EverWash highly motivated and focused on swiftly and seamlessly turning occasional-use customers into more lucrative, loyal members. Ultimately, EverWash shares a common, deeply aligned goal with its partner washes: to grow car wash revenue through increased membership sales and to keep members around for a long time.

Who is Behind EverWash?

EverWash was founded by John Cassady and Scott Caplan — two Philadelphia-based entrepreneurs who revolutionized the health and fitness industry by introducing membership sales and subscription management services to gyms and health clubs nationally. After exiting their respective companies, the duo started EverWash upon realizing that car washes offering monthly memberships could benefit from a more effective and practical way of onboarding and managing new members.

Today, Everwash is made up of a dedicated team of subscription management & membership enrollment pioneers, third generation car wash operators and membership sales & marketing specialists working together with you and your attendants to help grow your revenues.

Why Choose EverWash?

Here are just a few reasons why you should choose EverWash to power your monthly membership program:

- Works with or without a POS system and with most any automated pay station
- No expensive RFID system, monthly maintenance or POS upgrade fees
- 100% free to use, EverWash earns commission based on the additional revenue from membership sales
- World-class member support, signage, email marketing, social media, web design, and more from our sales and marketing team
- True mobile platform allows consumers to sign-up, refer friends and manage their membership 24/7 from their smartphone
- Guaranteed to increase customer base, wash volume and profits

“ Thanks to EverWash, our monthly revenues continue to grow each and every month, even doubled in some months. They’ve really revolutionized how we sell and manage monthlies; a seamless, effortless and substantial increase in business. ”

- Terrence Byrne, Rockaway Car Wash

Why Have Customers When You Can Have Members?

EverWash is committed to bringing innovations and efficiencies to the table, and positioning itself to lead the membership revolution in the car wash industry rather than react to it. Learn more about how EverWash can help double your car washes profits by visiting morewashprofits.com or calling (855) 492-7477.

YOUR ANSWER IS CUSTOM AIR FRESHENERS

Kleen-Rite is now able to offer our customers the ability to purchase customized air fresheners with their own logos and artwork via their Kleen-Rite account!

The custom air fresheners are currently available in seven shapes and 18 different fragrances. Each air freshener comes with full color printing on both sides, strung with white elastic and is packaged in clear wrappers (not carded).

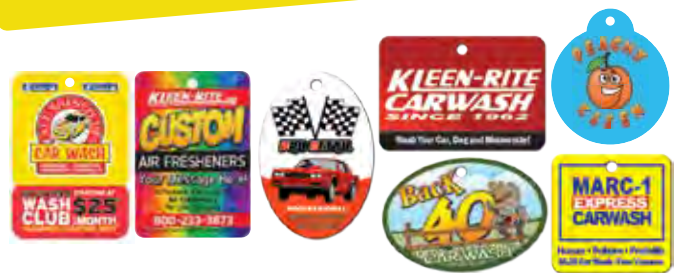

WHY CUSTOM AIR FRESHENERS?

Selling or giving away custom air fresheners is an excellent way to advertise and promote your business at a minimal cost.

“ I like tiny advertisements hanging from vehicles' rear-view mirrors all over town. Considering that I'm a brand new car wash, this is important to me.
- TRENT RICHARDS, Peachy Kleen Car Wash

“ We love the air fresheners that we purchased. Our colored logo looks great on the air freshener and they smell great! Customers like free items and it's a great way to market all of our locations!
- KATY SHAFFER, All Shined Up Car Wash

HOW DO I ORDER? IT'S SIMPLE!

What Are Custom Towels?

“Insanity is doing the same thing over and over and expecting different results.”

The year 2024 is a great time to consider doing something new and energizing for your business. Small positive changes in what we do at our businesses can yield substantial results.

Let's look at an example of modest change that could revolutionize your business. How would you like an additional 1,000+ “Unlimited Monthly Users per location?” It is possible.

Sometimes you must think creatively to transform an occasional customer into a long-time, faithful customer. Most of you buy, sell, and/or use towels. What would happen if you printed a QR code on your towel's label that brought your customer immediately to your website? To make things more exciting, what if they landed on your webpage that made an attractive invitation to join your “Unlimited Club?”

How does it work? Simply scan the towel label on the next page with your phone's camera to see where you go! You can have a printed QR code on all your towels' labels and point your customers in the right direction – to a page that promotes your monthly program.

Towels are something you are probably buying anyway. It is an easy process to take the next step and customize your towels and the towels' labels. You can have your logo, name, and/or your unique message attractively printed on your microfiber towels. The messaging can also make the pitch for your “Unlimited Monthly Plan” as well. Moreover, the towel's label can list an invitation to scan the QR code to find out about “your money saving monthly wash offers.”

If it seems like printed towels could be a good fit for your Car Wash, what do you do next?

I would start by determining what you would like to do with the towel. If towels are provided for a customer's use on premise, you have an immense opportunity to strengthen your car wash's brand by imprinting. For example – close your eyes. Think of a traditional bottle of Coca-Cola®. Do you see it in your head? This is a perfect instance of branding.

Good branding helps your customers identify, relate to, and remember your car wash, in the same way, when they need your services.

What is the first thing your client sees when he arrives at your car wash? It is your big, beautiful sign out front. The last thing your customer should see is your logo, name, and message on a soft printed towel as they perfectly dry their car. The first impression is the same as the last impression. That's called branding. It is a beautiful thing!

More about your printed towels—the best printing process to use on car wash towels is called inkjet sublimation. Your logo, name and message are dyed on a special dual-surface microfiber towel. The printed side of the towel is as soft as the towel itself. Your illustrations and text on the towel do not scratch clearcoat or paint. When you close your eyes and feel the towel...you cannot tell where your images are printed.

There are many choices on how to do this. You can print on (12" x 12"), (14" x 14"), (16" x 16"), (16" x 24"), and (16" x 27") microfiber towels in 300 GSM and 400 GSM. Automated production printing on rolls of microfiber offers the best value and lowest cost. Towels are cut and sewn to the needed size. You can get creative with the towel's label as well. Tyvek® towel labels can be printed in multiple colors, complete with a QR code. The most popular towel color for printing is Royal Blue. It is the darkest color that is printable, which is least likely to show stains. However, towels in all colors are available.

Express Washes use different business models to integrate towel use into their operations. However, one thing is for sure, most customers expect to have towels available for their use in some form. What are some of the interesting ways car washes promote their unique brand with towels in their businesses?

One way is to give printed towels to your customers for FREE in some type of promotion. You can also make a towel offer part of each "Top Wash Package." Special printed towels are also frequently used as giveaways when a new store is opened or during the holidays.

How about selling towels to your customers? Sell them to customers for \$2.00/EA or three for \$5.00. What is wrong with getting your customer to pay you for advertising? Ralph Lauren® and Yves Saint Laurent® have been successfully selling their high-quality products with their names on the merchandise for years.

Another option would be to start a Towel Replacement Program. Sell your beautiful, branded towels for \$2.00 to \$5.00 EA. Each time your customer brings back their soiled towel, you give them a clean one. Don't you think your customer would be curious about the QR code? Nearly everyone has a mobile phone with a camera these days.

What about towel theft? Some operators have an obvious reaction to pilfering. They go cheap. And the customer's experience becomes less important. They start an endless race to the bottom, looking for the smallest, cheapest possible towel in the marketplace. Proof of this is the existence of a friendly towel competitor who refers to his unhemmed towels as "rags."

Just think of what you are doing here. Your customers go through an automated kiosk, into a spotless tunnel, complete with state-of-the-art equipment. Customers are then treated to a light show with endless pampering, colorful foams and wax treatments. It is like going to a spa, but only for their car. At the end of the tunnel your customer drives through a litter-free parking lot with modern vacuums.

The vacuums suck - as they should - but the towels shouldn't. Some folks just dump piles of rags for their customers to use. However, good customer impressions are made until the end. Why would you want to offer dirty, worn, unimpressive towels as the last thing your customer puts their hands on before they leave the lot?

The answer is obvious. Travel in a different direction. Instead of making endless purchases of "rags", consider using towels with your brand recognition. Placing your name and messaging on towels sharply reduces theft. Hotels, hospitals nursing homes, school athletic programs, and gyms have been doing this successfully for about 100 years. Charley Cannon of Cannon Mills® started weaving hotel names into towels in the 1920's. The purpose was for branding and theft reduction. The practice continues to this day and is the most effective way to deter towel larceny.

Here is your bottom line - the QR code promotes your unlimited programs. Your printed logo, company name, and messaging provide brand recognition. The property marks significantly reduce towel theft, especially if used in conjunction with signage. And most importantly, your customer's experience is improved. What's not to like here?

Is there another towel branding option?

Yes. If you would like to stay with black towels, you have the possibility of getting sewn-in custom towel labels for a modest cost, if any. This can only be done offshore, so there is likely to be a minimum order. Nevertheless, you can get far with this, including featuring a QR code and your logo in color.

Are you ready to make a change in 2022? Why invest in everything else, and not your towels? With a powerful program of towel branding with printing and the use of QR codes, you are going to be lifted out of the tunnel into history.

And, if all goes well, you will be able to start taking Sundays off!

Express Towels - Option One

Using Towels to Define Your Unique Brand

What will my custom towel label look like?

The towel's label is important. It is the first element of the towel your customer will notice. This makes it the perfect place to start your pitch! If you place a QR code on the front of the label with a call to action "PLEASE SCAN ME," it is likely that they will. This will bring new and old customers to your website page promoting your Unlimited Car Wash Club, your social media presence, or perhaps an invitation to download your car wash's smartphone app.

It is likely that 80% of all customers will look on the back of the label next. When someone hands you a business card, don't you always turn it over and look on the back? Here is where you make your second pitch.

Are you just getting your foothold? Here is your chance to clarify your message - Join our Unlimited Car Wash Club, Your First Month is FREE. You will never get a second chance to make a second impression!

Are you looking to remind your customers not to take the towels home? How about "THOU SHALL NOT STEAL," or "PLEASE RETURN TOWELS TO USED BIN."

All towel labels are printed on Tyvek®. It is as soft as the towel and will not scratch clearcoat or paint. The label can be made slightly larger to accommodate your message. There is no upcharge for this. The towel's label can be any color. We recommend white or yellow for best contrast. Lastly, your logo can also be reproduced on the label in full color. Our graphic designers will help you make a great impression.

How do I get started with custom-printed towels?

If it seems like printed towels could be a good fit for your car wash, what do you do next?

The first step is easy—give Doctor Joe a call at 1-800-233-3873.

The good doctor will walk you through the towel design steps. When you have a clear vision of what you want to do, the rest is easy. Starting out, we recommend a QR code on the front of the towel's label with and an invitation to "PLEASE SCAN ME." When scanned, your customer will go directly to your website or app, making a pitch for your Unlimited Monthly Wash Club.

If towels are provided for a customer's use on premise, you have an immense opportunity to strengthen your car wash's brand by imprinting your logo, name, and message on the towel. Perhaps a reminder to reduce towel theft: "PROPERTY OF" or "PLEASE RETURN" or even "THOU SHALL NOT STEAL."

If you are giving out towels when opening new stores, the messaging might read "Save money by joining our Unlimited Monthly Wash Club." The QR code on the towel's label will transform your towel into a powerful marketing tool!

Kleen-Rite has a staff of professional graphic designers that will place your ideas on the towels. You will get to see a Photoshop prototype of exactly what your towel will look like. Additionally, we will send you some Doctor Joe printed towel samples. You will be able to feel the texture and quality. The images on the towel are dyed and are as soft as the towel.

The only hard part about the ordering process is containing your enthusiasm waiting for your order to come in!

Express Towels - Option Three

The Towel Replacement Program

EXCHANGE DIRTY FOR CLEAN

Make a difference in the way your customers remember you by putting your name on towels.

This is where a unique towel is sold “one time” to a customer. Each time the customer returns the same towel, a fresh clean towel is given to replace the soiled towel. The program promotes customer loyalty. The patron can only return the unique towel to where he purchased it – your wash. That is the key. The towel must have characteristics that make it worthy of keeping. It should suggest value, quality, and sustainability. And it must work well.

Giving Your Towels a Longer Life Care and Cleaning of Your Investment

Towels are an investment. And like with all things worthwhile, if you take care of your towels, they will take care of you. The purpose here is to provide suggestions to help you get better use out of your towels and give them a longer life.

What about washing microfiber towels?

The most important thing to remember when washing them is to never put a microfiber towel in a dryer on high heat. The fibers will fuse together and render the towel useless. If a dryer is used at all, set it on "air dry" or "low heat".

Contamination found in car wash and detailing towels is far different than the soil, food, and dirt found in other towels around your home. Regular laundry soaps and chemicals are not formulated to professionally clean and revitalize microfiber fabric.

For cleaning and restoring your microfiber towels, we highly recommend Prime Emulsifier, available from Kleen-Rite. It is uniquely formulated to remove the mix of dirt, oil, waxes, and grease from split microfibers. When used regularly, it will clean the fibers, open up the pores, and improve absorbency.

What is important to know about washing cotton towels?

Cotton towels require washing and machine drying before their first use. Nothing will remove more lint from a cotton towel than a few good spin cycles in the dryer. Just remember to clean the lint trap before and after each drying cycle. Washing also makes your cotton towels softer and more absorbent. A good best practice is to use one cup of white vinegar with the first wash load, without detergent. This will help release lint, break the towels in, and keep them fresh. It is also useful to soak new towels in a cup of ammonia and several gallons of warm water. This will dissolve any yarn oils or treatments in the fabric that inhibit absorbency.

If you are using microfiber and cotton towels at the same location, we recommend you use Prime Emulsifier for both items. Although formulated for microfiber, it also works effectively on cotton towels.

There are a few principles that apply to both microfiber and cotton towels:

- Clean towels work better. There is no point in trying to dry a clean car with a dirty towel.
- If a damp towel is dropped on the pavement it needs to be taken out of service and separated from even the dirty towels. The ground-soiled towels could contain sand and stone particles that can scratch paint or worse. These towels need special attention before entering service again.
- All towels need to be washed at least once prior to their first use.
- All towels need to be washed separately. Do not wash cotton with microfiber. Do not mix body towels, window towels, special towels, and detail towels. Each type of towel needs to be washed separately.
- Bleach can damage microfiber and cotton towels. Do not use bleach at all unless you have purchased our special Safe-2-Bleach Towels®.
- Avoid the use of fabric softener on all towels. Sure, it makes the towels softer – but it is water repellent, making them less effective at doing the work you need them to do.
- Damp microfiber and cotton towels are most effective for water removal from vehicles. Water is attracted to water, beading up and merging. Did you ever move two beads of water together on a Formica table? They become one.

PRIME EMULSIFIER MICROFIBER TOWEL CLEANER TOWELS BY DOCTOR JOE

Prime Emulsifier is a gentle cleanser that not only removes oils and dirt from your microfiber towels, but improves their absorbency, too! When used regularly, Dr. Joe's formula opens the pores in towel fibers, allowing more water retention during use, and allowing the release of dirt, oil, and grease during wash cycles. Prime Emulsifier is safe for use on all fibers, including cotton towels, and will not affect the pH of wastewater. Enjoy clean, soft, and absorbent towels! Regular laundry soaps and chemicals are not formulated to professionally clean and revitalize microfiber fabric

- Sold in 5 gallon pails or 55 gallon drums
- Will not affect pH of wastewater
- Safe for all fabrics including microfiber and cotton
- Formulated to remove dirt, oil, wax, and grease from split microfibers

TOWELS BY DOCTOR JOE®

BODY DRYING TOWELS - MICROFIBER

SUPER PLUSH MICROFIBER TOWEL

TOWELS BY DOCTOR JOE

Size and weight matter when drying vehicles. With measurements in the hand towel range of 16" x 27", it is the perfect towel for wicking water off cars. Anything larger or denser would be cumbersome and difficult to manage when saturated with water. The ULTRA-85 has been engineered for long use, able to withstand hundreds of washings. Available in solid black or black and charcoal with a distinctive red textured soft nylon edge banding. When properly cared for, this towel is good for 500+ washings!

- Sold 12 per case
- Heavyweight and plush, bleach-resistant
- Each towel measures 16" x 27"
- Attractive red stitched edge

\$22.50	DJMF8500-BK	Black (shown); 400 GSM	Ultra 85
\$22.50	DJMF8500-CHAR	Charcoal (shown); 400 GSM	Ultra 85
\$29.15	DJMF1500-BK	Solid Black	Ultra 15

ULTRA-80 HEAVY WEIGHT BODY DRYING MICROFIBER TOWELS

TOWELS BY DOCTOR JOE

The ULTRA-80 microfiber body towel is the best-selling towel in the car wash industry! Why? The answer is performance and value. ULTRA-80 was designed and manufactured to be a car wash body towel. Doctor Joe created a wish list from car wash operators of what characteristics they were looking for in a body drying towel. The traits included super absorbency, lint-free, dark colors, sustainability, and reasonable price. The recipe was complete. And the result was ULTRA-80, our problem solver towel. It does it all with just one call!

- Sold 12 per case
- Has the soft feel of cotton
- Properly cared for, good for 500+ washings
- Each towel measures 16" x 27"
- Boasts high-quality performance and durability
- For car washes, auto detailing shops, janitorial, & salon

\$18.45	DJMF8000-BL	Royal Blue	\$18.45	DJMF8000-R	Red

ULTRA-70 THICK TERRY MICROFIBER TOWELS

TOWELS BY DOCTOR JOE

Ultra-70 is the perfect towel when a heftier towel is needed. Ideal for drying and polishing big stuff like airplanes, RV's, and boats. Its large surface area quickly dries the entire vehicle. Nicknamed "The Big Buff": it will leave your large vehicle with a glossy finish. Anything larger than 20" x 40" would likely be unmanageable when soaked with water. This towel is 325 GSM.

- Sold 10 per case
- Individually wrapped
- Each towel measures 20" x 40"
- Great for car washes, detailers, spas, hotels, & more

THINK THICK HAND TOWELS

TOWELS BY DOCTOR JOE

Based on the popular, absorbent "hotel towel" concept, this towel design comes from the fact that many car washes like thick, heavy towels for absorbency. This towel is manufactured and designed specifically for car washes. These towels are machine washable. Think Thick hand towels will be perfectly broken-in and super absorbent after only one wash and dry. Not for salon use.

- Sold 12 per case
- 4.5 lb/dozen
- Wash and dry prior to first use
- Each towel measures 16" x 27"
- Excellent for drying cars and wax removal
- Thick, durable made from 100% medical cotton

GLASS TOWELS - MICROFIBER

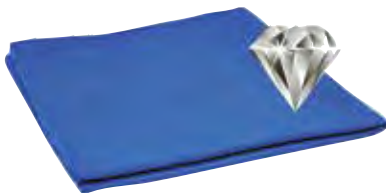

ULTRA-32 WAFFLE WEAVE MICROFIBER TOWELS

TOWELS BY DOCTOR JOE

These 400 GSM towels are classified as waffle-weave glass cleaning towels, because of their superior ability to remove heavy smoke, sticky handprints, and so much more off windshields. The towels also work well as body towels. The small pouches scoop up water and hold it firmly within the towel. If the waffle weave becomes your towel of choice always remember to color code. Use different colors for the windshield and for drying the car's body.

- Sold 12 per case
- Microfiber material
- Great for color-coding use at your business
- Each towel measures 16" x 24"
- Great for glass cleaning, body drying and wax removal
- Absorbs up to 7x its weight in water

LAUNDERED SURGICAL HUCK TOWEL

TOWELS BY DOCTOR JOE

These cloths are excellent for cleaning glass, drying, and general cleaning. Though previously used, these cloths have been perfectly washed, sterilized, and recycled. They are laid flat in handy bundles of 10 each, 10 bundles per case (100 total). These surgical huck towels are made of 100% pure cotton and are lint-free.

- Sold 100 per case
- 1.6 lb/dozen
- Each towel measures 16" x 25"
- Washed and sterilized

\$61.97	DJS1150-BL
----------------	-------------------

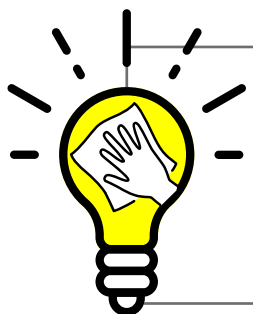

BLUE FOLDED SURGICAL TOWEL

TOWELS BY DOCTOR JOE

These 100% cotton surgical towels are packed fan-folded and dog-eared. They are lint-free and absorbent. Excellent choice for lint-free wiping, cleaning glass, drying, detailing, and vending at self-serve car washes! Imported from China.

- Sold 100 per carton - 50 pieces per poly bag
- 1.7 lb/dozen
- Each towel measures 16" x 24"
- Fan-folded and dog-eared - ready for lint-free wiping

\$55.00	DJS1700-BL
----------------	-------------------

TOWEL TIP

Q: Why do surgical towels make good glass towels?

A: Surgical Huck towels are the same types of cloth used in the medical field for cleaning and wiping. They are required to be lint-free, durable, and absorbent. These are the same necessary characteristics of good glass towels.

TOWELS BY DOCTOR JOE®

DETAIL TOWELS - WIPING AND CLEANING

UTILITY TOWELS WITH COLORED CENTER STRIPE

PLUSH INTERIOR DETAILING TOWELS

TOWELS BY DOCTOR JOE

Based on the popular, absorbent "hotel towel" concept, this is a heavy-weight, 100% cotton, full-plush terry towel. This plush and absorbent towel is great for car care applications. This towel is super-absorbent after one wash and machine dry. Use as an applicator or a "spotting" wiper for upholstery and carpeting. Excellent for cleaning and moisturizing leather seats and steering wheels. This handy, all-purpose towel can be used in janitorial, food service and housekeeping applications.

- Sold 12 per case
- Each towel measures 14" x 16"
- Approximately 2.25 lb/dozen
- Heavy weight material; hotel quality
- 100% cotton, full-terry towel
- Finished with real mill end hemming

\$14.85 DJT1460-W

ALL PURPOSE MICROFIBER TOWELS

TOWELS BY DOCTOR JOE

The 300 GSM All Purpose Microfiber Towel provides the performance and durability of microfiber with the supple feel of standard cotton towels. Available in three pastel colors, this cloth furnishes the detailer with opportunity to "color code," identifying a color with a job. Safe to use on electronic equipment and other sensitive surfaces with interior detailing. Use damp for general cleaning; wet for scrubbing heavily soiled areas; and dry for dusting. Excellent for use in leather cleaning and conditioning.

- Sold 12 per case
- Each towel measures 16" x 19"
- Pastel colors do not bleed
- Safe for use on vinyl, plastics, wood, and metal

LARGER ALL-PURPOSE BUFF TOWELS

TOWELS BY DOCTOR JOE

Many professional detailers prefer to work with a larger buff towel for wax removal. This towel is the big brother of the ALL-PURPOSE BUFF TOWELS, measuring 16" x 24" in size. With added surface area, the larger towel reduces buffing time. It is also less likely to get filled with wax cake. Perfect for removal of polish, wax, compound, glaze, sealant, and detailing sprays. Use for buffing, spray waxes, and the final buff. Now offered in five vibrant colors.

- Sold 50 per case or by pallet
- Each towel measures 16" x 24"

TOWELZILLA™ - THE EXTREME DETAILING TOWEL

TOWELS BY DOCTOR JOE

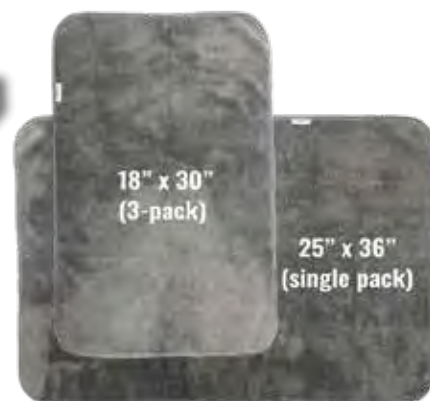

Doctor Joe is delighted to introduce TowelZilla™, the ultimate car cloth. The towel is made from a super-thick, plush microfiber coral fleece that introduces a softness that is unrivaled in the Automotive Appearance Industry! It simply trounces the competition. Dare I say there is no competition. Everything is big about TowelZilla, except its price. Weighing in at a monstrous 780 GSM, it is available 18" x 30" or 25" x 36", both in charcoal gray. TowelZilla is equally suitable for drying vehicles, wax removal, and unsurpassed for use in the final buff. Size matters and TowelZilla is the T-Rex of towels!

- Will not scratch paint, clear coat, or other surfaces
- Maximum plushness when a higher pile is preferred
- Deep velvet pile makes it ideal for the final polish
- Guaranteed streak-free, lint-free, and non-abrasive

KR Part #	Color	Towels Size	Towels Weight	Towels Per Pkg	Pkgs Per Case	Your Price Per Pkg

KLEEN-RITE CORP.

YOU HAVE HAD 61 YEARS TO GET TO KNOW WHY LAUREL MEANS "DEPENDABILITY IN VENDING" and is the first choice when purchasing car wash vending equipment for your wash.

Laurel began operation in a similar way to that of many companies in the car wash field. In 1959, Rich Kent incorporated a company that had its beginning in the basement of a house on Laurel Avenue in Wilmette, IL. The early work at Laurel involved the production of many different types of metal products and the continuing development of equipment to vend a wide array of consumer products.

27 SELECTION MEGA-VENDOR® MINIVENDOR WITH COINCO

BY RAIN TUNNEL

- The MegaVendor Mini is for vending products not requiring refrigeration. Since it doesn't need insulation, it costs less. The Mini saves space, too! It's only 28½" wide and 29½" deep. In addition, the vendor has a more modern look and is available in black or gray. Every Mini comes with patented Sensit® Guaranteed Delivery System.
- Mega-Vendor vending systems are revolutionizing the method for selling items in unattended areas such as car washes, rest stops, golf courses, small airports, and more!
- The Mega-Vendor with a combination of "Guaranteed to Vend" Sensit Technology and physical security creates the opportunity to sell virtually any items that will physically fit in the machine. Items such as car washing supplies, snacks, road maps, cell phones, tire repair kits, etc. are currently being sold in the Mega-Vendor system.
- All Mega-Vendor models include a 3-year warranty on the electronic board and sensors and a 1-year warranty on the rest of the machine. Also included on all models, the Coinco Vantage Bill Acceptor (metal bezel) and a Coinco Coin Validator - which can be programmed to accept tokens.

VALIDATOR COVER

MEGA-VENDOR PARTS & ACCESSORIES

- Available for Coinco validators

\$103.52 MG22000C

ADDING ELECTRONIC PAYMENT ACCEPTANCE WILL RESULT IN AN INCREASE TO YOUR OVERALL REVENUE!

Credit card users spend anywhere from 30% to 50% more than cash customers on each transaction resulting in an increased amount of revenue per customers. Customers who use a credit card will wash more frequently because they are not tied to the cash and change in their possession.

VENDORS FROM RAIN TUNNEL

MEGA-VENDOR III® BY RAIN TUNNEL

The Mega-Vendor III is rated for outdoor use and has built in security features including: heavy gauge steel lock cover, triple pane heated glass protected by a polycarbonate panel, steel vandal panels, and a steel keypad cover built-in. The Mega-Vendor III is a glass front vending machine. The machine will vend 41 to 56 items depending on the size of each product. The Mega-Vendor III creates exciting new opportunities for the carwash owner.

- Refrigerated
- Mars and Coinco (metal bezel) acceptor options.
- The machine includes a 3 year warranty on the refrigeration, electronic board and sensors and a 1 year warranty on the rest of the machine.
- 39" W x 35" D x 72" H
- Glass front vending machine available in two different configurations: 6 product trays, or 4 product trays with 2 drink trays
- The machine vends 41 to 56 items depending on product size
- Mega-Vendor III is rated for outdoor use
- Built-in security features including: Heavy gauge steel lock cover, triple pane heated glass protected by a polycarbonate panel, steel vandal panels, and a steel keypad cover built in. These features combine to enable use without a security enclosure.

\$419.48 KRK1800

WHETHER YOU ARE PURCHASING YOUR FIRST VENDOR OR RESTOCKING YOUR EXISTING MACHINES, KLEEN-RITE'S VENDING KITS ARE A GREAT DEAL! EACH KIT CONTAINS BEST SELLING VENDING PRODUCTS TO DRIVE SALES AND INCREASE PROFITS AT YOUR CAR WASH.

Each kit includes over 400 Little Trees air fresheners in popular scents:

- Strawberry
- Wild Cherry
- New Car
- Vanilla
- Black Ice

In fact, we include a full 12 dozen of Black Ice alone as it is hugely popular and a known money maker! Each air freshener is in a clear vending pouch that's easy to open. This packaging allows for a clear view of the product when in a vending machine.

Car wash patrons often want to spruce up their wheels and interiors when they leave the bay. This kit includes several popular Armor All products that add that final detailing touch!

You'll get 100 of the Armor All Cleaning Sponge and 100 Original Protectant sponges. Both of these vending products are staples in the car care industry. Each sponge can vend for \$1.00, delivering a great profit! The kit also includes 24 count, 4 oz. cans of Armor All Tire Foam, a popular retail product sized to fit in vending machines.

This kit includes only the most popular vending products to ensure you see an excellent return on your investment. Each product is also available for sale on its own. This means it is easy to replenish your customers' favorites at any time.

Keeping these name-brand products front and center in your vendor will be sure to catch customers' eyes. Stock up now and encourage patrons to stay a little longer at your car wash!

DUE TO PRODUCT SIZE AND SHAPE, THIS KIT IS RECOMMENDED FOR USE IN GLASS FRONT SPIRAL VENDING MACHINES.

MOTHERS®
Polishes+Waxes+Cleaners

MOTHERS® VENDING PRODUCTS

INSTANT DETAILER

MOTHERS

- Provides a sparkling showroom shine! Best used as a touch-up solution when a finish needs some attention, this formula clears layers of dust, removes fingerprints and smudges, and hides minor imperfections and spider-webbing. Break out this product when a ride needs to look freshly detailed in a short amount of time!
- 3.4 oz bottle - 24 bottles per case
- Quick results
- Remove dust, smudges, fingerprints, and other minor imperfections

\$48.88 MD08205

PROTECTANT SPRAY

MOTHERS

- Preserves and protects for 30 days! Mothers Protectant is a penetrating UV blocker, effective on rubber, vinyl, plastic and fiberglass. Formulated to recondition and maintain the original condition and appearance of dashboards, bumpers, trim, tires and more. Protectant isn't an oily surface coating film. It's an ozone and smog resisting, UV shielding penetrant and a preservation agent that works on just about any uncoated plastic or rubber.
- 3.4 oz bottle - 24 bottles per case
- UV protection
- Use on a variety of surfaces like rubber, vinyl, plastic, and fiberglass

\$43.57 MD05305

TOTAL INTERIOR DETAILER

MOTHERS

- Easy to keep that fresh "new car" look and smell - simply spray and wipe on virtually any surface inside your vehicle, including your dash, glass and screens
- Ammonia-free formula that uses micro-emulsifying agents and biodegradable surfactants to quickly dissolve dirt, oily film and fingerprints
- 3.4 oz bottle - perfect for vending and retail sales
- 24 bottles per case

\$48.88 MD05435

GLASS & SURFACE CLEANER

MOTHERS

- Quickly removes tough grime, dirt, oily film, and fingerprints from virtually any surface, leaving behind a sparkling clean, streak-free shine. This pro-strength, ammonia-free formula effectively cleans glass, mirrors, plastic, and chrome, yet it's safe for delicate window tint, gauges, GPS screens, smartphones, tablets, touch screens and other displays. It's also great for home use on windows, countertops, appliances, TVs, and monitors.
- 3.4 oz bottle - 24 bottles per case
- Ammonia-free formulation
- Streak-free shine

\$48.88 MD06605

GLASS CLEANER

GLASS CLEANER FOAM SPRAYWAY

- 4 oz. can | 24 per case
- For windows, mirrors, windshields and other glass surfaces
- It effectively dissolves dirt, grease, grit, and grime. The heavy-duty foam clings to vertical surfaces and guaranteed to leave no film.
- Contains perfume-grade alcohol for best performance - leaves behind a clean, fresh fragrance
- Ammonia-free

ORIGINAL SHAMMY TOWELS

COUNTLESS DRIVERS COME TO YOUR BUSY CAR WASH EVERY DAY - HOW MANY OF THEM BRING A TOWEL?

Chances are that few do. Take advantage of this great money making opportunity by stocking your vending machines with the Original Shammy! You'll find that many customers actually prefer the convenience and performance of the Original Shammy, instead of having to remember to bring (and wash!) a towel from home.

The Original Shammy is a unique, reusable and disposable product that can hold up to 21 times its own weight in liquid! Simply wipe it over a wet surface and watch the water disappear. When saturated, the Original Shammy can be wrung out and used again.

Made of a soft, non-abrasive material, the Original Shammy will not scratch vehicle surfaces. It's perfect for washing and drying vehicle bodies, windshields, trim, and mirrors. The Original Shammy even works when polishing cars - it's that gentle.

Each case includes 120 assorted blue, orange, and yellow Original Shammy towels in individual wrapping. Rest assured that while the color may vary, the quality does not! Every Original Shammy performs exactly the same way and delivers remarkable water-capturing capabilities. FREE decals and overlays are available to advertise this product on your vending machines, too! Suggested vend price is \$2.25 per Shammy. This low price point is attractive to customers, encouraging sales, while still bringing your car wash an additional \$1.56 in profit per case sold!

Sustainability-focused customers will like that they can machine wash - and even bleach - their new Original Shammy. Its lightweight design is perfect to stow in the car for future car wash trips or even wiping up accidental spills. Likewise, busy customers will also love the Original Shammy's disposability - they'll know they can rely on your car wash to offer an Original Shammy for purchase at every visit. It's truly the product that pleases everyone!

ADD THIS MONEY-MAKING PRODUCT TO YOUR VENDING MACHINE TODAY AT A GREAT LOW PRICE!

THE ORIGINAL SHAMMY VENDING TOWELS

- Unfolded Original Shammy measures 12.5" x 16.75"
- 120 per case
- Individually wrapped and easy to vend
- Eye-catching, colors - assorted orange, blue & yellow
- Absorbs up to 21 times its weight in liquid
- Appropriate for washing, drying, or polishing vehicles
- Non-abrasive, will not leave scratches
- Machine washable and bleachable
- Easily disposable
- Offers great customer convenience
- Fantastic return on investment and profit with every case

ORIGINAL OZIUM AIR SANITIZER

- 8 oz. air sanitizer - 6 per box
- Sanitizes and cleans air, temporarily reducing airborne bacteria and fighting its spread
- Doesn't just mask odors, it obliterates them by attacking and reducing odor-causing bacteria
- Eliminates odors from smoke and other unpleasant everyday smells leaving the air clean and odor-free.
- Just a short spray cleans the air with a light burst of fragrance that disappears with the odor; there's no overwhelming scent or lingering smells.
- Trusted for over 50 years, OZIUM® was originally developed to combat airborne bacteria in hospitals and is clinically proven to sanitize and freshen the air.

- Removes fingerprints, smudges, dust, bugs, and even light water spots, leaving behind a protective barrier to keep your chrome sparkling.

\$30.25 MD05222

CALIFORNIA GOLD® BRAZILIAN CARNAUBA CLEANER WAX
MOTHERS RETAIL PRODUCTS

- One-step plan for paint preservation. Cleaner Wax is formulated to clean and protect in just one application. We use the same Brazilian #1 yellow carnauba that makes our Pure Carnauba Wax so special, and combined it with a light polish that will smooth minor flaws and make your paint snap. Brazilian Carnauba Cleaner Wax is especially effective on fiberglass and gel coats.
- Available in liquid or paste

\$47.08	MD05701	16 oz. Liquid	6 Per Case
\$67.22	MD05500	12 oz. Paste	

CALIFORNIA GOLD® CLAY BAR SYSTEM
MOTHERS RETAIL PRODUCTS

- 3 clay bars per pack | 6 packs per case
- Removes embedded grains of metal, tree sap, airborne environmental deposits, and paint overspray. Not hazardous to car paint; it's just firm enough to pick up contaminants without being too aggressive. Plus, it paves the way for complete waxing!

\$118.28 MD07240

CALIFORNIA GOLD® 3 CLAY BARS
MOTHERS RETAIL PRODUCTS

- 3 clay bars per pack | 6 packs per case
- Created to remove the particulate debris and contaminants that washing and polishing can't, clay bar will remove embedded grains of metal, tree sap, airborne environmental deposits and paint overspray. Gets rid of paint-fouling grime and pave the way for polishing, waxing or coating.
- Perfect for the frequent user who doesn't need the lubricant and towel.

\$89.78 MD07242

CALIFORNIA GOLD® WATERLESS WASH & WAX
MOTHERS RETAIL PRODUCTS

- 24 oz. bottle - 6 bottles per case
- Unique formula that allows you to both wash and wax vehicles surfaces without using any water.
- Excellent for areas with water restrictions or isolated spots where it's difficult for water hoses to reach.
- Acts as a cleaner that dissolves dirt and road grime, as well as a finishing product.
- Simply spray, wipe, and buff the vehicle surface to leave a clean, scratch-free, shiny waxed finish.

\$43.69 MD05644

CALIFORNIA GOLD® SPRAY WAX
MOTHERS RETAIL PRODUCTS

- 24 oz. - 6 bottles per case
- Quick and easy way to clean, shine, and protect any automotive paint, including clear coat. It safely removes surface dust and fingerprints, while adding long-lasting shine, luster, and depth.
- Cleans and protects
- Provides that just-waxed look
- For wet or dry surfaces

\$47.05 MD05724

MOTHERS® SPEED™ LINE & REVISION™

MOTHERS
Polishes • Waxes • Cleaners

BUG & TAR REMOVER MOTHERS SPEED PRODUCTS

- 18.5 oz. - 6 cans per case
- A fast-acting, professional spray that effectively neutralizes acidic bug guts, bird droppings, and other unsavory foreign contaminants on contact!
- Ideal for road grime, tar, sap, and other organic matter.
- Use on paint, chrome, glass, metal, plastic, acrylic, vinyl wrap, and clear paint surfaces.
- No-drip foam works well on hard-to-reach areas like grills, vents, louvers, and other detailing spots!

\$33.61 MD16719

FOAMING GLASS & SCREEN CLEANER MOTHERS SPEED PRODUCTS

- 19 oz. - 6 cans per case
- Foaming mist won't drip or run, cuts through grime, dirt, oily film and fingerprints, leaving only a streak-free shine
- Ammonia-free formula is safe for a variety of applications including window tint, phones, gauges and more!

\$29.52 MD16619

TIRE SHINE MOTHERS SPEED PRODUCTS

- 15 oz. - 6 cans per case
- Durable, penetrating mist coats your tire for maximum shine & superior protection.
- Micro-emulsion resin technology combines with premium silicones to give your tires a finish that won't brown, sling or run.

\$40.33 MD16915

CLAY 2.0 TOOL MOTHERS SPEED PRODUCTS

- **SOLD INDIVIDUALLY**
- Patented, rubber polymer technology quickly shears off and removes both surface and embedded contaminants including paint overspray, water spots, fresh tree sap, rail dust, bird droppings, light oxidation and brake dust.

\$21.12 MD17240

SPRAY WAX MOTHERS SPEED PRODUCTS

- 24 oz. - 6 bottles per case
- Tackling everything from light dust and pollen to greasy fingerprints and road grime.
- No white residue
- Works as a booster over your existing wax, or as a stand-alone product, and can even be used to wax as you dry your car.

\$48.99 MD15724

INTERIOR DETAILER SPRAY MOTHERS SPEED PRODUCTS

- 24 oz. - 6 bottles per case
- Ammonia-free formula uses micro-emulsifying agents and biodegradable surfactants to quickly dissolve dirt, oily film and fingerprints, leaving your interior surfaces clean and protected, without greasy residue or streaks.

\$33.58 MD18324

ALL-PURPOSE CLEANER SPRAY MOTHERS SPEED PRODUCTS

- 24 oz. - 6 bottles per case
- Powerful enough for the grasiest of jobs, even under the hood
- Carefully crafted blend of nonionic surfactants and highly effective cleaners are gentle enough to dissolve oils and tough stains embedded in your delicate carpet and upholstery

\$30.26 MD18924

REVISION™ GLASS + SURFACE MOTHERS RETAIL PRODUCTS

- 24 oz. - 6 bottles per case
- Quickly removes tough grime, dirt, oily film and fingerprints from virtually any surface, leaving behind a sparkling clean, streak-free shine.
- Pro-strength ammonia-free formula effectively cleans glass, mirrors, plastic and chrome, yet it's safe for delicate window tint, gauges, GPS screens, smart phones, tablets, touchscreens, and other displays.
- Great for home use on windows, countertops, appliances, TVs and monitors.

KLEEN-RITE SANITIZING KIT | DISINFECTANTS/SANITIZERS

INTERIOR VEHICLE SANITIZING KIT

KLEEN-RITE

Provide your customers with a new service, and help them be confident in the level of cleanliness in their vehicle! Ready to go right out of the box, this kit will help you sanitize and disinfect the interiors of customer vehicles, as a courtesy or as an additional service.

The Dema 900.5LSU Foam Spray Unit is a super-compact chemical sprayer with a manual hand pump. This model is perfect for smaller jobs and spot cleaning in tight spaces.

Simoniz Proselect RTU Interior Car Surface Disinfectant, Sanitizer and Deodorizer sanitizes and disinfects against many of the leading bacteria, viruses, and fungus found in vehicles. Formulation has been designed and tested for use on soft vehicle surfaces including upholstery, fabric, and seat cushions, as well as household surfaces including couches and blankets. Appropriate for hard, nonporous vehicle surfaces including dashboards, steering wheels, windows, doors, instrument panels, consoles, seat belt buckles, and almost any metal, stainless steel, or plastic surface.

INCLUDES:

- 1 Dema 900.5LSU Pump Spray Unit • 1 Case (12 quarts) Simoniz RTU Interior Sanitizer

\$135.32	KRK9000
-----------------	----------------

PROSELECT RTU CAR SURFACE SANITIZER & DISINFECTANT

\$168.18	MGD4005	5 Gallon

ULTRA PRO SPEED COMPOUND

MEGUIAR'S MIRROR GLAZE

- Advanced cutting compound provides a quick, heavy cut and a high gloss depth of shine.
- Has a long work cycle that removes up to 1,200 grit sanding marks while delivering an extremely high gloss finish.
- Formulated for restoration purposes

\$38.57	MGD11032	32 oz.
\$124.01	MGD1101	1 Gallon

MEGUIAR'S® MIRROR GLAZE DETAILING CHEMICALS

DIAMOND-CUT COMPOUND 2.0 MEGUIAR'S MIRROR GLAZE

- Speedy, low-swirl cutting compound that works well in high solids production shops
- This formula is low dust and low splatter, making it easy as well as effective to use on all clear coats, high solids, lacquers, enamels, and refinished / OEM glossy paint
- Apply with a rotary buffer

\$46.57	MGD8501	1 Gallon
----------------	----------------	----------

FINAL INSPECTION MEGUIAR'S MIRROR GLAZE

- Excellent for body shops, car washes, and professional detailers
- Use to clean up polishes and compounds, evaluate paint repairs, find defects, and as a final wipe-down
- Safe for use on all paint finishes and clear coats.
- Removes fingerprints and light contaminants while maintaining a showroom shine
- Use to spot paint defects, as a clay lubricant, or a final showroom finish

\$29.76	MGD3401	1 Gallon
----------------	----------------	----------

ULTRA CUT COMPOUND MEGUIAR'S MIRROR GLAZE

- Removes scratches, defects, acid rain, severe swirls and holograms on painted surfaces
- Composed with an exclusive super-micro abrasive technology that delivers an exceptional finish
- Apply using dual action polisher, rotary buffer, or by hand.
- Fast cutting formula removes 1200 grit or finer sanding marks

\$99.42	MGD010501	1 Gallon
----------------	------------------	----------

PRO SPEED COMPOUND MEGUIAR'S MIRROR GLAZE

- Fast cutting compound with advanced technology
- Quick removal of 1200 grit and finer sanding marks for easier polishing
- Removes deep scratches, acid rain, and severe swirls/holograms
- Works great on fresh and cured paints, and is safe and effective on all glossy paint finishes including clear coats (body shop safe)
- Formulated for use with a rotary buffer

\$62.82	MGD10001	1 Gallon
----------------	-----------------	----------

ULTRA FINISHING POLISH MEGUIAR'S MIRROR GLAZE

- Liquid detailing product formulated to deliver deep reflections and a high gloss shine on paint surfaces
- Removes swirls and light defects from vehicle paint
- Provides a smooth buffing feel during application
- Formula wipes off fast for efficient detailing operations

\$95.51	MGD20501	1 Gallon
----------------	-----------------	----------

QUICK DETAILER MEGUIAR'S MIRROR GLAZE

- Cleaner and wax blend
- Great for high production reconditioning
- Apply by hand, DA polisher, or rotary buffer
- Restores deep gloss and leaves a wax finish
- Removes oxidation and other small blemishes
- For body shops and professional detailers

LEATHER CARE

LEATHER DEEP CLEANER

LEXOL

- Leather is constantly exposed to dirt, sunlight, heat and humidity. Leather goods can be an expensive investment, but will look their best and last longer if protected with proper care.
- Lexol pH-balanced cleaner is purely a cleaner. There are no silicones, alcohols, waxes, oils, or additives that would interfere with its cleaning action or cause dirt to be trapped in the leather.
- This pH-balanced formula maintains the pH range of leather itself, which means it cleans leather safely as well as the stitching and other fibers that hold leather together. Its foaming action loosens and lifts dirt so it can be easily wiped away, leaving no tacky residue.
- Use on: leather auto upholstery, footwear, furniture, handbags & briefcases, sports equipment, and luggage
- Contains no waxes, oils, or additives that interfere with its cleaning capabilities
- Rinses easily, leaving leather healthy, supple and able to breathe
- Leaves no tacky residue

\$128.80	LEX1112	1 Liter	12 Per Case
\$20.40	LEX1108	8 oz	6 Per Case

LEATHER CONDITIONER

LEXOL

- Soften leather with this conditioner. It works to preserve and soften leather, as well as prevent cracking. Though leather can get dry, it can look and feel "like new" for many years if properly cared for. Lexol's liquid base allows the conditioner to penetrate the surface into leather pores, for deep conditioning that prevents cracking and premature aging.
- This liquid conditioner leaves no greasy residue and it contains no harmful silicon ingredients which dry out leather over time. Lexol conditioner results in supple, strong, and beautiful leather.
- Use on: leather auto upholstery, footwear, furniture, handbags and briefcases, sports equipment and luggage
- Protects leather against cracking and premature aging
- Leaves no greasy residue

\$76.75	LEX1014	3 Liter	4 Per Case
\$20.40	LEX1008	8 oz	6 Per Case

DETAILING PRODUCTS

FABRIC REFRESHER

FEBREZE

- Deep penetrating formula cleans away odors trapped in fabrics. This cleaning product goes straight to the root of the odors to eliminate them. Pour this ready-to-use formula into a spray bottle and store the rest for later!
- Spray this Febreze Professional product right onto fabrics until slightly damp. The odors will disappear as it dries. This fabric refresher leaves behind a pleasant, light scent to keep the area smelling clean and fresh.
- 1-gallon container with cap for storage

\$23.99	PGA33032
----------------	-----------------

SIMONIZ® ELIMINATOR

SIMONIZ

- Convenient heavy duty odor eliminator and deodorant for use almost anywhere! An ideal choice for use with cleaning solutions, mop buckets, and carpet shampoos. Great for deodorizing bathrooms, trash compactors, drains, portable toilets, hotels, and nursing homes.
- Reliably deodorizes and cleans in on easy step. Get rid of odorous animal, pet, garbage, mildew, cooking, smoke, rotting food, and other unwanted smells.

SPECIFICATIONS:

BRAKE AND PARTS CLEANER

DENCO

- Denco's proven Brake & Parts cleaner formula removes grease, brake dust, brake fluid, oils, and other contaminants from metal parts. Use on brake parts, lining, and pads - safe for ABS, calipers, pads, rotors, and other brake line system parts. Can also be used as a multi-purpose spray solvent on other metal surfaces - do not use on painted surfaces or rubber. Comes in easy-to-use, non-chlorinated aerosol cans for spray application. Priced for great ROI as a retail item in your convenience shop!
- Fast drying formula leaves little residue
- Aggressive formula, safe for metal surfaces
- 13 oz. aerosol cans, 12 cans per case

\$28.50	DD1930-50
----------------	------------------

GRIT GUARD® PRODUCTS

BUCKET INSERT

GRIT GUARD

- Insert fits in the bottom of your wash bucket and separates the grit from the mitt!
- Radial surface design extracts particles such as dirt, grit and grime from your wash mitt, providing a clean, scratch-free wash mitt every time you go back to the bucket for water
- 10-1/4" diameter, 2-1/2" tall
- Fits most 12" diameter buckets

\$5.99	DT1800-BK	Black
\$5.99	DT1800-R	Red

BUCKET DOLLY

GRIT GUARD

- Features 5 heavy-duty urethane casters that last longer and roll smoothly over cracks
- Two casters lock, holding your bucket in place even on steep inclines
- Supports up to 250 pounds and is securely held in place with three thumb screws
- Dolly will fit most 3.5, 4, 5, 6 and 7-gallon buckets

\$37.95	DT1804-BK	Black
\$37.95	DT1804-R	Red

UNIVERSAL PAD WASHER

GRIT GUARD

- Conditions, cleans & dries any type of buffer or polisher pad. By cleaning your dirty pad, you increase buffing effectiveness, make it easier to use, eliminate contaminants, prolong the life, and save money.
- Features convenient Gamma Seal Lid provides water tight portability to any job site. Includes a sample 4oz bottle of Pad Renewal Solution (PRS)

\$119.99	DT1808	Pad Washer Kit
\$10.95	DT1817	PRS - 16 oz.

SNAPPY GRIP™ BUCKET HANDLE

GRIT GUARD

must be < 3.75" to attach

- This ergonomic handle was designed to fit comfortably in your hand and reduce hand fatigue by more than 50% by distributing the weight over more of the surface area.
- Fits any 3.5, 4, 5, 6, or 7-gallon bucket with standard metal bails

\$1.99	DT1806-BK	Black
\$1.99	DT1806-R	Red

BUCKET WASHBOARD

GRIT GUARD

GRIT GUARD® INSERT SOLD SEPARATELY

- Works in conjunction with the Grit Guard Insert in your wash bucket to separate the grit from the mitt! Like its sister product, the Grit Guard Insert, the Grit Guard Washboard has NO flat surfaces for dirt or grit to be collected. Contaminants are extracted from cleaning tools while rubbing them on the downward stroke against the Washboard.
- Fits most 12" diameter buckets

\$8.99	DT1802-BK	Black
\$8.99	DT1802-R	Red

DUAL BUCKET CONNECTOR PLATE

GRIT GUARD

- Made of rugged diamond plate aluminum
- Easily connects two bucket dollies by simply removing two of the casters on each dolly, installing the plate over the caster holes, and then reinserting the casters.
- Used with the Dual Bucket System
- Works with 2" & 3" casters

\$17.95	DT1804-CP	
----------------	------------------	--

KNEELING PAD

GRIT GUARD

- Made from abrasion-resistant vinyl dipped 1" thick dense foam for added comfort when working low to the ground. Shiny finish is durable and washable, easily wipes clean with a damp cloth.
- 11 1/2" diameter by 1" thick

What are the Best Detailing Towels?

A professional detailer usually has a towel in hand, in their back pocket, on their belt, or in their coverall pocket. Towels are perhaps one of the most important – and most overlooked – tools of the detailing trade.

What towels work best has as many answers as there are detailers! You can get answers by focusing the question – what towels work best in each part of the detailing process?

Best practices in detailing dictate that there be a logical progression to workflow. The answers to what are the best towels to use depends on knowing what stage of the detailing process we are talking about.

Every detailing job starts with washing the vehicle. Washing requires some reliable drying towels. Whether you prefer cotton or microfiber towels. Size, and weight matter. The best-selling vehicle drying towels are larger. The most popular sizes are 16"x24", 16"x27" or 24"x24". These sizes work best for cars, SUVs, and small trucks. Also, the best drying towels tend to be on the heavy side.

If you detail boats, RV's or even aircraft, consider a 20"x40" microfiber or cotton terry bath towels. You will find these and many other exceptional selections under Towels By Doctor Joe "Body Drying Towels" in the beginning of this catalog.

Next, you need rags. That's right, "rags". The door jams, trunk well, and rocker panels are usually filthy. Worn out towels, cotton towel remnants, and inexpensive microfiber towels all work well for wiping and cleaning. You will find several varieties of cleaning cloths and inexpensive microfiber towels on the next page (Page 173).

We have first-rate options available in our Polishing Towels selection. Starting with the most popular thrifty selection (DJMF4500-XX-50) – it is an all-purpose 16"x16", 300 GSM microfiber towel in nine colors. The many color choices are helpful in "color coding", assigning a specific color for an explicit task.

Also offered are plush 16" x 16", 16" x 24" and 16" x 27" cotton and microfiber towels. Rounding out the polishing cloth line, is Towelzilla, a monstrous 790 GSM microfiber towel, available 18" x 30" and 25" x 36". Towelzilla brings plush softness to a new level.

In looking at ceramic coatings, they have become a big part of the professional detailing industry. In response, Doctor Joe has developed several specialty products uniquely suitable for the application, leveling, and polishing of nano-coatings. These products are listed together under the heading of Detail Towels-Polishing on pages 173 and 174, following this article.

Many detail shops now offer "glass tinting." It is safe to assume

that you can't have lint if you are going to tint! If you are in the business, it is critical to remember that all terry towels have lint. Cotton towels generate fiber lint and microfiber terry shed filament that looks like a light dusting of snow. Under "Glass Towels – Microfiber & Cotton" in the front of this catalog (Pages 36, 37 and 38), you will discover your prayers have been answered. Products like DJMF3600- XX waffle-weave microfiber towels perfectly clean glass and windshields, lint-free! For smears and streaks, the good doctor recommends DJMF5500-XX or DJMF5600-XX. The diamond pattern on these towels cut the white haze off glass like magic.

There are easy and inexpensive remedies for having perfect windshields. It is truly the last "important detail."

DETAIL TOWELS - WIPING AND CLEANING

UTILITY TOWELS WITH COLORED CENTER STRIPE

TOWELS BY DOCTOR JOE

White terry towels with colored center stripe for color coding by use. They are an excellent, economical choice for a courtesy towel at health clubs, tanning salons detail cleaning, gyms, bars, janitorial and more. Wash and dry these towels without fabric softener prior to first use.

- Sold 12 per case
- 32 oz/dozen
- Each towel measures 16" x 19"
- Made from 100% cotton

\$5.99	DJT1680-WGD	Gold Stripe
\$5.99	DJT1680-WGN	Green Stripe

BLUE CLEANING TOWELS

TOWELS BY DOCTOR JOE

Each courtesy towel features a lightweight cotton construction. Use these towels whenever you need a hardworking, 100% cotton product to regularly wipe off hands, pick up quick messes, and more. These towels are a great choice for around-the-shop use at car washes, detail businesses, garages, gyms, tanning salons, food service, bar mop, and janitorial use. Simply wash and dry this towel before use to fluff it up!

- Sold 24 per case
- Approximately 34 oz/dozen
- Each towel measures 16" x 19"
- Lightweight - 100% cottons

\$18.70	DJT1683-BL
----------------	-------------------

ECONOMY CLEANING TOWEL

TOWELS BY DOCTOR JOE

Slightly irregular white terry cleaning towels. Fully hemmed edges prevent unravelling when washing. The most popular choice for general car cleaning – door jams, wheels, trunk well, all areas that collect oily grime and dirt. Towels are compressed to reduce shipping cost. Wash and machine dry to fluff.

- Sold in cases of 25 lb
- Approximately 170 towels per case
- Each towel measures 16" x 19"
- Medium weight- 100% cotton

\$88.00	DJT1685-W
----------------	------------------

ASSORTED COLOR TOWEL REMNANTS

TOWELS BY DOCTOR JOE

When you need a lot of polishing hand towels, but do not need specific colors, this assortment of various towels is a great, economical choice! Applications: heavy wiping and cleaning, detailing, housekeeping, and polishing. Wash and machine dry these towels prior to their first use, no fabric softener.

Because this product is sold by weight, actual number of towels per case will vary.

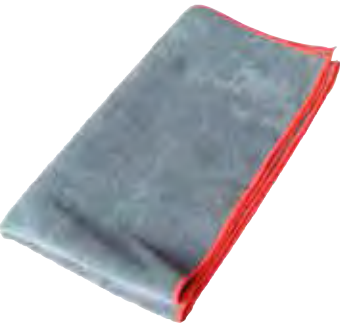

- Sold by weight - see options below
- Hand towel size, approximately 16" x 26"
- Medium weight, 100% cotton
- Absorbent – good choice for all cleaning purposes

\$63.46	DJT3200-25	25 lb. Pack	Approx. 105 towels per case
\$25.38	DJT3200-10	10 lb. Pack	Approx. 42 towels per case

DETAIL TOWELS - INTERIOR DETAILING & LEATHER CONDITIONING

SUPER PLUSH MICROFIBER TOWEL

TOWELS BY DOCTOR JOE

Size and weight matter when cleaning leather, upholstery, and spotting automotive carpeting. Weighing in at 400 GSM this super plush towel is available in 16" x 16" and 16" x 27". The light charcoal color will not bleed or run with automotive cleaners and solvents. These phenomenal microfiber terry towels are the #1 choice for cleaning, scrubbing, dusting, mopping, drying, detailing, and wiping automotive interiors. Properly cared for, this towel is good for 500+ washings!

- Sold 12 per case
- Absorbs up to 7-10 times its weight in moisture
- Heavyweight and plush, bleach-resistant
- Attractive red stitched edge

PLUSH INTERIOR DETAILING TOWELS

TOWELS BY DOCTOR JOE

Based on the popular, absorbent "hotel towel" concept, this is a heavy-weight, 100% cotton, full-plush terry towel. This plush and absorbent towel is great for car care applications. This towel is super-absorbent after one wash and machine dry. Use as an applicator or a "spotting" wiper for upholstery and carpeting. Excellent for cleaning and moisturizing leather seats and steering wheels. This handy, all-purpose towel can be used in janitorial, food service and housekeeping applications.

- Sold 12 per case
- Each towel measures 14" x 16"
- Approximately 2.25 lb/dozen
- Heavy weight material; hotel quality
- 100% cotton, full-terry towel
- Finished with real mill end hemming

\$14.85	DJT1460-W
----------------	------------------

ALL PURPOSE MICROFIBER TOWELS

TOWELS BY DOCTOR JOE

The 300 GSM All Purpose Microfiber Towel provides the performance and durability of microfiber with the supple feel of standard cotton towels. Available in three pastel colors, this cloth furnishes the detailer with opportunity to "color code," identifying a color with a job. Safe to use on electronic equipment and other sensitive surfaces with interior detailing. Use damp for general cleaning; wet for scrubbing heavily soiled areas; and dry for dusting. Excellent for use in leather cleaning and conditioning.

- Sold 12 per case
- Each towel measures 16" x 16"
- Pastel colors do not bleed
- Safe for use on vinyl, plastics, wood, and metal

WHITE UTILITY TOWEL

TOWELS BY DOCTOR JOE

Each white utility towel features a lightweight cotton construction. Use these towels whenever you need a hardworking, 100% cotton product to regularly wipe off hands, pick up quick messes, and more. These towels are a great choice for around-the-shop use at car washes, detail businesses, garages, and more. Also for use as a courtesy towel, gym towel, tanning towel, food service, bar mop and janitorial tool.

- Sold 12 per case
- Each towel measures 16" x 19"
- 100% cotton
- Lightweight for utility applications
- 28 oz/dozen
- Wash and dry prior to first use - do not use fabric softener

DETAIL TOWELS - POLISHING & CERAMIC

SUEDE MICROFIBER APPLICATOR/CERAMIC LEVELING TOWEL

TOWELS BY DOCTOR JOE

The Towels by Doctor Joe ULTRA-12B detailing towel is made with 260 GSM microfiber fabric that is incredibly soft and smooth. Rather than being terry or textured like other microfiber towels, these lint-free towels have a supple suede feel. These towels work incredibly well on dark-colored vehicles – orbital polisher lines just disappear! They're also great for dusting computers, wiping glass stove tops, cleaning mirrors, polishing furniture, and general housekeeping.

This towel is suitable as an applicator or for leveling, but not both. Keep towels separate.

- Sold 12 per case
- Each towel measures 16" x 16"

\$16.50 DJMF1200-BL

ELITE-01 TERRY MICROFIBER POLISHING TOWEL

TOWELS BY DOCTOR JOE

This microfiber towel was originally developed in Korea for cleaning and polishing the ceramic coated chassis boards in Smart Phones. Samsung® developed and holds some of the patents for ceramic coatings. One of their slogans is "Create the Future." Little did we know, it would pertain to nano-coatings used in the automotive appearance industry. You can be a part of this future now with Doctor Joe's ELITE-01.

- Case count varies
- 340 GSM
- Laundered to remove filament lint & yarn oil
- Made in Korea
- Each towel measures 16" x 27"
- 70% polyester / 30% poly-amide blend for extreme softness
- Ready to use right out of the package
- Use for polishing waxed surfaces and ceramic coating coatings

ALL-PURPOSE BUFFING TOWELS

TOWELS BY DOCTOR JOE

These Ultra-45 towels by Doctor Joe are 300 GSM microfiber towels that measure 16" square. Sold in new easy-to-manage yet economical bulk packs of 50 towels. Perfect for removal of polish, wax, compound, glaze, sealant, and detailing sprays. Use for buffing, spray waxes, and the final buff. Now offered in nine vibrant colors, helping you to color code towels for specific detailing processes.

- Sold 50 per case or by pallet
- Warp knit, overlapped finished edges
- Each towel measures 16" x 16"
- 80/20 microfiber blend

LARGER ALL-PURPOSE BUFF TOWELS

TOWELS BY DOCTOR JOE

Many professional detailers prefer to work with a larger buff towel for wax removal. This towel is the big brother of the ALL-PURPOSE BUFF TOWELS, measuring 16" x 24" in size. With added surface area, the larger towel reduces buffing time. It is also less likely to get filled with wax cake. Perfect for removal of polish, wax, compound, glaze, sea lant, and detailing sprays. Use for buffing, spray waxes, and the final buff. Now offered in five vibrant colors.

- Sold 50 per case or by pallet
- Each towel measures 16" x 24"

SUPER PLUSH MICROFIBER TOWEL

TOWELS BY DOCTOR JOE

These lavish towels are perfect for removing cured paste waxes and sealants. Excellent for wiping away dust, dirt, and debris or for use with spray waxes, resulting in a streak-free shine. Size and weight matter when buffing vehicles. Weighing in at 400 GSM, this unique towel is offered in two useful sizes - 16" x 16" and 16" x 27". It is the perfect towel for use with detail sprays or even the final buff. These towels have been engineered for long use, and will withstand hundreds of washings. Available in solid black or black and charcoal with a distinctive red texturized soft nylon edge banding. When properly cared for, this towel is good for 500+ washings!

- Sold 12 per case
- Heavyweight and plush, use for ceramic coatings
- Good for compound removal
- Removes, sealants, polishes, glazes, and waxes

TOWELZILLA™ - THE EXTREME DETAILING TOWEL

TOWELS BY DOCTOR JOE

Doctor Joe is delighted to introduce TowelZilla™, the ultimate car cloth. The towel is made from a super-thick, plush microfiber coral fleece that introduces a softness that is unrivaled in the Automotive Appearance Industry! It simply trounces the competition. Dare I say there is no competition. Everything is big about TowelZilla, except its price. Weighing in at a monstrous 780 GSM, it is available 18" x 30" or 25" x 36", both in charcoal grey. TowelZilla is equally suitable for drying vehicles, wax removal, and unsurpassed for use in the final buff. Size matters and TowelZilla is the T-Rex of towels!

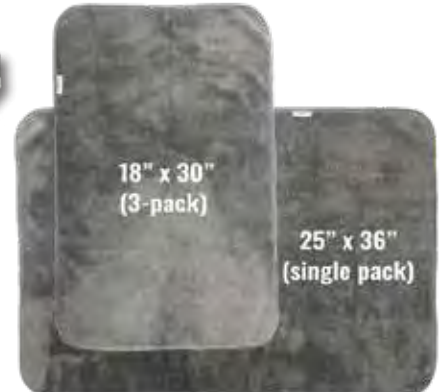

- Will not scratch paint, clear coat, or other surfaces
- Maximum plushness when a higher pile is preferred
- Deep velvet pile makes it ideal for the final polish
- Guaranteed streak-free, lint-free, and non-abrasive

\$144.50 DT0105

Z-020 BLACK CLEANING TOOL

TORNADOR DETAILING TOOLS

- This highly active cleaning tool can be used for all the same applications as the Tornador classic, but is more effective on persistent spots and heavily soiled areas. The cone-shaped nozzle and oscillating tip create a tornado cleaning action that cleans hard and soft surfaces like nothing you've seen before. Dirt and grime are immediately released from fabrics, carpet, and solid surfaces. Great for convertible tops, body seams, detailing of wheels and emblems. Features heavy duty parts for durability.
- **MAX. PRESSURE:** 5.4-6.2 CFM @ 90 PSI
- **INLET PORTS:** 1/4"
- **AIR CONSUMPTION:** 1/min. = 120
- **SPEED:** 3600 RPM
- **SOUND PRESSURE DBA:** 101.1
- **LIQUID CONSUMPTION:** 1/hr. = 3.6

\$205.00 DT0110

MAX Z-030 CLEANING TOOL

TORNADOR DETAILING TOOLS

- Progressive design that allows for individual customization through easily replaceable color handles and trigger grips
- Built-in air regulator allows precise control of the air pressure along with adding a swivel air inlet for flexibility

\$316.85 DT0130

Z-014 BLOW OUT TOOL

TORNADOR DETAILING TOOLS

- Low noise emissions • Reach tight spots and areas easily
- Heavy-duty construction

\$61.75 DT0115

ZV-200 VELOCITY VAC ATTACHMENT

TORNADOR DETAILING TOOLS

- Works in conjunction with the Tornador Black Z-020 for a powerful wet/dry vacuum combo. Simple-to-use and powerful enough to lift even the toughest dirt and grime from seat cushions

\$80.95 DT0120

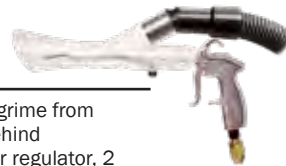

ZV-240 VELOCITY VAC DRY TOOL

TORNADOR DETAILING TOOLS

- Ball bearing rotation quickly lifts dirt and grime from carpet fibers that other vacuums leave behind
- Includes 1 velocity vac dry tool, 1 inline air regulator, 2 hose adapters, 2 hose collars, (1) 30" Flexible Vac Hose, 4 Silicone tube ends, 1 allen wrench, 2 keys, 1 allen nut

DEMA WALL MOUNTED FOAMING UNITS

DEMA WALL MOUNTED FOAMING UNITS

DEMA ENGINEERING

- Available in pre-mix or concentrate models. The pre-mix unit operates on a solution of chemical and water. The concentrate wall unit uses venturi technology, powered by an air pump to ensure consistent water pressure and accurate chemical dilution rates.

\$954.59	FID900WC	Wall Mount concentrate Foamer	\$866.80	FID900TL	Twin Line Foamer
			\$1,482.08	FID900DS4	Concentrated Doorway Foamer

DEMA PORTABLE FOAMERS

DEMA PORTABLE FOAMING UNITS

DEMA ENGINEERING

- Operates on compressed air and requires only a pre-mixed chemical solution to create thick, long-lasting foam. These units come in a variety of cart and tank combinations to meet the foam cleaning requirements of almost all applications and allows the operator to clean faster and more efficiently. Can be used to foam car wash tunnel and bay walls. Used to apply pre-treatment chemicals when detailing.

FOAMERS

HYDRO FOAMER

HYDRO SYSTEMS

- HydroFoamers from Hydro Systems eliminate the time and hassle of manually mixing concentrates, which not only increases labor productivity, but also increases concentrate performance because the solutions are consistently mixed as directed by the manufacturer. Since concentrates are mixed only as they are applied, they are fresh and will perform at peak power, and waste is minimized.
- 12:1 to 128:1 Dilution
- Non-electric
- Proven, reliable components
- No installation required

\$73.16 IN481

LONG-RANGE DETERGENT FOAMER

MTM HYDRO

- Applies detergent as a thick foam from over 20 ft. away with an adjustable 30° cleaning radius
- Pressure stream siphons chemical & mixes into water spray
- Includes both 1/4" Male Quick Connect & M22 threaded fittings
- Will NOT fit consumer-grade electric units w/ bayonet connectors
- 34 oz. bottle with 1.1 orifice
- Easily attaches to many pressure washers
- Requires a minimum of 1500 PSI and 2 GPM
- Use a wide variety of detergents & chemicals
- Perfect for driveways, roofs, siding and vehicles
- Maximum of 5000 PSI and 5.2 GPM

\$94.12 MTM140263 California WARNING PROPOSITION 65

PF22 FOAM CANNON

MTM HYDRO

- Pressure range: 1000 - 5000 PSI
- Maximum temperature: 140° F
- Sprays foam vertically or horizontally
- Replaceable grit filter keeps foam and flow clean
- 32 oz. easy-grip bottle
- Two optional adaptors for QC and M22
- NOTE: Foam cannons do not operate on pressure washers that have flow-sensing unloaders. Typically, you will have pulsing foam indicating pressure spikes and drops which the flow-sensing unloaders cannot accommodate.
- Flow range: 1.8 - 5.3 GPM
- For use with gas pressure washers
- Chemical injection knob with internal agitator to control foam
- Adjustable fan blades
- 1.1mm orifice included

\$84.99 MTM147022 California WARNING PROPOSITION 65

HIGH PRESSURE INJECTOR FOAMER LANCE

GENERAL PUMP

- Comfortable, impact-resistant housing with a forged brass body and stainless steel diffuser

- Batteries are classified as hazardous materials in transit.
- Products containing lithium ion batteries only ship ground to continental US and Canada.
- Not eligible for expedited services.

CYCLO® POLISHERS & PADS

MODEL 5 MARK II DUAL-HEAD ORBITAL POLISHER

CYCLO TOOLMAKER

- Features a metal body and attractive powder coating! Its synchronized, dual orbiting heads mimic the patterns made when hand polishing. Plus, it's balanced, so you don't have to deal with unnecessary vibration and swirl marks.
- The Cyclo polisher can deoxidize gel coats, scrub non-skid surfaces, restore luster to vinyl, and even scrub interior upholstery! You can use it on cars, trucks, RVs, and boats. Some have even found it useful for tile/grout cleaning, hockey arena board cleaning, metal polishing, and headlight restoration! Simply choose your appropriate accessories (sold separately) and tackle the job at hand. Features a 1-year warranty.
- **MOTOR:** Alternating current, semi-enclosed 24-bar commutator, Output: 1/3 HP
- **HOUSING:** Heavy-duty powder coated cast aluminum
- **POWER SUPPLY:** 115V, 60 Hertz, 220 Watts
- **WEIGHT:** 6.5 lb.
- **ELECTRIC CORD:** 10' length, 16 ga/2SJTOW
- **SPEED:** 3000 orbits/minute
- **HEAD DIAMETER:** Clockwise/4"

\$305.88 CY80010 PADS SOLD SEPARATELY

CYCLO CAR WASH KIT

CYCLO TOOLMAKERS

- All of the top pads for the car wash detailing environment!
- INCLUDES THE FOLLOWING PADS:**
 - (4) Yellow Cutting Pads • (8) Green Polishing Pads • (4) Blue Polishing Pads • (4) White Finishing Pads

\$59.50 CYKIT01

4 YELLOW CUTTING PADS

CYCLO TOOLMAKERS

- A firm, versatile pad that can be used on everything from compounding and scratch removal to applying paint cleaners and polishes

RECOMMENDED APPLICATIONS INCLUDE:

- Paint Polish/Cleaner, Paint Compound, Paint Deox, Paint Scratch Remover

\$16.70 CY72135

4 GREEN POLISHING PADS

CYCLO TOOLMAKERS

- A more aggressive pad than the white or blue pads. The pore density makes it perfect for polishing and removing light oxidation for a stunning shine

RECOMMENDED APPLICATIONS INCLUDE:

- Sealant, Paint Polish, Paint Cleaner, Metal Sealant

\$14.58 CY72120

4 BLUE POLISHING PADS

CYCLO TOOLMAKERS

- Perfect for light polishing on any surface. Use with wax and polish for a fine gloss finish or to remove swirl marks

RECOMMENDED APPLICATIONS INCLUDE:

- Paint/Metal Sealant, Paint Polish, Paint Cleaner, Final Wax Buff, Wax Application

\$14.58 CY72115

4 WHITE FINISHING PADS

CYCLO TOOLMAKERS

- This superfine pad is used in final buffing, after polishing with other pads is complete. Excellent for applying sealants and buffing out wax

RECOMMENDED APPLICATIONS INCLUDE:

- Extreme Shine, Final Wax Buff, Wax Application, Sealant, Metal Sealant

\$14.58 CY72110

ATTACHMENTS

CYCLO ATTACHMENTS & PADS

- Only Genuine Cyclo pads have been designed to work precisely with their polishers. Their foam pads are 4 inches in diameter and made from high quality, reticulated polyester urethane foams. They are durable, long-lasting and provide top performance. And, they offer a variety of textures – ranging from compounding, cutting, scrubbing, polishing, cleaning, waxing, sealing and finessing – to meet the exacting needs of the professional detailer.

MYTEE STEAMERS AND EXTRACTORS

- Mytee's Orbital All Surface Floor Machines are not just your average orbital floor machines. They're the only ones in the industry with a 1.5 horsepower motor, powerful enough to overcome surface tension. That means the job gets done faster so you get paid faster. Perfect for: carpet encapsulation cleaning, tile & grout cleaning, sanding, scrubbing, and polishing concrete, stone, and vinyl flooring.

FEATURES: 17" cleaning path with built-in 4 gallon shampoo tank, 60 PSI solution pump, dual front-mounted spray jets - low drift, smooth operating with low vibration design, 10" non-marking foam-filled wheels for increased maneuverability over stairs, curbs, etc.

INCLUDES: 17" pad driver and 50' twist-lock power cord

MOTOR	1.5 HP
PUMP	Diaphragm spray pump

KLEENRITE® EDGE KLEENRITE EXTRACTORS

- The EDGE® 3 has an individual solution and waste tanks (1.1 gallon solution/11.5 gallon waste), a large opening on the waste tank with a rotationally molded vacuum connection lid. The solution and vacuum connection are on the front of the machine and the waste discharge is on the rear of the machine.
- All machines in the EDGE® Series offer you many choices in pump, vacuum and heater configurations. Preheat capability, which allows you to heat the solution tank prior to cleaning and vacuum silencing, making your EDGE® very quiet (72 db), are available depending on the model you choose. All units include 25' of solution and vacuum hose and 25' of power cord(s).

PUMPS

EMPEROR SERIES FROM GENERAL PUMP®

EMPEROR SERIES GENERAL PUMP

- Specifically designed to handle the rigorous duty cycles, high temperatures and chemicals associated with self-serve carwash applications.
- These premium pumps can withstand temperatures up to 185°F and can run dry for several hours.

GPHTS2215SR

EMPEROR SERIES FROM GENERAL PUMP

- **FLOW:** 4.0/5.0 GPM
- **PSI:** 2300
- **SHAFT OD:** 24MM
- **RPM:** 950/1200

FEATURES & BENEFITS:

- Can run dry for several hours
- Water temps up to 185°F
- Nickel-plated manifold & valve caps provide corrosion resistant operation and helps reduce damage caused by cavitation
- Side sight glass
- Direct replacement for CAT 310/5CP2120W with same RPM and Flow
- **SPECIFY LEFT HAND DRIVE IF YOU'RE LOOKING AT THE PUMP MANIFOLD AND YOUR PULLEY OR THE PUMP CRANKSHAFT IS ON THE LEFT**

\$730.46	GPHTS2215SR	Right Side Shaft
\$730.46	GPHTS2215SL	Left Side Shaft

GPHTS2215SR PARTS & KITS

EMPEROR SERIES FROM GENERAL PUMP

- **If replacing CAT 310/5CP2120W you may also want to order the following:**

\$19.01	GPP540015	Adapter Rail Kit
\$15.66	PU33000	24mm "H" Bushing
\$23.25	GPP540016	Rail Kit for CAT 530
\$6.67	GPO100216	Series 100 Oil - 16oz bottle
\$81.88	GPO100552	Series 100 Oil - 2½ gal

These innovative and patented pumps offer increased pump life and performance, making them perfect for the car wash industry!

GPHTCK4050S

PENTAIR HYPRO PUMP ACCESSORIES

PULSE HOSE

PENTAIR HYPRO ACCESSORIES

- Quality pulsation dampener hoses constructed of special Hi-Flex horizontally-braided hose.
- **MAX. PRESSURE:** 1500 PSI
- **MEASUREMENTS:** 3/8" x 24"

\$26.18 HYP33750012

PUMP OIL

PENTAIR HYPRO ACCESSORIES

- Specially-formulated SAE 30 weight, non-detergent, high-grade oil
- Reduces scuff and wear in diaphragm, piston, and plunger pumps
- Inhibits moisture that causes damage
- Prevents oxidation that could lead to sludge formation
- Resists foaming and aeration that can cause equipment to operate erratically and oil to oxidize
- Provides smooth pump operation in a variety of temps.

\$11.77 HY00038 1 Quart

ALL PENTAIR BRANDS ARE TRADEMARKS OF PENTAIR.

FEATURED PRODUCT

HYDRA-CELL PUMPS FROM WANNER ENGINEERING, INC.

Hydra-Cell positive displacement pumps have an incredibly efficient design that nearly eliminates maintenance and helps the pumps last longer – even when processing difficult liquids that contain abrasives and particulates! Each Hydra-Cell pump is engineered without seals, packing or cups, and boast hydraulically balanced diaphragms that aren't stressed while flexing.

- Made with tough, durable materials
- Virtually no maintenance: low stress, hydraulically balanced, sealless design
- Highly efficient with low power consumption
- Self-priming
- Capable of running dry
- Handles the full spectrum of low - high viscosity fluids
- Low vibration often eliminates the need for pulsation dampeners

KEY DETAILS OF HYDRA-CELL DISPLACEMENT PUMPS

RIGID ROLLER BEARINGS

Lubricated by oil bath

HYDRAULICALLY BALANCED DIAPHRAGMS

Capable of flexing without damage

FIXED ANGLE CAM

Rotary motion translated to linear

INLET VALVE ASSEMBLIES

Guide liquid into pumping chamber

HYDRAULIC CELLS

Displace diaphragms with pressurized oil

OUTLET VALVE ASSEMBLIES

Guide liquid into discharge lines

HYDRA-CELL SERIES OPTIONS

Hydra-Cell pumps are useful in applications like car washes, agriculture, and landscaping. There are several different series of Hydra-Cell pumps available that satisfy different pressure and flow rate needs. Popular series include the H-25 Series and the D-10 Series.

H-25 SERIES PUMP

- **FLOW:** 20 GPM
 - **PRESSURE:** 1000 PSI
 - **INLET:** 1½" NPT
 - **OUTLET:** 1" NPT
 - **MAX. TEMP:** 180° F
- H25XKBTHFECA MODEL SHOWN

D-10 SERIES PUMP

- **FLOW:** 8.8 GPM
 - **PRESSURE:** 1000 PSI
 - **INLET:** 1" NPT
 - **OUTLET:** 3/4" NPT
 - **MAX. TEMP:** 180° F
- D10EKBTHFECA MODEL SHOWN

FEATURED PRODUCT

HYDRA-CELL PUMPS

HYDRA-CELL[®]
SEAL-LESS PUMP TECHNOLOGIES

HYDRA-CELL PUMPS

WANNER ENGINEERING

• For difficult solutions like reclaim water, wettable powders, slurries & abrasives. Solutions never come in contact with pumping mechanisms. Diaphragm design has no cups, packing or mechanical seals

- American made
- Positive displacement pumps
- Can be run dry without damage
- Hydraulically balanced diaphragms
- Timken roller bearings
- Shaft direction can be in either direction for easy mounting
- Brass pump heads
- Buna-N elastomers
- Stainless steel valves, seats, & valve springs

\$3,637.93	WPH25XKBTH	Pump
\$406.26	D25K52THFEC	Repair Kit

Hydra-Cell positive displacement pumps feature a seal-less pumping chamber so there are no seals, packing or cups to leak or replace.

The seal-less design and check valves enable Hydra-Cell to handle abrasives and particulates that would damage other types of pumps.

BLUE-WHITE® PUMPS

C-1500N SERIES INJECTION METERING PUMPS

BLUE-WHITE PUMPS

- Ideal for dispensing precise amounts of various solutions with easy to adjust feed rate
- Weather-resistant housing for indoor or outdoor use
- Includes: 5' suction tubing with flow indicator, 5' discharge tubing, mounting hardware, foot valve and injection fitting

C-1500 STANDARD FEATURES:

- FKM O-ring & PTFE/EP diaphragm
- PVDF suction (foot) valve with FKM and TFE/P O-rings, ceramic check ball and removable polypropylene filter screen

SPECIFICATIONS

Established in 1957, Blue-White started out with a focus on the pool industry, but has grown over time to become a leading innovator in pumps for all purposes. All Blue-White Industries products are proudly made in the United States, at their central manufacturing facility in California. With in-house CNC capabilities and multiple Quality Assurance departments, Blue-White brings you homegrown quality you can count on!

ETATRON PUMPS

ELECTRIC DIAPHRAGM METERING PUMP

ETATRON FROM DILUTION SOLUTIONS

Dilution
SOLUTIONS

- Ideal for dispensing precise amounts of various solutions
- Simple-to-use, highly reliable and provides a compact design
- Great for accurate injections with presoaks, detergents, waxes and drying aids
- Unique one-piece Teflon® diaphragm

STANDARD FEATURES:

- Adjustable during operation
- Can handle applications up to 140° F
- Wall and base mounting option
- 24 or 120V - 50/60 Hz
- IP65 acid-resistant housing

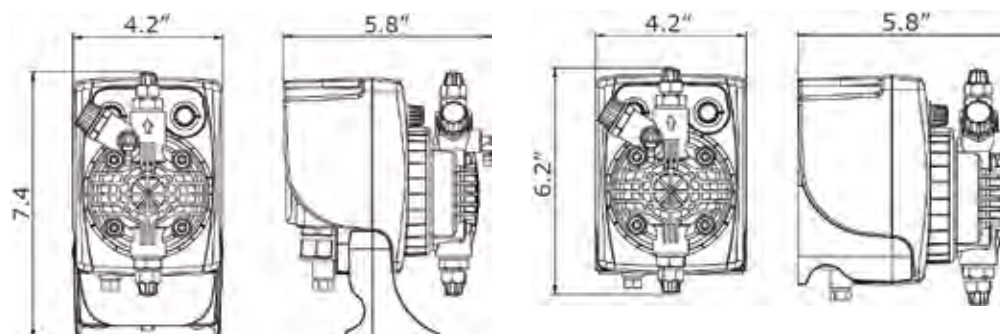

- Flashing LED indicator during operation
- Manual air bleed pump head facilitates faster priming
- Automatic suction shut-off when de-powered
- Fully adjustable 0-100% range
- Polypropylene housing

CONSTRUCTION:

- Pump Head: Polypropylene
- Suction Tube: PVC
- Seals: Viton

- Diaphragm: Teflon®
- Valves: Viton
- Discharge Tube: Polyethylene

EXAMPLE OF FOAMING SYSTEM INSTALLATION USING THE PKX PUMP

33" CHEMSTICK WITH BUNG ADAPTER

DILUTION SOLUTIONS

Dilution
SOLUTIONS

The Dilution Solutions CS33 ChemStick is chemical- and acid-resistant, thanks to its polypropylene construction and Viton seals. Keep unwanted particulates out of your chemical system - bung adaptor prevents debris from entering drum after installation, while adjustable depth of ChemStick avoids sucking up debris that has settled at the bottom of the chemical barrel. Hastelloy strainer prevents particulates from being extracted during pumping, and is easy to access for cleaning. Check valve helps prevent any back flow, keeping other liquids out of the barrel.

SPECIFICATIONS & INFORMATION:

- 33" length reaches bottom of most 55-gallon drums
- Adjustable stopper makes it easy to set depth for pipe
- Includes foot spacer and foot valve
- 4 polypropylene hose barbs included: 1/4", 3/8", 1/2", and 3/4"

\$110.09 **CS33**

Your one-stop PUMP warehouse

CAT Pumps
310 Triplex 5-Frame
Plunger Pump

310 triplex plunger pump is designed to deliver smooth, low pulsation flows at different pressures and flow rates. CAT Pumps pressure washing pumps are known as the pumps with nine lives because of their reliability and long life.

4.0 GPM • 950 RPM
2200 PSI

PU00310

Flojet
Air Operated
G57 Series Pump

Flojet's most popular air-operated diaphragm pump. Innovative compact design features a patented shuttle valve that eliminates stalling and provides a long life.

PROCON® PUMPS

ROTARY VANE PUMPS

PROCON PRODUCTS

- Excellent for tire cleaner, presoak, spot-free RO water, and foam brush
- All pumps use stainless steel rotors
- Feature durable, dependable, three-bearing construction
- Available in either flange or clamp mount
- Buna-N or other elastomer seals available for added chemical resistance
- Special internal materials used to eliminate metal to metal contact allowing for long life and quiet operation

ROTARY VANE PUMPS

FLUID-O-TECH PUMPS

- Excellent for tire cleaner, presoak, spot-free RO water, and foam brush
- All pumps use stainless steel rotors
- Feature durable, dependable, three-bearing construction
- Buna-N or other elastomer seals available for added chemical resistance
- Special internal materials used to eliminate metal-to-metal contact allowing for long life and quiet operation
- Available in either flange or clamp mount

TECHNICAL FEATURES AND MANUFACTURING CHARACTERISTICS:

- The rotary vane pumps are available in brass or stainless steel base material, with a stainless steel AISI 303 rotor, and carbon graphite internal parts.
- These inlet and outlet ports are 3/8", 1/2", or 1" NPT/GAS threaded.
- The pumps are designed to be directly mounted to the motor with a stainless steel clamp.
- Maximum operative temperature: 70°C (158°F).

FPK20730V

FPK20730

The car wash chemicals and soaps pumped through Flojet air-powered pumps often are corrosive and can shorten the life of a pump and pump components.

To combat this, Flojet pump components are made with tough DuPont elastomers that resist corrosion and help extend their life.

MOUNTING BRACKET

FLOJET PUMPS

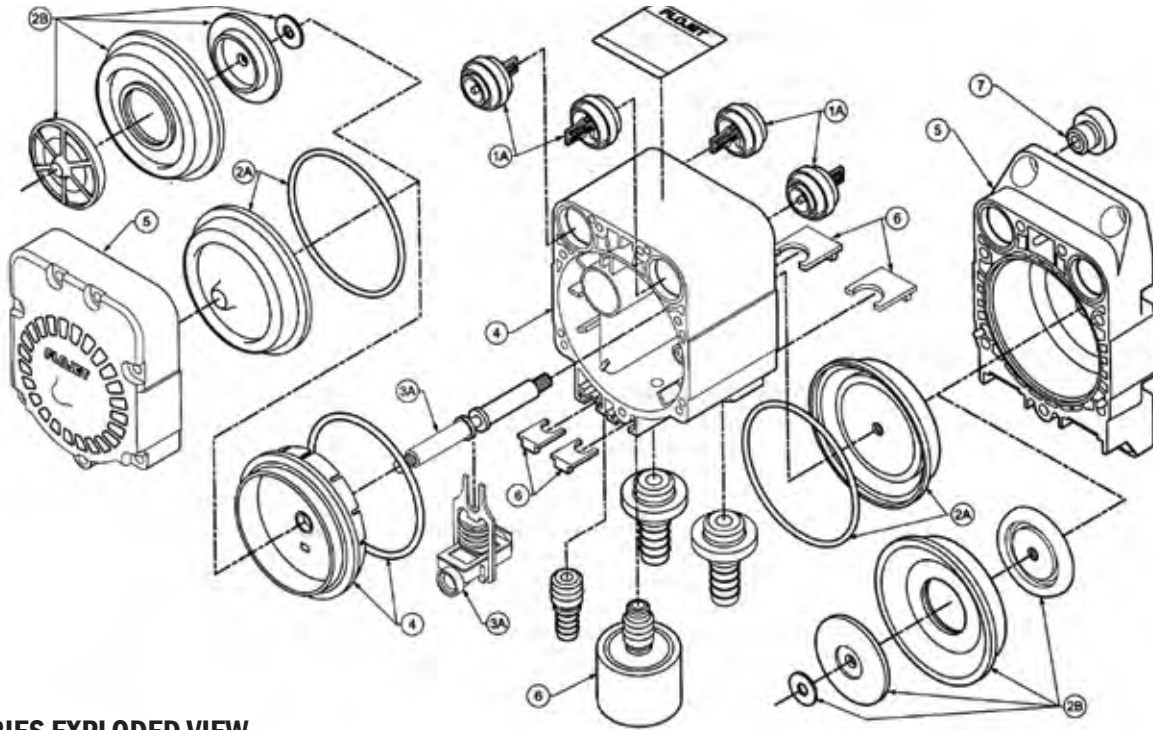

- Spring brackets snap together easily - installation is a breeze!
- Ideal for mounting on rack or wall

VARIOUS PUMP MODELS & KITS

(ALL PUMP MODELS & KITS AVAILABLE!)
FLOJET ELECTRIC DIAPHRAGM PUMPS

- Great choice for tire cleaner, presoak, carpet cleaning and extraction applications. All pumps can be run dry without damage and have superior self-priming capabilities. Rated to 160° F.

AVAILABLE IN TWO STYLES:

- **BYPASS:** Pump continues to run and internally bypass if discharge is partially or fully closed.
- **DEMAND:** Pressure switch automatically starts and stops pumps at specific pressure settings

JET PUMPS

PENTAIR STA-RITE PUMPS

- Pentair Sta-Rite Jet pumps are an ideal choice for water booster systems in car washes, farms, home, etc. Designed for use in shallow well pumping systems (to 25' lift) or in foam brush, presoak and tire cleaner applications. All pumps come standard with adjustable pressure switches with shut-off pressures to 70 PSI (no pressure switch on CJ models). Available with cast iron, stainless or plastic bodies.
- MAX. TEMPERATURE LIMITS:** 122° F (50° C)
- MAX. INLET PRESSURE:** 50 PSI
- AVG. PRIMING TIME AT 20 FEET:** CJ90E = 5.3 min. CJ90F = 4.2 min.

* INDICATES THIS PUMP IS HIGH EFFICIENCY!

NPE SERIES - CENTRIFUGAL PUMPS GOULDS PUMPS

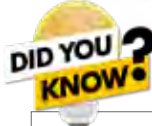

- Complete AISI 316L stainless steel liquid handling components and mounting bracket for corrosion resistance, appearance, and improved strength.
- Enclosed impeller with unique floating seal ring design maintains efficiency for the life of the pump without adjustments.
- Stainless steel construction with NPT threads, center line connections, accessible vent, prime and drain connections with SS plugs.
- Rugged ball bearing design for continuous reliable duty under all operating conditions.

NPE SERIES - SEAL KIT GOULDS PUMPS

\$120.78 GLKNPE

BERKELEY PUMPS

ALSO AVAILABLE IN 3 PHASE

High-head performance and quiet operation join corrosion-resistant dependability with Berkeley SSCX Series centrifugal pumps.

SSCX SERIES CENTRIFUGAL PUMPS

BERKELEY PUMPS

- **STAINLESS-STEEL HOUSING AND SHAFT** – Maximum corrosion resistance in chemical as well as water applications; smooth flow path assures quiet operation.
- **HIGH-TEMPERATURE RATING** – The SSCX Series centrifugal pump (with 304 SS Impeller) is designed for temperatures to 250 °F, making it an ideal choice for a wide range of pump applications and varying temperature conditions. The Noryl® impeller is rated to a maximum operating temperature of 185 °F.
- **MECHANICAL SHAFT SEALS** – Choice of seal options to meet your application needs. All are precision lapped and highly polished for long life and reliability.
- **IMPELLER OPTIONS** – 304 Stainless Steel or precision-molded Noryl® feature ultra-smooth flow ports to maximize performance and efficiency.
- **DRAIN/VENT PORTS** – Priming and draining is easier, faster.

SANDPIPER® STANDARD DUTY BALL NON-METALLIC PUMPS

SANDPIPERPUMPS

- Standard duty non-metallic pumps are ideally suited for highly corrosive fluids, intermittent/on-demand, portable, low abrasive fluids, and suspended solids. Standard duty non-metallic pumps are constructed in polypropylene, PVDF, conductive acetal and conductive polypropylene with TPE (thermal plastic elastomers) and PTFE options in diaphragms and check valves.

166 SERIES AIR DRIVEN PUMPS

PENTAIR SHURFLO AIR-DRIVEN PUMPS

- The Pentair Shurflo 166 Air Operated Demand Pumps employ a dual diaphragm design, with a patented fast action switching mechanism allowing for consistent flow and pressure. They are built for the toughest pumping applications and are available in a variety of elastomers that allow them to be compatible with mild caustic or acidic fluids. Ideal for chemical transfer, injection and spraying.
- 2-chamber dual diaphragm

ALL PENTAIR BRANDS ARE TRADEMARKS OF PENTAIR.

Whether you need to pump water for your RV, marine, agricultural, automotive, or floor care operation, Pentair Shurflo pumps are the answer! Innovative designs and high performance materials combine to deliver a high quality electric diaphragm pump solution that many operators trust to provide easy, maintenance-free performance.

PENTAIR SHURFLO PUMPS

SLV SERIES PUMP

PENTAIR SHURFLO PUMPS

- Ideal for low volume intermittent duty applications requiring a compact pump with low power consumption.
- Unique design has no metal parts in the fluid path for maximum chemical resistance.
- Automatic demand operation and elastomers that handle a wide variety of fluids offer great versatility.
- Perfect for low volume spraying and transfer.
- **PORTS:** 3/8" Barb
- **VOLTAGE:** 12 VDC
- **FLOW:** 1 GPM
- **PSI:** Varies - see below
- **VALVES:** Viton

GENERAL PURPOSE PUMPS

PENTAIR SHURFLO PUMPS

- Compact, rugged and reliable, the 100 is a positive displacement pump for flooded inlet, low volume, and low-pressure applications. Perfect where a low volume fill pump is needed, the unique wobbler design has no valves, and can pump a wide range of chemicals and fluids. Available in 12 VDC. Pump must be mounted below the supply tank to prime. Not for applications that require dry running.
- Easy installation
- Unique design eliminates valves
- **OUTLET PORT:** 3/8" Barb
- **FLOW:** 1 GPM (open)
- **O-RINGS:** EPDM
- **INLET PORT:** 3/8" Barb
- **PRESSURE:** 15 PSI

\$46.79 SF10000021

2088 SERIES DIAPHRAGM PUMPS

PENTAIR SHURFLO PUMPS

- Deliver reliable performance in high flow, moderate pressure applications.
- They are used in a variety of spraying, and transferring applications
- They are available in a variety of chemical-resistant materials, can be mounted in any position, and are designed for easy maintenance.

STENNER® PUMPS

STENNER PUMP COMPANY

- Self-priming: No foot valve assemblies required
- Low maintenance: Primary modular components are replaceable without tools
- External dial ring allows full adjustment from 5 to 100% of maximum flow
- Wall or shelf mount
- Consistent output and uniform flow
- Ideal for hyper-concentrates and a wide variety of car wash solutions
- Pressure rated up to 100 PSI
- International voltages and connections available
- **PERISTALTIC ADVANTAGE** - With peristaltic pumps you don't need diaphragms or foot valves while allowing the system to be completely self-priming

85 SERIES SINGLE HEAD PUMP

- 120V single head pump
 - Select suction/discharge tubing size 1/4" or 3/8"
 - Select pump tube material*
- * Versilon is recommended for oil based chemicals (drying agents, waxes and polymer conditioners)

Aquatec's 3-chamber and 5-chamber diaphragm pumps are used for a variety of water delivery applications. Commonly used either to pressurize water from an atmospheric tank, to deliver purified water to a specific point of use, or simply to increase pressure when required. Most models are designed for intermittent duty, although some models are rated for continuous operation.

Aquatec provides professional-quality pump systems for beverage and water delivery, industrial water transfer and floor care applications. Aquatec pumps feature thermal caps on motors for safe usage and temperature control.

Each Aquatec pump boasts reliable performance and great service life for your facility!

BRASS REGULATING VALVE

GENERAL PUMP

- **PRESSURE:** 300 PSI
- **INLET:** 3/8" BSP-F
- **OUTLET:** 3/8" BSP-F
- **MAX. FLOW:** 6.3 GPM
- **MAX. TEMP:** 195° F

\$34.72 GPP100269

UNLOADERS ARE TYPICALLY DESIGNED FOR...
a single gun or single pump operation. The unloader will maintain set system pressure with the trigger gun open and goes into bypass with the release of the trigger.

UNLOADERS ARE NOT RECOMMENDED FOR...
Weep systems. 5-10% in bypass is recommended for optimum performance.

BRASS REGULATING VALVE

GENERAL PUMP

- **PRESSURE:** 2500 PSI
- **INLET:** 3/4" NPT-F
- **OUTLET:** 1/2" NPT-F
- **MAX. FLOW:** 45 GPM
- **MAX. TEMP:** 195° F
- Regulates pressure and protects against spikes
- Grease zerk keeps the piston and seal lubricated
- Compatible with General Pump Emperor HTCK pumps
- Multiple connection points
- Lubricated piston and seal
- Durable brass body
- Great for in-bay automatic car washes
- **PLEASE NOTE:** if this valve is installed with a positive displacement pump, the manufacturer recommends incorporating a safety relief device (not included)

TRAPPED PRESSURE UNLOADER

GENERAL PUMP

SPECIFICATIONS:

- **PRESSURE:** 2175 PSI
- **INLET:** 1" NPTF
- **OUTLET:** 1" NPTF
- **MAX. FLOW:** 52.5 GPM
- **BYPASS:** 1" NPTF
- **MAX. TEMP:** 200° F

FEATURES:

- Features pressure-sensitive, high-pressure unloader valves that are designed to trap pressure when the gun is closed and drop bypass pressure to zero
- Immediate pressure available when gun is opened
- Sturdy steel and brass materials
- Check valve has a hexagonal shape to avoid jamming
- User may adjust pressure by screw and locknut for easy use and maintenance

\$361.99 GPU5221

General Pump recommends using a safety relief device in conjunction with this unloader valve when installed on a positive displacement pump.

TRAPPED PRESSURE UNLOADER

GENERAL PUMP

SPECIFICATIONS:

K3 & K5 SERIES UNLOADERS

GENERAL PUMP

SPECIFICATIONS:

- MAX. TEMP: 165° F
- INLET: 3/8" FPT
- BYPASS: 3/4" MPT
- OUTLET: 3/8" MPT
- MATERIAL: Brass, Stainless steel

FEATURES:

- Motors draw less amps, engines run with less load during unloading cycle
- No external moving parts or springs
- Piston design allows precise pressure adjustment
- Best for single pump or non-weep guns

BYPASS PRESSURE REGULATORS

U.S. PARA PLATE

- Accurate, repeatable bypass regulation
- Continually regulates pressure within 5% of setting
- Can be set up to both regulate and absorb normal pulsation, eliminating the need for pulsation dampener
- Can be parallel mounted
- Designed for weep systems
- Not recommended for use with single or two cylinder pumps

DIAPHRAGM PRESSURE REGULATING VALVE

SPRAYING SYSTEMS CO.

- Throttling valves regulate flow in systems equipped with centrifugal pumps
- Adjustable pressure relief valves accurately control spray line pressures – liquid waste caused by excessive pressures is minimized as excess liquid is bypassed back to the liquid source or pump inlet

PRICE	PART #	PSI	MATERIAL	INLET
\$41.43	RES8460	300	Nylon Body	1/2"

A REGULATOR IS DESIGNED FOR...

single or multiple pumps, weep or multi-nozzle systems. A regulator maintains set system pressure even when only one of several guns or nozzles is performing bypassing the unused flow. 5-10% in bypass is recommended for optimum performance.

REGULATION VALVES

HYDRDA-CELL REGULATORS

HYDRA-CELL®
SEAL-LESS PUMP TECHNOLOGIES

- C Series Hydra-Cell valves bypass system fluid to prevent excess system pressure. When a system discharge is completely closed - such as a closed spray gun, closed valve or plugged nozzle - the Hydra-Cell valve bypasses the total system fluid flow. Balance system pressure for multiple-gun operations.
- For service, simply remove the top of the body and replace the worn internal components. Valves can be serviced in place without removing any fittings or plumbing.
- Heavy-duty construction
- Flow-through design
- Immediate response

ZERO PRESSURE REGULATOR

REGULATORS

- Zero Pressure Regulator offers an entirely new approach to chemical metering into pumping systems using pressurized water supplies. The use of this regulator eliminates the need for troublesome float tanks with their inherent problems of corrosion, leakage, stuck float valves, clogged filter screens and excessive space requirements.

WATER SEPARATOR

SMC PNEUMATICS

- The AMG series water separator is installed on the air pressure line to remove water drops in the compressed air. It is suitable for use in cases where "water must be removed, but the air does not have to be as dry as when an air dryer is used" or "an air dryer cannot be used because an electric power supply is not available". Through the adoption of an element that is used exclusively for removing water drops and the provision of ample housing interior space, a 99% water removal rate has been achieved.
- Auto drain • Mounting bracket

PUMP ACCESSORIES

FLOW SWITCHES & PRESSURE GAUGES

YFL7 SWITCH - 3/8" FLOW SWITCH

GENERAL PUMP FLOW SWITCHES

- **MAX. OP. PRESSURE:** 5100 PSI
- **ACTIVATION FLOW RATE:** Horizontal 1.5 GPM
- **MAX. VOLTS:** 250V
- **MAX. PRESSURE:** 5650 PSI
- **VERTICAL:** 2.1 GPM
- **MAX. AMPS:** 1 amp
- **MAX. FLOW:** 8.0 GPM
- **MAX. TEMP:** 180 °F

\$66.03 ST0392

FLOW SWITCH - 3/8" FLOW SWITCH

GENERAL PUMP FLOW SWITCHES

- **MAX. VOLUME:** 7.5 GPM
- **MAX. VOLTAGE:** 250V
- **MIN. FLOW REQUIRED FOR ACTIVATION:** 1 gallon
- **MATERIALS:** Brass, stainless steel, Buna-N
- **MAX. AMPS:** 1 Amp - non-inductive loads
- **OPERATING TEMPERATURE RANGE:** Up to 175 °F

\$45.75 ST0390

TMT FLOW SWITCH W/ STAINLESS STEEL SHUTTLE INLINE FLOW

GENERAL PUMP FLOW SWITCHES

STANDARD FEATURES:

- Micro-switch technology eliminates reed switch
- Activates with 1.5 GPM flow
- Minimal pressure drop up to 12 GPM flow
- Can be mounted in any position
- Stainless steel shuttle
- **MAXIMUM OPERATING PRESSURE:** 5000 PSI
- **MINIMUM FLOW REQUIRED FOR ACTIVATION:** 1.5 GPM @ 50 PSI
- **MAXIMUM OPERATING FLOW:** 12.0 GPM
- **OPERATING TEMPERATURE RANGE:** 40 - 180 °F

\$42.31 GPP100975

TMT FLOW SWITCH

GENERAL PUMP FLOW SWITCHES

- Tri-magnet flow switch is available with (GPP100879) or without pilot feature (GPP100904)

STANDARD FEATURES:

- Micro-switch technology eliminates reed switch
- Activates with .5 GPM flow
- Minimal pressure drop up to 12 GPM flow
- Mount in vertical position
- **MAXIMUM OPERATING PRESSURE:** 4000 PSI
- **MINIMUM FLOW REQUIRED FOR ACTIVATION:** 0.5 GPM @ 50 PSI
- **MAXIMUM OPERATING FLOW:** 12.0 GPM
- **OPERATING TEMPERATURE RANGE:** 40 - 180 °F

\$101.73 GPP100904 WITHOUT Pilot Feature

MARATHON WASH DOWN MOTORS

- Double sealed ball bearings
- 303 Stainless steel shaft with spring loaded contact seals in each endshield
- Encapsulated electronic starting switch is impervious to moisture
- Cast oversized conduit box with high-temperature nitrile gaskets and threaded entrance
- Internal corrosion-resistant coatings on frame, base, endshields, rotor and stator
- Stainless steel conduit box cover, nameplate, fan guard (TEFC) and hardware
- Plugged drain holes in each endshield for all angle mounting
- Capacitor start induction run design for high starting torque unless otherwise noted
- Class F insulation, 1.15 Service Factor, and UL Recognized and CSA Certified

PUMP ACCESSORIES

HYDRAULIC FLUID

KLEEN & GREEN WATER-BASED HYDRAULIC FLUID

- Biodegradable
- No special handling
- Usually does not require special waste disposal
- Does not require hazardous storage
- Usually no exposure hazards (some individuals may have adverse skin reactions)
- Compatible with existing standard hydraulic components
- Prolonged high heat does not produce varnish or sludge
- Clean up with soap & water
- Fire-resistant

\$91.08	KNG5	5 Gallon
\$942.19	KNG55	55 Gallon

AW32 HYDRAULIC FLUID

- Premium A/W Hydraulic Oils are superior anti-wear hydraulic and circulating fluids specially formulated with high-quality base stocks and improved thermally stable additives. These oils offer outstanding resistance to sludge formation, are chemically stable, and exhibit excellent anti-wear protection.

CHANGERS & COUNTERS

CURRENCY VALIDATORS

CPI TALOS VALIDATORS

- Secures banknotes in speeds under 2.5 seconds
- Light Bar recognition system delivers best in class fraud detection
- Firmware updates via USB, increases update speed ten-fold
- Addresses new advances in banknote security
- Encrypted, secure, seamless updates
- 32-bit microprocessor with processing power to support enhanced features
- Enhanced security modes provide additional theft protection, early detection, and alarm triggering
- External error code access
- Replaces 2000 Series Bill Validators

CHANGES FROM 2000 SERIES:

- Light Bar recognition replaces Pellet Sensors
- No more dip switches
- Denomination acceptance programming w/banknote or coupon
- Increased banknote transport speed
- New bezel designs - VFM & Compact applications
- Single high security mode
- USB supported updates

SIMILARITIES WITH 2000 SERIES:

- All bezel design types are compatible, including cashless
- Retro bill magazine compatibility
- Reliable banknote transport and stacking mechanism performance
- Supports all OEM communication protocols and interface types
- Drop-in replacement for 2000 Series units
- Programming push button found behind the bill magazine

HAMILTON CHANGERS

BILL TO BILL DISPENSER SERIES, REAR-LOAD

HAMILTON CHANGERS

- Break larger bills down to smaller bills and/or coins. This bill dispenser is offered with a dual cassette to give more versatility, and the optional coin hopper will allow dispensing of either coins or tokens along with bills. Choose Hamilton's XE bill validator or several of the third party options. With a CPI Talos® validator, you can accept up to \$100 bills. Possible configurations for the exchanger include: bill dispensing only, bill & coin dispensing, Tokennote® dispensing only, Tokennote® & coin dispensing, and bill/Tokennote®/coin dispensing. Connect your bill to bill dispenser to the Data Access Network (D.A.N.) to remotely access audit reports, track input/output of the hopper and bill dispenser, as well as clear soft errors and shut the machine down.

- **HANDHELD KIT REQUIRED FOR PROGRAMMING**
- **HOPPER: \$1200 QUARTER HOPPER CAPACITY**
- **LOCKS: 2 HEAVY DUTY MEDECO® PLUG LOCKS**

ROWE® UPGRADE KITS

BC-1400A-KIT

Convert your existing Rowe™ | BC-1400 to a BC-1400A

What's included?

1 - CPI Validator*

CPI Validator accepts \$1, \$5, \$10, & \$20 denominations. Can be programmed for other currencies. CPI Talos Validator models currently compatible are: AE2632, 2602 with down stacker, T702, and T602.

2 - Hoppers with Extensions**

Each hopper holds 4,800 quarters/tokens (4,400 \$1 coins). BC-1400A holds 9,600 quarters/tokens (or 8,800 \$1 coins) total.

1 - Universal Board

American Changer's Universal Board allows one validator/two hoppers with one power supply.

1 - Power Supply + Power Cord

Switchable input: 115/230 Volt, 50/60Hz. Various plug configurations. Power consumption: Board 10W max | Hopper 22W max | Validator 50W max.

Kit includes brackets, mounting plates, hopper extensions, chutes, and harnesses. | For existing BC-2800's, the components will be the same as above x2.

Additional Upgrade Options are available, such as Remote Access boards, 700 or 1,000 note stackers, decals, and more!

* Validator stacker capacity based on USA banknote - 6.21" L x 2.62" W (0.0043" thick) or 5.5956 cm L x 6.6294 cm W. Weight: 1 gram

** Hopper capacities based on 2014 USA Quarter size (0.955" or 1.75mm, weight 0.182 Troy ounces or 5.670 grams) or USA \$1 coin. (1.043" or 26.5 mm, weight 0.260 Troy ounces or 8.100 grams). Hopper capacities increase or decrease depending on coin size used.

HITACHI IHUNTER 110 - 2 POCKET CURRENCY DISCRIMINATOR

COIN, CURRENCY, AND DOCUMENT SYSTEMS

- Intelligent and reliable banknote counter, which uses image processing technology to recognize banknotes and to discriminate denominations. The 110 features Full Color Imaging with Dual CIS scanning, which scans both sides of the bills to reduce unwanted rejects. The 2-pocket design, with a stacker and a reject pocket, allows the 110 to count and off-sort without stopping. Having a reject pocket allows operators to perform daily cash-processing jobs without any interruption.

FEATURES:

VARIETY OF COUNTING MODES:

- Mix: Counts mixed money, providing grand total and itemized count.
- Single (sorting): Counts 1 denomination and sorts all other denominations into reject pocket.
- Face: Faces all bills (heads up or heads down)
- Orientation: Orientates all bills in proper direction: (heads facing right or heads facing left)
- Count: Counts all bills, providing quantity total.
- Dual CIS Scanner (scans both sides of bills to reduce unwanted rejects.)
- Full counterfeit detection
- 4.3-inch color touch ccreen
- Easy upgrade (USB flash drive)
- Easy jam removal (2 openings from front and rear side)

SPECIFICATIONS:

- Pockets: 2
- Value Count: Max. 1300 notes/min
- Mixed Count: 700-900 notes/min
- Weight: 30.64 lbs.
- Hopper Capacity: 500-700 notes
- Stacker Capacity: 200-250 notes
- LAN/USB Interface
- Reject Capacity: 60-100 notes
- 100~240 VAC, 50/60 Hz
- Counterfeit Detection: CIS/IR/MG/UV

HIGH SECURITY CAR WASH TOKENS

HOFFMAN MINT

MINTED IN FORT LAUDERDALE, FLORIDA

- Unique alloys - New to the industry | Eliminate unwanted tokens from competitors | Token sizes similar to a quarter & dollar coin | Reduce theft & vandalism | Pricing flexibility & promotional opportunities | Walkaway profit | Reduce operating costs
- A variety of sizes and alloys are offered because each variation has a unique electronic signature enabling coin mechanisms to distinguish them from other tokens. We do not recommend the use of 260 alloy since it is common in amusement applications. We recommend you survey your competitors in the area who are using tokens, either by talking to the owners or by collecting samples from their locations. By comparing your competitors' tokens to our samples, you can then make a choice unique to your location. If you're fortunate enough to be the only token user in your market, then make your choice based on the look, feel, and budget that appeals to you. Having your token customized with your name or logo adds advertising impact. **COINS ARE ACTUAL SIZE.**

MINIMUM ORDER IS 1,000 TOKENS

- PICK THE SIZE:**
 - .900" (slightly smaller than a Quarter)
 - .984" (slightly larger than Quarter)
 - 1.012" (slightly smaller than a Dollar Coin)
 - 1.073" (slightly larger than Dollar Coin)
 - 1.125" (larger than Dollar Coin but smaller than Half Dollar)
- PICK THE ALLOY:**
 - Alloy 230 (available in all sizes)
 - Alloy HM1 or HM2 (available in .984")
 - Alloy HM4 or HM5 (available in 1.073")
- PICK THE DESIGN:**
 - Choose generic front and back dies
 - Or customize with your logo for an additional cost

WALL OR PEDESTAL MOUNTED!

WALL OR PEDESTAL MOUNTED!

DIGITAL AIR MACHINE

J.E. ADAMS

- With the digital air machine, proper tire inflation is no longer a hassle. Automatic high-precision calibration is now quick and consistent. The unit automatically inflates a tire to within 0.5 PSI of the desired pressure. All the operator needs to do is set the target PSI. No need to shut off the unit as it reaches its goal. Ending over-inflation through advanced calibration. Introducing digital PSI calibration into the equation has made inexact, time-consuming manual inflation obsolete.
- Using the plus and minus buttons, set recommended tire pressure and connect the hose chuck to the tire valve stem. The unit will read the actual tire pressure, automatically inflate or deflate to the pre-set pressure. When complete, the gauge will automatically stop and beep, indicating that the operation is complete.

STANDARD FEATURES:

- Gast ¾ HP air compressor, oil-less, 18-month warranty
- Inflates to preset pressure
- Easy to read LCD backlit display
- Set desired tire pressure with (+) and (-) touch buttons
- Built in unit heater
- Temperature safe from -20° F to 158° F
- Automatic compressor shut off
- Electronic pressure relief valve
- High Security lock bar system
- Imonex mechanical coin acceptor takes quarters
- Flat tire button determines back pressure and fills accordingly
- Pressure range 4-70 PSI (accuracy +/- .5 PSI)
- Wall or pedestal mounted **PEDESTAL SOLD SEPARATELY**

SHAMPOO/SPOT REMOVER

J.E. ADAMS

STANDARD FEATURES:

- Wall or pedestal mount
- Large digital display timer scrolls messages, counts down time, scrolls prices of services
- Imonex mechanical quarter coin acceptor comes standard, additional mechanical coin acceptors are available
- Pin lock style coin box
- Internal automatic heater
- Gast 1/12 HP oil-less compressor
- Medeco threaded door locks
- Rocker switch on brush handle to select between shampoo and spot remover
- 1 oz. of shampoo or spot remover makes 2½ gallons of foam
- **SHOWN WITH OPTIONAL DECAL. ALSO AVAILABLE IN YELLOW. STANDARD DECAL IS BLACK.**

SHAMPOO/SPOT REMOVER/ FRAGRANCE STATION

J.E. ADAMS

STANDARD FEATURES:

- Toggle between 3 fragrances, spot remover & shampoo
- Wall or optional pedestal mount
- Large digital display timer - scrolls messages, counts down time, scrolls price of services
- Imonex mechanical quarter coin acceptor comes standard, additional mechanical coin acceptors are available
- Pin lock style coin box
- Internal automatic heater
- Gast 1/12 HP oil-less compressor
- Medeco threaded door locks
- Rocker switch on brush handle to select between shampoo and spot remover
- 1 oz. of shampoo or spot remover makes 2½ gallons of foam
- Dispenses ¾ oz of fragrance in 30 seconds

FRAGRANCE STATION

J.E. ADAMS

STANDARD FEATURES:

- Requires 10 AMP service
- Dispenses your choice of 3 fragrances (Wild Cherry, New Car, French Vanilla)
- Fragrance dispenses .75 oz of fragrance formula per thirty seconds, which is equal to 1.5 oz of liquid formula per minute. 1 gallon of liquid formula = 128 oz and the dispensing rate is 1.5 oz per minute. One gallon of liquid formula yields 85 minutes of vend time or 170 thirty-second vend cycles.
- Average vend time \$1.00 for 1 minute.
- Wall or pedestal mounted (Item #8819)
- **PEDESTAL SOLD SEPARATELY**
- Louvered sides minimize heat build-up inside cabinet
- Imonex mechanical quarter coin acceptor comes standard
- Large Dixmor digital display timer – scroll messages, counts down time, scrolls price of services
- Digital display can be easily programmed with remote control which is available at a nominal charge
- Medeco threaded door locks (Replacement Item #8958-1)
- Pin lock style coin box (Replacement Item #8638)
- Internal automatic heater
- Indicator light shows when unit has power
- Optional last coin alert and additional mechanical coin acceptors are available

IVS ARCH VACUUM SYSTEMS & AIR MACHINES

INDUSTRIAL VACUUM SYSTEMS

ARCH BAY VACUUM SYSTEM INDUSTRIAL VACUUM SYSTEMS

• Attract customers with this popular and custom look at your car wash. The swivel or fixed boom design keeps your hoses off the ground so they don't get dirty, and are easy for your customers to use. The system can be ordered in a single or dual-boom configuration. IVS engineered the ARCH BAY VACUUM SYSTEMS out of stainless steel for durability and a long service life. The boom arm can swivel 180° or it can be locked into a fixed position. Comes with LED lighting. Signage can be customized for your car wash's branding. Vacuum can be controlled by a free vac push-button or a coin box.

- Single or dual arm
- Flexibility - connects to any IVS vacuum or central vac system
- Stainless steel construction for long-lasting durability
- Adjustable boom(s) can swivel 180° or can be fixed stationary
- Customizable LED lighting, trash bins, racks, mounting options for pylon or islands, coin box or free vac timer options
- Branded signage on arch can be custom printed/branded

DIMENSIONS:

- **BOOM ARM:** 120" Long • **BASE POLE:** 99" Tall

VACUUMS & ACCESSORIES

J.E. ADAMS ULTRA SERIES VAC ISLAND CANOPIES & BASES

8' VAC ISLAND & CANOPY

J.E. ADAMS

- Ultra Single 8' Vacuum Island Base (32008) and Canopy (32008CAN)
- All models include two poles

12' VAC ISLAND & CANOPY

J.E. ADAMS

- Ultra 12' Vacuum Island Base (32012) and Canopy (32012CAN) with Ultra Turbo-Nator and Ultra 6-in-1 Combination Vacuums

CANOPIES

J.E. ADAMS

- Available in red, blue, yellow & green
- Unique two-piece modular canopy design is more cost effective to ship
- Aluminum frame, poles and vinyl cover make the canopy lightweight, durable, and weather resistant – logo can be customized for an additional fee
- Easily assembles in about one hour
- Canopies come with fluorescent light fixtures with easy access to bulbs for replacement
- One section could be replaced if damaged at your location – unlike one-piece construction

FOR USE WITH BASE

J.E. ADAMS

32008CAN	8' Single Vacuum Island Canopy
32010CAN	10' Vacuum Island Canopy
32012CAN	12' Vacuum Island Canopy

FOR USE WITHOUT BASE

J.E. ADAMS

32008CAN-NB	8' Single Vacuum Island Canopy
32010CAN-NB	10' Vacuum Island Canopy
32012CAN-NB	12' Vacuum Island Canopy

BASES

J.E. ADAMS

- Black bumper guards
- Total stainless steel construction including interior frame and vacuum platforms provide years of use while still looking like new
- Unique modular construction consists of three separate pieces (double vacuum island bases) and two separate pieces (single vacuum island base)
- Modular construction results in reduced freight costs; easily assembles without a forklift in about two hours
- Tepee mat holder with (4) mat clamps are permanently attached to the center module which cuts down on potential replacement parts
- Modular design allows for replacement of any section or part if damaged at your location (unlike one-piece designed islands requiring total replacement)
- Trash service door is secured with (2) Medeco cam locks and trash can be deposited from four directions into container
- Slide-out trash removal is readily accessible by door

EXPRESS VACUUMING REPAIR & REPLACEMENT PARTS

When your vacuums begin to lose suction, you begin to lose money. Many customers place equal importance on interior and exterior cleaning, and aren't interested in a weak vacuum that barely works. Without effective suction, customers may start to feel your car wash doesn't deliver the cleanliness they seek!

That's why Kleen-Rite sells express vacuuming repair and replacement parts for your car wash vac systems. These top selling items are inexpensive yet essential - perfect for replacing worn vacuum parts! As with any piece of equipment at your car wash, the right parts are necessary to keep your vacuum in good shape.

KLEEN-RITE VAC HOSE

-  Kleen-Rite offers many affordable vacuum hose options.
-  Plus, these flexible hoses are all made in America!
-  **COLOR OPTIONS:** Include red, blue, black, gray, and yellow
-  **HOSE LENGTHS:** Include 15' and 50'
-  **DIAMETERS:** 2" and 1½"

VACUUM NOZZLES

During vacuum upkeep, remember that suction loss could be the result of a cracked or broken nozzle!

A vacuum crevice tool slim nozzle makes it possible to reach tight, hard-to-access areas in vehicles. A claw nozzle has a wide design for cleaning interior surfaces.

SWIVEL CUFFS

Another handy item that can reduce damage to your vac hose is a swivel cuff. The cuff allows the hose to swivel around and move easily during use, to avoid twisting and kinking. Not only does it help reduce hose damage, but it also improves maneuverability for customers.

INLET VALVES & HOSE ADAPTERS

Inlet valves provide a quick connection of a male hose coupling to the vac system. Hose adapters connect another piece of hose or an attachment to your existing hose.

Kleen-Rite sells two popular items compatible with 1½" hose. These aluminum parts offer a durable alternative to plastic models.

VACUUMS & ACCESSORIES

THE VACUUM PROSPECTOR

**THE PROSPECTOR
VACUUM CLEAN
OUT CANISTER**
VACUUM PROSPECTOR, LLC

You'll hit literal pay dirt after installing The Vacuum Prospector Clean Out Bucket! Ever stop and think about how much stuff gets sucked up by your car wash vacuums? Maybe you've even looked at all the various bits of debris when you clean out the canisters. While your vacuums are sucking up dirt, dog hair, and stale french fries, the vacs are also gobbling up errant coins that have fallen underneath your customers' seats. This means you are actually throwing away money each time you empty a vacuum!

The Vacuum Prospector Clean Out Bucket is an easy solution. It was developed by a car wash owner who was curious about the amount of coins lost to vacuums each year. After installing his prototype in vacuums, he was able to catch over \$400 in loose coins over the course of 6 months! The Vacuum Prospector has a unique design utilizing a false bottom and 162 individual holes. Each hole is slightly smaller than a dime, so no coins will escape.

Simply place the Clean Out Bucket inside your vacuum. When full, remove the bucket and unlatch the false bottom, exposing the unit's holes. Dirt, dust, lint, and other small debris will fall through the holes, leaving coins behind! It's like panning for gold - at your car wash.

- Out of the box compatibility with J.E. Adams vacuums
- False bottom keeps debris contained until you are ready to sift
- Each of the 162 holes is smaller than a dime so money will not escape away!
- Earn hundreds of dollars every year in coins that would have been thrown away!
- Triple handle design enables you to be hands on with the bucket, not the dirt
- Weight: 4 lbs.
- Dimensions: 18 $\frac{3}{4}$ " Diameter, 7 $\frac{1}{4}$ " Tall

Car wash fragrance machines are a great choice for earning more revenue. Car wash customers are now looking for car washes that have fragrance machines. Keep yours up-to-date and properly maintained with the right parts!

The more options the better! Giving the customer more choices with your fragrance and shampoo machines will keep them satisfied. Stand-alone car wash shampoo machines are perfect for increasing the length of time a customer spends at your location and are perfect for maintaining your customer's cars. Making sure they are fully kitted with the proper parts and accessories is the best way to extend your unit's service life.

LOOKING FOR A QUIET OPERATION...

In addition to the Kleen-Rite branded vacuum motors being wound, tested and assembled in the USA for over 20 years, the VMK135 version has the unique Qui-EM fan system that offers a significant reduction in Sound. The VMK135 model offers up to a 6 dBA reduction in sound power when compared to the highly popular VMK19 model. If your environment would benefit from quiet operation of your vacuum system, consider upgrading to the VMK135.

LED LIGHTING AND RETROFIT KITS

JDS DIAMOND SERIES LED LIGHTS

JARVIS

- An LED canopy light perfect for gas stations and other canopy applications. With a drop lens design, this fixture has a very high illumination to significantly enhance any location.

DETAILS:

- Drop lens design increase site visibility from roadway
- UV Stabilized PC Lens increase longevity
- Catch wire to hold fixture in place during installation
- Lens is impact resistant
- Fixture designed with rear facing heat sinks to not trap visible dirt
- Designed for quick and easy installation

\$201.39	LED330-100	100 Watt - 12,677 Lumens
-----------------	-------------------	--------------------------

XBEAM LED CROSSBEAM™ CANOPY LIGHTS

JARVIS

- For gas station canopies
- Use in wet or dry locations
- Operating voltage: 120-277 V
- Operating temperature range: -40° to 113° F
- Four LEDs send out crossing beams of light to create focused yet even illumination
- Internal reflector and high clarity prismatic borosilicate glass lens
- White coated body resists UV degradation

\$243.06	LED360-105	105 Watt - 13,110 Lumens

SCRT-320 LED RETROFIT KIT FOR LSI SCOTTSDALE FIXTURES

JARVIS

- Allows you to change from traditional bulbs to LED technology on your LSI Industries Scottsdale lighting fixtures. Kit features simple installation combined with the best lighting technology; making it the ideal choice when updating LSI Industries Scottsdale fixtures.

SPECIFICATIONS:

- 4 heavy duty, high-efficiency LEDs
- 120-277V, 50/60 Hz input
- 107W power
- 14,680 lumens

DETAILS:

- For use with Scottsdale LSI light fixtures
- Very easy installation
- 72% reduction in electricity versus standard lights
- DesignLights Consortium® premium qualified product – Rebate eligible in most areas
- ETL Listed for wet locations
- Smart power supplies adjusts to any voltage within a range of 120-277 volts

\$237.92	LED300
-----------------	---------------

CPY250 SERIES LED CEILING MOUNT LIGHTS

CREE LED LIGHTING

- The CPY250 delivers 13,000 lumens (30% brighter than a 400W metal halide) of beautiful, high-quality light with superior efficiency. With rugged cast aluminum construction and an integral heat sink, the CPY250 can withstand the most challenging outdoor environments. Available with a flat (CPY250-FL) or 1" prismatic drop lens (CPY250-DL), the luminaire provides two aesthetics to meet visual and illumination performance needs. The slim, low profile design enhances curb appeal, while offering seamless installation.
- Class I, Division II Hazardous Location for select models
- Slim low profile design
- Universal 120-277V
- DLC and UL Listed
- CCT: 5700K
- IP66 Rated
- Made in the USA
- Direct mount
- 13000 lumens
- Exclusive DeltaGuard® Finish
- 10 year warranty
- Flat or drop lens option
- 100 lumens / watt

RETROFIT KITS, LED LIGHTING AND CANOPY FIXTURES

SCOTTSDALE VERTEX™ CANOPY FIXTURE

LSI LIGHTS

- This SCV canopy light fixture is capable of being retrofitted to a variety of older arrangements, and is also built to accommodate future additions of wireless controls, sensors, and other hardware. Possibly the best feature of the Scottsdale Vertex fixture is the Symmetric Combination Forward Throw optics that produce light over a larger area and eliminates or reduces the need for flood lights

FEATURES:

- Wireless controls
- Best in class energy efficiency
- Innovative retrofit options to replace out-dated fixtures
- Hybrid distributions offer safer extended light path

ELECTRICAL DETAILS:

- High-performance driver features over-voltage, under-voltage, short-circuit and over temperature protection
- Voltage - 120-277VAC
- L80 Calculated Life: over 100k hours
- Driver dims to 10%
- Total Harmonic Distortion: under 20%
- Operating Temp: -40 °F to 122 °F
- Power Factor: >0.90
- Driver complies with FCC standards
- High-efficacy LEDs mounted to 4 circuit boards for maximum heat dissipation

OPTICAL DETAILS:

- Standard symmetric distribution
- Minimum 80 CRI
- 5000K color temperature

WPSLS SERIES SMALL LED WALL PACK 2000 LUMENS - 20 WATTS

LSI LIGHTS

- **LEDs:** Color temperature 5000K, 2000 lumen package, 2418 delivered lumens, minimum CRI of 71, zero uplight
- **CONSTRUCTION:** Rigid precision die cast-aluminum housing for durability and consistency.
- **THERMAL MANAGEMENT:** Stacking heat removal technology extracts heat from within the housing and moves it away from LEDs
- **INSTALLATION:** Surface mounts direct to J-box or wall. Features a bubble level and removable hinged face frame.
- **DIMMING:** 0-10 volt dimming standard.
- **OPERATING TEMPERATURE:** -35 ° to 40 °C (-31 ° to 104 °F)
- **ELECTRICAL:** 120-277v, 50/60 Hz) input.
- **EXPECTED LIFE:** Minimum 100,000 hours.

TWX3-LED-ALO-50K-MVOLT-DBBTXD LED WALLPACK

Lithonia

- The TWX3 series of wall luminaires is an energy-efficient, low maintenance LED wall pack for replacing up to a 400W MH fixture. The unit is built for car wash use, with two-piece die-cast aluminum housing that is completely sealed against moisture and environmental contaminants (IP65) and is suitable for applications where water is a concern. With an expected service life of more than 20 years, it eliminates frequent lamp and ballast replacements. Adjustable Light Output (ALO) allows for adjustable light output at installation to meet site needs.
- Lumens: 2,900 - 13,850 lumens, set at installation
- Color Temperature: 5000K
- Finish: Textured Dark Bronze
- Voltage: 120-277V

AL SERIES FLEXPACK LED WALL PACK LUMINAIRE

JARVIS

- The Jarvis wall pack LED light offers two different positions for installation. Users may choose to orient the lens parallel to the horizon for "dark sky" mounting that directs all light downward, or mount at a 45° angle for forward-throw illumination across parking lots and more. The chosen position will become fixed during installation; wall pack removal would be required to readjust the lens.
- Durable, UV-resistant body
- Bronze color and also available in white
- 120-277V electrical connection required for operation
- 0-10 volt dimmable LEDs
- Operating temp. range: -40° to 104° F
- Features automatic temperature protection

WMFT SERIES LED WALL PACK LUMINAIRE

JARVIS

- The Jarvis WMFT Series LED wall pack luminaire is outfitted with two LEDs and reflectors that direct light down and out. This design makes the WMFT wall pack ideal for illuminating large spaces like parking lots because it features a base that is identical to most HID wall packs. Upgrading to LED is easy! Automatic temperature protection reduces power level in high temperatures to protect internal components from the heat. Compatible with most motion sensors and photo sensors (mount into knockouts on side of housing or baseplate).
- Die-cast, coated body withstands sun and elements • Two LEDs per pack • Easy to put in place of existing HID
- Forward throw prismatic lens design • Standard 0-10 volt dimming • Operating temperature: -40° to 104° F

LED LIGHTING

LED CEILING MOUNT LIGHTS

LSI LIGHTS

- Provides excellent lighting in heavy-duty, high-impact, reinforced fiberglass housing. With its vaportight design, it is ideal for utility, backroom, and cooler applications. Offered with high-impact acrylic lens and symmetrical distribution for outstanding light delivery.
- **OPTICAL SYSTEM:** Use of closely-spaced medium-power, high-brightness chips minimizes pixilation and provides uniform lens luminance. Frosted, injection-molded, high-impact acrylic is standard.

- **ELECTRICAL:** Projected life of at least 200,000 hours. Standard Universal voltage (120-277 Vac) input, 50/60Hz Power factor > 0.9, THD < 20%, in-rush current < 15 Amps or optional High Voltage (347-480 VAC). Operating Temperature: -40° F to 104° F.
- **CONSTRUCTION:** Inner gear tray is constructed of code gauge steel. Outer housing is constructed of fiberglass reinforced polyester. Gasketing in the housing is constructed of closed cell polyurethane. Conduit entrance is provided at both ends. Finish coating of housing reflecting surfaces is with high-reflectance (minimum 92%) polyester powder. High pressure hose down (1500PSI). IP65 Certified / IP66 Certified / IP67 Certified (comparable to NEMA 6). NEMA 4X rated.

G&G LED

CAR WASH LIGHTING

DESIGNED SPECIFICALLY WITH YOUR CAR WASH IN MIND.

Experienced car wash operators know bright bay lighting is important! When it comes to LED lighting for car washing, G&G knows exactly what it takes to survive this incredibly demanding environment. Engineered to withstand constant exposure to moisture, direct spray, car wash chemicals and debris, G&G's lights are guaranteed to last where others typically fail.

LET YOUR CAR WASH SHINE

High pressure spray, rigorous cleaning chemicals and constant high humidity levels are all factors that challenge car wash lighting. G&G's linear LED fixtures were designed specifically for the harsh environment of a car wash. The 1" round low-profile housing with quick-connect cabling is both waterproof and chemical resistant, allowing them to thrive in an environment where many other products fail. Our Direct AC driverless GPX fixtures are ideal for Self Serves where ease of installation and long life are key. This innovative technology removes the external driver from the system and allows you to power the first fixture directly from AC line voltage while connecting the others using push-and-click cables. Our WPX harsh environment lights are the most rugged, durable solutions that can handle anything the car wash presents them with.

From self-serve and in-bay automatic lighting, to tunnels and high-power color effect lighting, G&G has your lighting needs in wash facilities covered. All of G&G's LED luminaires are UL wet location rated and made in the USA, backed by an industry leading, no-questions-asked warranty.

FEATURED PRODUCT

EASY INSTALL

Converting your car wash to LED lights doesn't need to be a hassle. G&G's plug-and-play design is easy to install. You can use it in your bays, around awnings, near vacuums, and more!

G&G LED lights are easy to install with mounting clips. Drill holes, place mounting clips, and push in your luminaire! Each mounting clip will snap around the light and create a secure hold. G&G's WPX and GPX bay lights connect end-to-end, by waterproof cables, or a mix of the two. Jumper cables are a great choice when installing lights around other wall-mounted objects. Installation takes hours, not weeks! Check out Kleen-Rite's YouTube page for a step-by-step video.

G&G'S PRO TIPS FOR INSTALLATION

- Turn off any electrical current running to your installation area.
- Mount fixtures on ceiling wherever possible; 2-3 feet from walls.
- If ceiling mount is not feasible, mount directly to walls.
- Mark a chalk line to keep lights even during installation!
- To install an 8' light, place two mounting clips 7 feet apart, and one in the middle.
- To install a 4' light, place two mounting clips 40 inches apart.
- Mark your holes, drill, and push clips into the ceiling or wall.
- Press each luminaire into the clips and watch them snap in place!
- Remove end caps from lights and push luminaire ends together to connect.
- Move around obstructions with waterproof jumper cables. Just push to connect!
- Connect the lead wires on one of the end lights into a compatible power source.
- Be sure to leave ceiling caps on the exposed end of the first and last light in the row.
- Turn on the power and enjoy bright light day or night!

CHOOSING THE RIGHT LIGHT

GPX DRIVERLESS LINEAR LIGHTING

GPX Driverless Linear Lighting has a maintenance-free design. It connects to AC line voltage and is easy to daisy-chain. Coextruded copolyester and aluminum single-piece housing provides great heatsinking ability. Recommended for self-serve bays or outdoor lighting and is bendable for vacuum arch lighting. Ideal where high humidity is an issue. Can be daisy chained with jumper cables or connected end to end for long linear runs of light.

- **EFFICACY** 130 LPW
- **CRI** 85
- **LIFETIME** 100,000 hours at 77 ° F
- **LOCATION** Wet environment ceiling or wall mount
- **ELECTRICAL INPUT**..... 120 or 277 VAC
- **OPERATING TEMP** -40 ° C and 55 ° C
- **DELIVERED LIGHT OUTPUT**... Up to 1,000 lumens per foot
- Connect end to end or via jumper cable
- Maintenance-free design
- IP67 rated
- UL wet listed

WPX HARSH ENVIRONMENT LINEAR LUMINAIRE

WPX Harsh Environment Linear Luminaire lights are easy to install and connect! It features a seamless polymeric outershell with an IP68/IP69K rating and has great chemical resistance. Plus, an embedded aluminum heatsink provides great cooling for a long life. Great for IBAs and tunnels where direct spray and chemical exposure is an issue. Connects using jumper cables for long linear runs of light.

- **EFFICACY** Up to 140 LPW
- **CRI** 85
- **LIFETIME** 100,000 hours at 77 ° F
- **LOCATION** Wet environment ceiling or wall mount
- **OPERATING TEMP** -40 ° C and 55 ° C
- **DELIVERED LIGHT OUTPUT**... Up to 12,000 lumens
- Connect up to 72 feet of luminaires
- IP68/69K rated
- IK07 impact rated
- NSF certified
- UL wet listed
- DLC rated

* Dropship item

LEDs are extremely energy efficient and consume up to 90% less power than incandescent bulbs. Since LEDs use only a fraction of the energy of an incandescent light bulb, there is a dramatic decrease in power costs. Also, money and energy is saved in maintenance and replacement costs due to the long LED lifespan.

HUBBELL LIGHTING

- Suited for security lighting applications as well as commercial and architectural exterior wall and area lighting
- One-piece polycarbonate front with high performance prismatic optics. Secures to housing gasket with twin Hubbell Gard® captive fasteners
- Die-cast aluminum housing allows firm mounting over recessed junction boxes or on flat surfaces for 1/2" surface conduit. Casting dissipates ballast heat for long life
- Specular aluminum reflector with kicker panels drive maximum lamp lumens to the refractor prisms. Vertical medium base lamp with these optics provide six-to-one spacing-to-mounting height ratio for maximum spacing or better uniformity. Vertical lamp increases both lamp life and output.
- Dark bronze powder paint finish standard on housing, front is painted inside the polycarbonate for lasting appearance.

PROBE-START LIGHTING

VS

PULSE-START LIGHTING

Used w/ Traditional Metal Halide Lamps

3 Electrodes in Arc Tube

Ignition: Discharge across electrodes

Lamp performance deteriorates over time due to tube blackening

Used w/ Newer Metal Halide Lamps

High-voltage Ignitor

Ignition: Utilizes ballast to start using high-voltage pulses

Low sputtering for longer lamp life

PULSE-START LAMPS are utilized for newer metal halide lamps and should never be used for traditional lamps that are used with probe-start lights.

PULSE-START TECHNOLOGY provides up to 50% longer lamp life over older metal halide lamps. Lumen maintenance is 33% greater and pulse-start lights are able to start at lower temperatures as low as -40°F. Re-start times are also shorter.

Bill validators are the lifeline of a cash-intensive industry like the car wash industry, from tunnels, to bay boxes, to vending set-ups. Customers love the convenience of a fast, reliable transaction with minimal roadblocks. Being able to use their cash, without worrying about smoothing out every single crease and constantly inserting and reinserting, saves them time and makes it easy for them to spend more at your facility! Bright graphics and well-lit bezels make sure your customers don't have to wonder where to insert their bills.

At the same time, bill validators offer you great security in your cash transactions! Featuring everything from optical stringing protection, to anti-fishing barriers, to cash box lock outs, they allow you to be confident that only legit bills will be accepted, and that crooks won't be able to cheat you out of your business. High-security cash boxes keep your bills safe and sound for you to empty when convenient, with some high-capacity models offering storage for hundreds of bills. The newest models even feature automated diagnostics and wireless communications, to make your life easier!

ACCEPTORS & TIMERS

CURRENCY VALIDATORS

CPI TALOS VALIDATORS VALIDATORS

- Secures banknotes in speeds under 2.5 seconds
- Light Bar recognition system delivers best in class fraud detection
- Firmware updates via USB, increases update speed ten-fold
- Addresses new advances in banknote security
- Encrypted, secure, seamless updates
- 32-bit microprocessor with processing power to support enhanced features
- Enhanced security modes provide additional theft protection, early detection, and alarm triggering
- External error code access
- Replaces 2000 Series Bill Validators

CHANGES FROM 2000 SERIES:

- Light Bar recognition replaces Pellet Sensors
- No more dip switches
- Denomination acceptance programming w/ banknote or coupon
- Increased banknote transport speed
- New bezel designs - VFM & Compact applications
- Single high security mode
- USB supported updates

SIMILARITIES WITH 2000 SERIES:

- All bezel design types are compatible, including cashless
- Retro bill magazine compatibility
- Banknote transport & stacking mechanism performance
- Supports all OEM communication protocols & interface types
- Drop-in replacement for 2000 Series units
- Programming push button found behind the bill magazine

COIN ACCEPTORS

MICROCOIN QL NATIONAL CARWASH SOLUTIONS

- This coin acceptor is a high-speed, multi-coin, field-programmable device. It is designed to operate in any coin-operated application, ranging from gaming through vending, amusement, and car wash.
- For "front entry" applications
- Can be fitted into any top-entry application with ease by virtue of its industry standard size and mounting pin positions
- Validator has a patented discrimination technology which allows it to accept up to 12 different coins or tokens at speeds up to 10 coins per second. The coins travel along a highly engineered coin path which accepts or rejects the coins at speed without compromising the operation of the validator.
- Comprehensive, handheld one-button programming - Up to 5 additional coins may be "quick learned"
- Standard 4 Wire Hook-Up - 24 VAC, common, 2 coin pulse wires
- No Interface Board Required
- Anti-Jamming Design
- Dimensions: 7¾" x 2" x 4"
- On-Board Diagnostics
- Easy Internal Access
- Coin Thickness: 1.0mm to 3.4mm
- Bracket: Long Drop Style
- Computer Programmable
- Electronic & Mechanical Anti-Stringing
- Coin Diameter: 16mm to 34 mm

TIMERS

TIMEMASTER TM5-CU COUNT-UP READOUT BAY TIMER NATIONAL CARWASH SOLUTIONS

- The Timemaster TM5-CU Count-Up Readout Bay Timer is a reliable timer with an easily readable fluorescent display. Perfect for coin-operated self-serve car wash bays, this quality timer is housed in a high-impact plastic case and fits most coin boxes. Timemaster provides precise timing control to assure you and your customers the ultimate in performance and reliability!

SPECIFICATIONS:

- Input Voltage: 24 VAC
- Output Voltage: 24VAC
- Horn Voltage: 12VDC
- External Coin Counter Voltage: 24VAC
- Mounting: Shelf-mounted and secured by a wing nut
- Memory Backup: EEPROM retains all programming in the event of a power failure

DIMENSIONS:

- 3¾" width x 1¾" height x 3" depth

FEATURES & INFO:

- Housed in a water-resistant, high-impact plastic case and is designed to fit most coin boxes
- Last Minute Alert: Programmable from 1 to 59 seconds
- Display: Blue-green vacuum fluorescent display for maximum visibility, Price to start is displayed when the timer is not in use. As coins are accepted, the timer displays the balance due to start the wash. The timer's beeper is sounded with each accepted coin providing the customer with an audible confirmation of operation as well as the visual display.
- Bonus Time: Programmable from 0 seconds to 4 minutes.
- Grace Time: Programmable from 0 to 59 seconds
- Changeover Time: Product changeover for low pressure products frequently takes 10 to 20 seconds. Customer satisfaction can be improved if your timer pauses during product change over. Timemaster offers this feature for up to 4 different products. The pause time is programmable from 1 to 59 seconds.
- Controls: Initial programming is accomplished by mode and set switches located on the back of the Timemaster. The RC-1 is an optional infrared remote controller that permits programming changes, taking counter readings (from the built-in coin counter), testing equipment and bay wash down without coins or test switches. The "TEST" feature is programmable from 1 to 10 minutes of test time. A user programmable security code allows operator access to these features.

Accumulating timers remove the constraints normal timers face. For example, a customer is no longer locked into a preset time limit when washing their vehicle. A normal timer ends the wash when the time is up. However, an accumulating timer warns the customer that their allotted wash time is coming to an end and offers them a window to add more time by inserting more coins.

Most timers will have a display where customers can visually see how much time is remaining enabling them to determine if they will need more time as the time winds down. As long as customers continue inserting coins, they are able to use your bay until their vehicle meets the customers standards of clean. Accumulating timers increase your profit per customer by keeping them in your bays longer. Install accumulating timers in your self-serve bays, vacuums, and dog washes to improve the experience of your customers.

ACCEPTORS & TIMERS

TIMERS

AT300 BY IDX

IDX TIMERS

- The New IDX AT300 series of accumulating timers can be used in vacuums or bays. This series of timer has been designed to replace the Specialties Mfg timer model "Time Machine" timer. It will also replace other manufacturers' timers with the same footprint. IDX has designed this timer to operate over a wide input voltage range to meet the new demands of our industry. This timer has the widest range of operating voltages; 12VDC to 40VDC & 12VAC to 28VAC. The AT300 was designed to be able to integrate into the new application markets that are requiring lower power consumption like solar and/or battery powered systems. To ensure a long life, the main output is a 5 amp AC relay.
- The AT300 standard features include the same footprint as Specialties' "Time Machine" timer, horn output wire to activate the LC525-AC (not included) 24VAC horn for coin in beep and "X-Tra Time" features. If no coins are deposited before the "X-Tra Time" period expires, the AT300 timer resets and the defined number of coins to start must be deposited, which starts a new cycle.
- Operating voltage: 12VDC TO 40VDC, 12VAC to 28VAC
- Exact foot print - size 5.625"L x 3.125"W x 2.0625"H
- 5 Amp AC contact relay output
- 1 to 15 coins to start
- Accepts 256 coin inputs without resetting
- Select coin time from 2 seconds to 8.50 minutes per coin
- Last alert output and coin-in beep
- Optional 3-7 segment display (AT300DB-3S7) easily added using internal connector on main board. Display option connector internal for part # IDXAT300DB-3S7
- Standard IDX wiring configurations and colors

All IDX Timers & Display-Timers have quartz crystal timing accuracy of .05% and are therefore guaranteed to have a maximum error of 0.12 seconds over a typical 4 minute wash cycle.

LED7 DISPLAY TIMER

DIXMOR TIMERS

- 1 - 200 coin start
- Left 2 zeros flash during last minute
- Accumulates up to 99 minutes and 59 seconds
- Additional coins any time during operation
- Adaptable to any coin acceptor
- NVRAM memory - no program loss if power fails
- Your choice of adjustable last minute warning or continuous last minute horn output
- **MUST USE CB0316-SERIAL FOR WASH GEAR CREDIT CARD SYSTEMS**
- 1 - 599 seconds per coin
- Continuous time remaining display
- Easily programmed with 2 push buttons
- Friendly greeting displayed when not in use
- Friendly message displayed when time runs out
- Built in resettable coin counter
- Credit card input with many advanced features

\$262.87 CB0316

LED6 VAC/BAY TIMER

DIXMOR TIMERS

- Standard 24VAC timed output, 4 extra I-O's for combo machines
- Two separate time and price settings. One for timing standard output, one for timing extra outputs.
- Credit card input with advanced features: count up in time or money, display programmable message during count up
- All the standard features of the LED5 and LED7 Timers
- Shelf mount timer - case size 3½"W x 2"T x 3"D
- Super bright red dot matrix LED Display 2½" x ¾"

KLEEN-RITE GUN & BRUSH KITS

LOW PRESSURE FOAM BRUSH BUNDLE

KLEEN-RITE KITS

- An essential kit with all the components needed for your foamy brushes. This kit is very cost-efficient for quick repairs or setting up a brand new foam brush station at your car wash.

KIT INCLUDES:

- (1) 711A40MFV Blue X-tra Heavy Duty Coated Aluminum Foamy Handle
- (1) KR1102-BL Hog Daddy Hogs Hair Brush Blue - 4"
- (1) HA156FBL1443 Blue Foamy Hose - 3/8" MPE, 3/8" MSE, 15'
- (1) 5055 (SWV-1000) Economy Low Pressure Swivel 3/8" M x F

\$98.46 KRK2070

HIGH PRESSURE WEEP GUN/HOSE ASSEMBLY KIT

KLEEN-RITE KITS

- Get the essential parts for weep guns at your facility all in a convenient assembly kit! Includes all the parts you need to get your weep gun started.

KIT INCLUDES:

- (1) GUK600W Weep Gun with Blue Trigger
- (1) HA156WBL1414 Blue Single Wirebraided Hose 3/8" MPE
- (1) 22002 GinSan Blue Nozzle Protector 1/4"
- (1) 2506 Spraying Systems Stainless Steel Spray Nozzle 1/8"
- (1) SW-504A Fluid Controls Brass Ball Bearing Swivel 3/8" F x M
- (1) 291G18MF Blue Rubber Flex Wand 1/4" M x 1/8" F, 18"

\$99.50 KRK2080

HIGH PRESSURE COMFORT WEEP GUN ASSEMBLY KIT

KLEEN-RITE KITS

- Provides smooth operation in high-pressure spraying applications. Ready for use in self-serve bays with the addition of a spray nozzle of your choice (sold separately). Customers can enjoy consistent and comfortable spraying and rinsing. This is a weep style spray gun that keeps water moving through the gun to avoid freezing.

KIT INCLUDES:

- (1) GUK600W High-Pressure Weep Gun
- (1) WTL22003 18" Insulated Lance
- (1) WTS418 18" x 1/4" Stainless Steel Wand
- (1) NPGSBK 1/4" Nozzle Protector
- (1) GUG22046 Black Rubber Gun Guard
- (1) WTL22004 Handle Snap Clip

NOZZLES/SPRAY TIPS

GENERAL PUMP® SPRAY TIPS

GENERAL PUMP

- General Pump High Pressure Spray Tips are built using an innovative design and manufacturing approach that ensures accuracy and provides consistent durability and performance for all types of high pressure cleaning systems.
- View chart below to determine nozzle size

HOW TO DETERMINE NOZZLE SIZE:

- 1 Calculate GPM & PSI to determine nozzle size
(Ex. 1200 PSI at 3.8 GPM = nozzle size of 07)
- 2 After determining nozzle size, choose a degree of spray pattern:
15 = 15° (narrow)
25 = 25° (medium)
40 = 40° (wide)
Available spray patterns : 05, 15, 25, 40, 50, 65, 80
- 3 Degree of spray does not affect nozzle volume

$$\text{GPN} \text{ -- } + \text{ -- } + \text{M} \text{ --}$$

° of nozzle male
spray size fitting size 2 = 1/8
4 = 1/4

ALL TIPS COME WITHOUT VEINS
ALL MEGS ARE HARDENED STAINLESS STEEL
FEMALE NOZZLES AVAILABLE

SOME OF THE MORE POPULAR SIZES INCLUDE:

BAY ACCESSORIES

SPRAY NOZZLES

WASHJET® MEG SPRAY NOZZLES SPRAYING SYSTEMS CO.

- Spray angles of 0° to 65°
- Uniform distribution – an internal guide vane stabilizes liquid turbulence
- Longer wear life and flow control accuracy with specially hardened stainless steel
- Female nozzles and VeeJet® nozzles are available

\$4.54	SN6502M4	1/4"
\$4.35	SN1515M2	1/8" Male NPT

HOW TO DETERMINE NOZZLE SIZE:

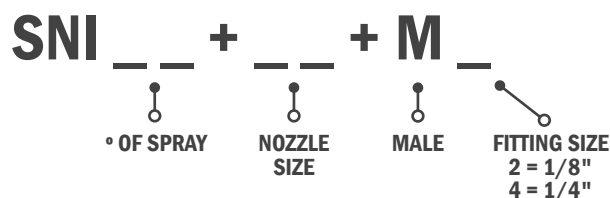

- Calculate GPM & PSI to determine nozzle size (Ex. 1200 PSI at 3.8 GPM = nozzle size of 07 See * below)
- After determining nozzle size, choose a degree of spray pattern:
 - 15 = 15° (narrow)
 - 25 = 25° (medium)
 - 40 = 40° (wide)
- Available spray patterns : 05, 15, 25, 40, 50, 65, 80
- Degree of spray does not affect nozzle volume

THE PERFECT CAR WASH NOZZLE SPRAY NOZZLES

- 32° Available in these sizes only!!

PROMAX® CLIP-EYELET NOZZLES

NOZZLES

- Combines a "snap-on" pipe connection with easy-to-install and replace spray tips for versatility
- Adjustable, swivel-type ball makes fast work of changing the direction of the spray without disturbing the pipe connection. It fits 1" pipes with 9/16" holes
- Spray lignment can be finely tuned to minimize overspray
- Flat spray tips are automatically locked into alignment each and every time
- Nozzle is well suited for spraying phosphates, acids, solvents, and other caustics, making it ideal for cleaning, rinsing, conversion coating, and wetting applications
- **MAX PRESSURE:** 60 PSI • **MAX TEMP.:** 180° F.

FOAMY BRUSH HANDLES

WOBBLEHEAD 3.0 SMART BRUSH HANDLE BRUSH HANDLES

Smart Brush Handle

- Precision engineered piston head and pushrod
- Wire braided reinforced flexible Wobble Zone Boot
- Fits all 1/2" foam brushes
- Saves wear and tear on brushes - hogs hair brushes last 2 to 4 times longer!
- Requires your customers to pay for use of your foam brush, generating more revenue for your wash

- 7/16" hardened stainless steel pushrod (guaranteed not to bend)
- Lightweight schedule 80 PVC handle (durable and will not corrode)
- All brass plumbing
- Compatible with all water and soap conditions - foam activates the stainless steel piston into Wobblezone

\$120.64 FWHH-BK Wobblehead Smart Brush Handle - Black

BEFORE THEY PAY

IT'S USELESS!

AFTER THEY PAY

IT'S USEFUL!

- Provides a better service for your customer
- Increases your revenue by 5-10%
- Decreases your level of frustration

BENEFITS

- Easy to Install - Remove and replace
- No additional equipment to purchase
- Requires the SS customer to pay for the use of your foam brush
- Increases the life of the Hogs hair brush by 2-4x longer
- Fast ROI in as little as 2 months
- Silent Attendant with a passive and polite approach to have your customer pay

REPLACEMENT PARTS SMART BRUSH HANDLE

\$57.99	FHWH-BOOT	Aluminum Handle Boot (sold before 2017) 1/2" x 1/2"
\$57.99	FHWH-BOOT-3.0	Handle Boot (sold after 2017) 3/4" x 1/2"
\$6.22	FHWH-SPRING	Replacement Spring (all since 2010)
\$14.70	FHWH-GRIP-3.0	Shrink Wrap Tubing (sold after 2017)

All materials are now compatible with all water conditions and soap formulas!

HOGS HAIR FOAMY BRUSHES

BUBBLE BRUSH

INKFISH

- Designed for self-serve foaming brush applications. Its curved head reaches corners and other hard to reach areas. Made with premium hog's hair that won't scratch paint.
- Black Color Block/ 3.75" Length
- Over 200 Holes filled with Premium Hogs Hair
- Adapter included so you can use as a prep brush

\$89.99 BR1020-BK Black

ROUND HOGS HAIR FOAMY BRUSH WITH REPLACEABLE HEAD

INKFISH

- This round 4" foamy brush boasts genuine hog hair bristles with naturally feathered ends
- Soft rubber bumper gasket, a brass NPT thread, and a recessed hex screw on the top
- Modular design that allows for replacement brush cartridges
- 6" Diameter head with 4" bristles

REMOVING & REPLACING THE CARTRIDGE:

- Use an Allen wrench to gently turn the hex screw one or two rotations (do not remove)
- Grab the bristles with one hand and the head with the other hand and spin the cartridge to the left (left if you're looking from the bottom of the brush)
- Remove the cartridge and replace with new cartridge. Spin into place
- Once cartridge is even around the edges and snugly in place, gently turn the hex screw. Do not over-tighten

\$51.99 BR1016-BK Black
\$51.99 BR1016-BL Blue
\$41.99 BR1016-RC Replacement Cartridge

REPLACEABLE HEAD!

HOG DADDY 4" HOGS HAIR FOAMY BRUSH

KLEEN-RITE

- High-quality Hog Daddy hogs' hair is durable, yet soft on car surfaces.
- Excellent water-holding ability while retaining stiffness.
- One-piece construction. Meaning, no worrying about accidental insert separation causing a poor wash.
- With no nylon or synthetic bristles, HogDaddy is ideal for clear coats, gel coats, glass, plexiglass, and chrome!
- Low shedding during use.

FEATURED PRODUCT

KLEEN-RITE COINBOXES

Kleen-Rite coin boxes deliver reliable money acceptance and function control, perfect for self-serve car washes of all sizes. Thanks to a variety of size and option choices, Kleen-Rite coin boxes are suitable for use at new car wash builds or when upgrading older bays!

Each coin box features industry components including Dixmor digital timers, IDX coin acceptors, and Mars bill acceptors. Kleen-Rite's boxes accept coins and tokens as well as \$1, \$5, \$10 and \$20 bills. The boxes are operated by a virtually maintenance-free rotary switch, allowing for up to 10 functions per bay!

COIN BOX STYLE

SHORT HULL

Kleen-Rite short hull coin boxes have a compact footprint and are designed for use with a separate safe. While paper money is held in the unit's bill acceptor, all coins drop through a tube into your hidden safe for extra security.

LONG HULL

Long hull boxes have a separate money drawer underneath the control unit. Coins drop down a chute into this vault, where they remain until emptied. Paper money continues to be collected and held within the unit's bill acceptor.

**SEE PAGE 400 FOR SAFE OPTIONS OR
PAGE 468 FOR VAC IT UP SYSTEMS!**

COIN BOX SECURITY

DELUXE

All-purpose choice suitable for many car wash businesses, especially those that have an attendant or are in low-crime areas. Each box has a durable, 11 gauge 304 stainless steel body and built-in cam locks to deter theft.

HIGH SECURITY

High security coin boxes feature thicker, 7 gauge stainless steel construction. Each box also includes high security plug locks and extra security latches! Kleen-Rite high security coin boxes are a great choice for unattended car washes or high crime areas. While no single product can completely guarantee against theft, a high security coin box is a great deterrent! The added safety features make it harder to access funds, discouraging opportunistic thieves.

Plus, all Kleen-Rite coin boxes have slots to accommodate extra security bars. These bars fit over vulnerable areas such as cam locks and money drawers, then padlock into place for added protection.

SECURITY CONSIDERATIONS

- Is an attendant present at your wash during all business hours?
- Is your business located in a high crime area?
- Do you offer 24 hour a day services?
- Are there security cameras at your wash?

FEATURED PRODUCT

CUSTOM OPTIONS

Kleen-Rite coin boxes may be further upgraded and customized after purchase. Many operators enjoy adding credit card acceptance through the CryptoPay system. This plug-and-play technology integrates directly with Kleen-Rite coin boxes to provide credit card acceptance at an affordable cost. Standalone coin box parts, such as drawers, locks, and bill acceptors, are also available for a completely custom build. Give us a call at 1-800-233-3873 to customize your ideal coin box today!

ADDITIONAL OPTIONS

- Extra function decal sets
- Addition of a push button
- Credit card acceptors
- Different type of coin acceptor

DELUXE

HIGH SECURITY

SHORT HULL DESIGN FOR USE WITH SEPARATE SAFE OR VAC-IT-UP SYSTEM.

DELUXE COIN BOXES

KLEEN-RITE COIN BOXES

- Our deluxe coin boxes make a great upgrade to older car washes. They are also a perfect fit for any new self-serve construction. The boxes come standard with a 10 position rotary selection switch and a Dixmor digital timer with last coin alert feature. The Mars Bill acceptor allows for the acceptance of bills ranging from \$1 to \$20. The MA850 Coin acceptor will take any type of coin, from tokens, quarters and dollar coins.
- **FEATURES:**
 - Dixmor digital timer
 - Last coin alert
 - 10 position "QC" rotary switch
 - IDX MA850 coin acceptor
 - Mars bill acceptor
 - 11 gauge 304 stainless steel plate
- **OTHER OPTIONS:**
 - Choice of coin acceptor
 - Credit card acceptance
 - Different bill acceptor
 - Piezo or mechanical push button

ZIERDEN COMPANY

• The Zierden Boom is ideal for heavy commercial use in coin-operated car washes, service bays, and in car and truck fleet cleaning departments. The boom permits 360° of free and easy rotation around a vehicle in an 11 foot diameter. Heavy gauge steel mounting base, non-corrosive metal internal parts and double ram ball bearings for effortless boom swing. Boom is 5 feet. Extensions are also available.

FLUTTER ADVERTISING STANDS OUT FROM THE CLUTTERED BUSY STREETS.

Draw attention to your car wash business with these eye-catching flags. These banner flags are for outdoor use and stand up well to environmental elements. Flag lettering is printed on one side with the reverse image showing through the other side for opposing traffic. Aluminum poles make it easy to transport and carry, while keeping the price more affordable.

PENNANTS

OUTDOOR HEAVY DUTY PENNANT STRINGS

BANNERS

- 100' long string of pennants
- Each pennant flag measures 12" x 18"
- Pennant flags are made of 8 mil commercial grade plastic
- 48 pennant flags per string, double stitched 3/4" stringer ties easily and securely fastens to any pole, eye hook, etc
- The perfect way to grab potential customers' attention when they're passing by. Highlight your car wash, gas station, car dealership, or store. Perfect for grand openings, holidays, and other special events!
- Can withstand the demands of outdoor use, but lifespan depends heavily on weather conditions. Under constant use, expect these to last 1-4 months before beginning to show some wear.

HIGH BODY UNDERCARRIAGE CLEANER

MOSMATIC

- The Mosmatic Undercarriage Cleaner makes it easy to clean the underside of vehicles. It can be used to clean cars, trucks and more. Agricultural and construction machinery can be cleaned on site without the use of a car lift. The Undercarriage Cleaner is time saving and cost effective. Can be used with hot or cold water. Rated for up to 4000 PSI, 250°F.

STABILIZER:

- When a stabilizer nozzle is installed on the Mosmatic Undercarriage Cleaner it has even more power. It will also increase the units reach. The version with the stabilizer nozzle also has a higher protective ring.
- The TUW is used with cold or hot pressure pumps
- Possible throughput medium pH 3 - 12
- 9" Clearance
- 3/8" NPTF
- Stainless steel wheels

CALL	UCM80613	2 Arms - 21"
	UCM80614	3 Arms - 30"

HURRICANE PRO ADJUSTABLE UNDERCARRIAGE CLEANER

MOSMATIC

- With the Hurricane Pro model you are not only able to clean underneath vehicles, you also have the ability to pivot the spray deck which allows for multiple cleaning angles. Deck adjustment from 0° to maximum 90°.
- The adjustable angles allow for "all-around" cleaning on constructions machines, fleet vehicles, boats or agricultural machines using just one model undercarriage cleaner.
- Three large swivel casters make your cleaning job easier with full range of motion, allowing you to maneuver even on rough surfaces. Standard long range stabilizer nozzles on the Mosmatic Hurricane Pro increases the distance and impact of your cleaning project. Use this cleaning tool from Mosmatic with either hot or cold high-pressure pumps.
- 6" Swivel castor
- Pressure up to 4000 PSI
- Temperature up to 250°F
- Adjustable spray deck
- Complete stainless steel (INOX)

SELF SERVE EQUIPMENT

UNDERBODY CLEANING SYSTEMS

SELF SERVE UNDERBODY CLEANING SYSTEM HYDRO SPRAY WASH SYSTEMS, INC.

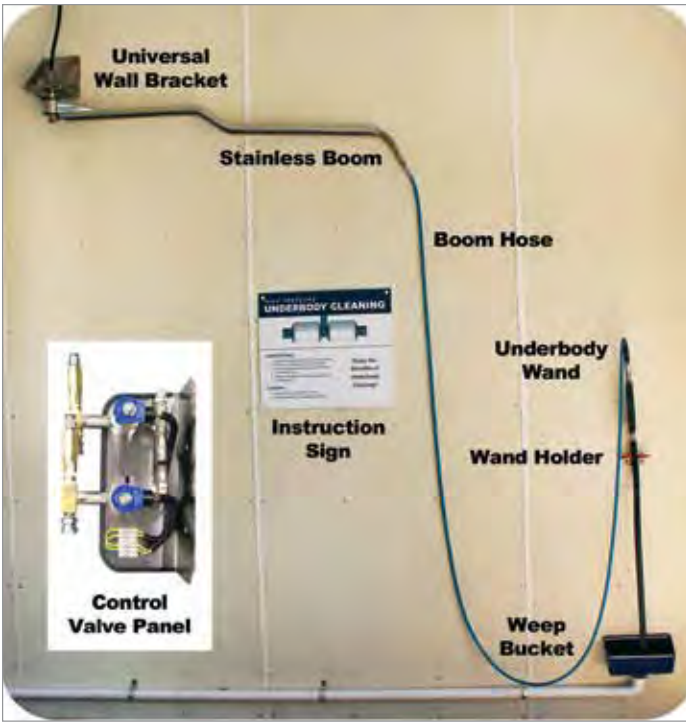

- **SIMPLE SYSTEM DESIGNED TO OFFER ADDITIONAL SERVICE**

WHAT IS THE SELF-SERVE UNDERBODY SYSTEM?

- The Self-Serve Underbody System gives vehicle owners the option to clean the undercarriage of their vehicle—a highly valued option during winter months when road salt can cause costly, corrosive damage to many vehicles.
- The underbody tool has a simple design allowing for safe and easy operation. With the turn of a dial and the squeeze of a trigger, three nozzles release a high-pressure spray that will remove salt, dirt, grime and debris.
- This system is a value adding service that installs directly into any existing serve-serve bay. Creating an entirely new cleaning option, this system increases the amount of time customers spend in the bay, produces additional revenue and increases customer loyalty. This cleaning option appeals highly to car wash operators in colder climates where vehicle owners are at an increased risk for corrosive damage as a result of road salt.

HOW DOES THE SYSTEM WORK?

- Utilizing one high-pressure stream—coming from any existing self-serve equipment—this system powers two high pressure cleaning tools. By installing this system's unique control valve panel operators maintain the existing high pressure flow to their self-serve bay while also creating a second high pressure option that, powers the underbody cleaning tool.
- Activating the underbody cleaning tool can be achieved by adding an underbody option to any existing meter box. If this is not the case, adding a push button activation may be required to activate the underbody system.
- Within the bay, a wall-mounted boom, hose, wall bracket and weep bucket are installed to house the underbody cleaning tool. To prevent this exposed fluid line from freezing, a check valve assembly is used to connect any existing water weep system to the underbody system. The weep bucket is then needed to catch and drain any resulting weep water.

SIMONIZ® HOT WAX & SHINE SELF-SERVE PACKAGES

3" H X 22" L DELUXE MENU STRIP SIGNS

\$4.73 EACH **CMPST22**

HOT WAX & SHINE SIMONIZ

- Gone are the days of painstaking waxing by hand! Give your busy customers a waxed and shiny car in no time at all by incorporating Simoniz Hot Wax and Shine into your self-serve car wash bays. Hot Wax and Shine has a special formula that uses real carnauba wax, liquified and distributed across a clean car. When buffed or rinsed away, it leaves the vehicle ultra-shiny and protected!
- In self-serve bays, it is easily applied by hand through a dedicated foam hose and gun
- Simoniz® Hot Wax and Shine is a major profit driver at car washes across the country. By offering this specialized product, operators are able to increase the price of their top wash packages - or even create a new top package at a premium!
- Use 2 - 4 oz per car.

SELF SERVE EQUIPMENT

FREEZE PREVENTION

EASYHEAT[®]

EASY HEAT SELF REGULATING PIPE HEAT SYSTEM

FREEZE PREVENTION

HOW IT WORKS:

- A special self-regulating core is at the center of the Freeze Free cable. This core is conductive and adjusts according to the surrounding temperatures. When it is cold, the cable's core has many conductive paths that generate enough heat to keep the water flowing in the pipe.
- Grounded 30" cord-set requires less heating cable
- Power indicator light
- Built-in, fast-reaction fuse
- Easy to install

HOW TO CALCULATE THE EXACT HEATER LENGTH YOU NEED:

Multiply the cable length required per foot of pipe by the length of your pipe. Add one extra foot for each valve located in your line. Maximum cable length is 75 feet.

$$\text{Cable length required per foot of pipe} \times \text{pipe length} + \text{one foot for each valve or spigot} = \text{total cable length}$$

EASY HEAT CONNECTION KIT

FREEZE PREVENTION

- Includes plug & end seal

DIXMOR

FREEZE PREVENTION

DIXMOR WEEP MIZER FREEZE PREVENTION

- The DX1000 is a microprocessor controlled system which will automatically cycle your existing normally open solenoid valve (normally closed optional), depending on outside temperature. When it starts it only runs water for a few seconds and as the temperature drops it automatically stays on longer and longer until it finally stays on 100% of the time. This is all controlled by the settings you program into the unit, or you may use the built-in program. You may wish to install sensors in two locations and the Weep Mizer will automatically operate from the coldest one.
- Cycles your weep system on and off for maximum dollar savings
- Continuous display of outside temperature for your convenience
- Use of multiple sensors possible; weep system controlled with coldest reading
- Battery backup to eliminate reprogramming in case of power failure
- Built in "FAIL SAFE" program for peace of mind operation
- Easily programmable with two push buttons
- Maintains memory of what time temperature was below turn on point, time water actually ran, in hours, high/low temperature since last reset.

THE WINTERTIME CAN BE THE MOST PROFITABLE TIME OF YEAR FOR CAR WASH OPERATORS. KEEP AN EYE OUT FOR THE THINGS THAT CAN CAUSE YOU HEADACHES AND DOWNTIME IN THE BUSY COLDER MONTHS.

TIPS TO AVOID A COSTLY FREEZE AT YOUR WASH

- Make sure your weep system is working properly.
- Check the controls, be it a Weep Mizer or thermostat, to make sure it's reading the temperature correctly and sending power to the weep solenoid.
- Check the normally open solenoid to make sure it functions properly, and check to make sure your guns are allowing adequate weep water through.
- If you have floor heat, ensure your zones are heating adequately. Check the pressure of your floor heat system and add anti-freeze if needed.

COIN COLLECTION SYSTEMS & REPLACEMENT PARTS

CENTRALIZED COIN COLLECTION SYSTEMS

VAC-IT-UP

• Self-serve car wash operators can now take advantage of this innovative coin collection system. It's quick and easy to unload. It features a new tilt-out coin storage canister designed to pour the coins right from the canister into your money bag. The legs are secured to a concrete floor and the back is secured to the wall. PVC piping goes from the VAC-IT-UP to your bays, or vacuum islands. The coins are vacuumed up through the piping to the canister, eliminating theft at the meters. VAC-IT-UP is only activated when quarters are inserted in the meters (first coin activation).

ELECTRICAL REQUIREMENTS:

- Provide one 120 Volt AC 30 amp circuit to control panel for every two Vac-It-Up motors

SPECIFICATIONS:

- Vault Chamber: Heavy gauge steel
- Vault Door: Stainless steel
- Lock: Medeco
- Coin Canister: Vault equipped with hinged coin storage canisters which hold \$1,500 worth of quarters each

OPTIONAL ITEMS:

1. Timer control panel
2. Access Box
3. Roof top motor housing

SECURITY ADVANTAGES

- Centralize Coin Collection
- Reduces attempted vandalism & theft
- Privately housed, Labor efficient

FEATURED PRODUCT

COST EFFECTIVE, SECURE, AND EASY TO INSTALL & CONFIGURE

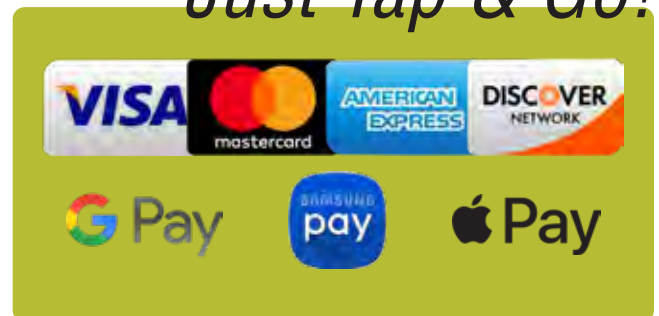

The CryptoPay Payment System is a wireless system that consists of a CryptoPay Coordinator, an Online Program called MyCryptoPay, and one or more CryptoPay payment devices.

Contactless payments are rapidly becoming the preferred method of payment. To meet this contactless payment demand CryptoPay has developed, and added to our product family, CryptoTap Plus and CryptoTap Standard. Both products support contactless credit and debit cards, Apple Pay, Samsung Pay, Google Pay and others.

Just Tap & Go!

ACCEPTING CREDIT CARDS AT A SELF-SERVE OR AUTOMATIC CAR WASH IS A GROWING TREND...

The benefits seem to be obvious; credit card customers will add new revenue, credit card customers spend more money, the younger generation doesn't carry cash, and so forth. So why aren't car wash owners getting on the bandwagon by accepting credit cards?

NEW PRODUCTS

Features and Benefits:

CryptoTap Plus (Contactless Payment Device)

- Stand-alone Tap Unit with smaller footprint, allows mounting in most coin boxes
- Outputs connect directly to Dixmor Timer
- All transactions are EMV
- Built in QR reader
- Brilliant color LED's surround tap unit
- CryptoTap Plus Works with contactless credit and debit cards
- CryptoTap Plus works with mobile payments including Samsung Pay, Apple Pay, Google Pay, and others
- No wireless fees / No minimum quantities

CryptoTap Standard (Contactless Payment Device)

- Easy two wire installation
- Pairs with CryptoPay swiper
- Fast, safe, secure payment
- CryptoTap Standard works with contactless credit and debit cards
- CryptoTap Standard works with mobile payments including Samsung Pay, Apple Pay, Google Pay, and others
- No wireless fees / No minimum quantities

CHECK OUT OUR YOUTUBE VIDEO OF CRYPTOTAP PLUS!

CREDIT CARD PAYMENT SYSTEMS

U.S. USE ONLY

CRYPTOPAY WIRELESS CREDIT CARD SYSTEM

- The CryptoPay Wireless Credit Card System reduces fees and secures your transactions. The system is composed of three main building blocks: The MyCryptoPay Online Program, CryptoPay Coordinator Unit, and one or more CryptoPay Swipers.
- The MyCryptoPay Online Program allows you to view recent purchases, configure your CryptoPay Swipers, and ensure your system is up and running remotely from your computer or mobile device.
- The CryptoPay Coordinator unit wirelessly and securely transmits to each of the CryptoPay Swipers. The Coordinator connects to the internet and authorizes and finalizes transactions, and is used to remotely re-configure the swipers. One coordinator is needed per wash location and supports many Swipers.
- The CryptoPay Wireless Swiper encrypts credit card data at the moment of credit card swipe and securely transmits the encrypted data. Encrypted data can only be decrypted by the Magensa Protected Payment Gateway. The Magensa Protected Payment Gateway is PCI-DSS certified and listed by MasterCard and Visa as a compliant service provider.
- The CryptoPay Wireless Credit Card System reduces fees and secures transactions.
- Engineered to reduce fees with CryptoPay Consolidation.
- Simple, which makes it affordable and easy to install - rugged enough to survive in a carwash environment.

CRYPTOTAP CONTACTLESS PAYMENT UNIT

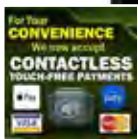

- CryptoTap is a new contactless payment device from the makers of CryptoPay. With a simple wire hookup and three drilled installation holes, your car wash is ready to accept virtually any contactless payment types using phones and cards. This system must be used with the CryptoPay system, which includes a swiper and a coordinator. You can use it with your existing system or purchase new Cryptopay equipment. Customers will love the speed, convenience, and safety of contactless payment at your car wash business!

SPECIFICATIONS AND FEATURES:

- Dimensions: approximately 4" x 4"
- 24V power requirement
- Mount beside or very close to CryptoPay swiper
- Installs by connecting two 24V power wires and drilling three installation holes
- Once powered, it will pair with the CryptoPay network - true "plug-and-play"
- Fast, safe, secure payment with absolutely no contact
- Accepts Apply Pay, Samsung Pay, and almost all other contactless phone and card payment types
- PCI Compliant

CREDIT CARD SYSTEMS

NAYAX VPOS-TOUCH ALL IN ONE GRAPHICAL PULSE CASHLESS PAYMENT SYSTEM FOR CAR WASH AND AIR AND VAC

NAYAX

- NAYAX offers exclusive and important revenue generating and costs savings features coming from the international engineering leader of cashless technology. NAYAX engineers and manufacturers the cashless devices and reporting software supporting systems on nearly 500,000 unattended machines in 60+ countries and works with 45 financial institutions worldwide, accepting 26 currencies. Why does this matter to customers? Because it allows NAYAX to exclusively offer many important money-generating and efficiency features at no additional cost. VPOS TOUCH ALL-IN-ONE GRAPHICAL DISPLAY DEVICE - Best in Class .

KEY EXCLUSIVE HIGHLIGHTS AND FEATURES:

- NEW ADDITION – Instant receipts
- Totally flexible price setting options built in: Count up | incremental | Count down | 6 prices
- EMV both chip and tap enabled *****(NO CHARGEBACKS)**** No swipe - EMV Both Chip and Tap Enabled and Fully 100% PCI Compliant – WITH NAYAX DEVICES WE ACCEPT THE MOST SECURE TRANSACTIONS WITH EMV CONTACT AND CONTACTLESS IN THE US. Nayax has been chip and wave card for 4 years in the US.
- Easy and inexpensive retro-fit on all older pay stations (Unitech, Hamilton, Exacta, etc.), meter boxes, vacuums, and air machines.
- Vandalism, water-resistant and has built-in graphical timer display
- Instant power up and power down alerts through the hardware allowing our customers to instantly know if their machine goes down or comes back up to prevent loss of sales.
- Nayax builds customer engagement into their hardware:
 - Nayax readers speak to the customer and guides them through the transaction by voice and says thank you when completed.
 - Monyx Rewards and Loyalty Wallet App – “Shake Me” feature will give your customers free money after every purchase and also gives a 10% bonus (a free \$2.50 for every \$25 the customer will spend)
- Easy plug-and-play installation – Works independently. Uses Verizon or AT&T Cellular for instant connectivity and if poor Cellular in a location, we have built in a LAN/Wifi Port for your convenience.
- Fixed Rate Low-Cost Processing – Easy flat fee statements - No dealing with complex Interchange Plus and the variable fees added on standard processing statements that force you to pull out a calculator every month to calculate your net fee each month.
- MOMA - Phone App to see sales from the ease and comfort of your cell phone.
- Integrated with the best Car Wash Specific Reward and Loyalty Apps in the market - Beacon Mobile and others coming soon
- Fleet Card System – Create your Own Gift Cards. Add Money as you desire. Autofill, carry over unused balances.
- Advanced hi-resolution graphical display allows you to brand the reader with your own graphics and messaging.
- Instant Receipts and Instant Refunds To Your Customers
- 99.9% uptime guaranteed uptime servers and multi language – switch between

NAYAX

- NAYAX offers exclusive and important revenue generating and costs savings features coming from the international engineering leader of cashless technology. NAYAX engineers and manufacturers the cashless devices and reporting software supporting systems on nearly 500,000 unattended machines in 60+ countries and works with 45 financial institutions worldwide, accepting 26 currencies. Why does this matter to customers? Because it allows NAYAX to exclusively offer many important money-generating and efficiency features at no additional cost. VPOS TOUCH ALL-IN-ONE GRAPHICAL DISPLAY DEVICE - Best in Class .

KEY EXCLUSIVE HIGHLIGHTS AND FEATURES:

- NEW ADDITION – Instant receipts
- (NO CHARGEBACKS)** No swipe - EMV Both Chip and Tap Enabled and Fully 100% PCI Compliant – WITH NAYAX DEVICES WE ACCEPT THE MOST SECURE TRANSACTIONS WITH EMV CONTACT AND CONTACTLESS IN THE US. Nayax has been chip and wave card for 4 years in the US.
- Vandalism and water-resistant
- Built-in graphical timer display
- Instant power up and power down alerts through the hardware allowing our customers to instantly know if their machine goes down or comes back up to prevent loss of sales.
- Nayax builds customer engagement into their hardware:
 - Nayax readers speak to the customer and guides them through the transaction by voice and says thank you when completed.
 - Monyx Rewards and Loyalty Wallet App – “Shake Me” feature will give your customers free money after every purchase and also gives a 10% bonus (a free \$2.50 for every \$25 the customer will spend)
- Easy Plug-and-Play Installation – Works independently. Uses Verizon or AT&T Cellular for instant connectivity and if poor cellular in a location, we have built in a LAN/Wifi Port for your convenience.
- MOMA - Phone app to see sales and adjust inventory from the ease and comfort of your cell phone
- Advanced hi-resolution graphical display allows you to brand the reader with your own graphics and messaging.
- Instant receipts and refunds to your customers
- 99.9% uptime guaranteed uptime servers and multi language – switch between
- NayaxVend - Full Inventory System with MDB Live Transaction in addition to Dex
- Accepts transactions in Pre-selection Mode to prevent customer angst and confusion so that customers do not get charged a constant pre-authorization higher amount than they paid.

CAR WASH WALL & CEILING PANELS

EPI/EXTRUTECH

CUSTOMIZED TO FIT YOUR CAR WASH NEEDS!

- Standard size - 12", 16", and 24" panel widths - cut to the inch from 3'-20' lengths

FEATURES:

- Waterproof and rot-proof - for use on interior walls and ceilings. Maintenance-free, easy to clean, durable.
- Brightens the interior for a fresh clean appearance that quickly sheds water
- Tongue and groove design, installs quickly and easily with no exposed fasteners
- Meets Class A for smoke and flame spread, ASTM E84-09 and CAN/ULC S102.2-3, ICC ESR-4583
- 20-Year Warranty on wall and ceiling liner panels
- Rustproof PVC doors also available
- Trims available at 8', 10', 12', 14' & 16' lengths

MADE IN THE USA

CLEARVIEW DOORS BY GALLOP BRUSH CO.

CLEARVIEW BAY DOORS GALLOP BRUSH CO.

- A high-quality garage and bay door option for car washes, oil change shops, detail shops, and garages. Gallop believes in keeping equipment design simple, but effective, with high quality materials that offer a long lifespan.
- Easy to install and maintain with a durable stainless steel frame and heavy duty Polar Vinyl with a -20 degree cold crack rating.
- Several color options are available and clear sections can be added so you can see in or out of the bay without lifting the door.

SPECIFICATIONS:

- 18" per second 30:1 gear ratio
- 3 Phase 220V motor powered by 110v controller
- 1/2 Horse continuous duty brake motor/inbay system

FEATURES:

- All Corrosion Resistant Stainless Steel
- VFD Control
- Unlimited Duty Cycle
- Tunnel System
- Colors Available
- Polar Vinyl - 20 Degrees Cold Crack Rating
- Wind Load Rating of 70 mph
- External Limit Switch
- 1 Set of Safey Eyes Included
- Corrosion Resistant Components
- 24V Circuitry
- NEMA 4 Rated Enclosure
- ETL Listed
- Door Can Function as a Standalone Unit
- Car Wash Controller Ready
- Controller Has 3 Function Modes - Open, Close & Automatic
- Integrated Delay Timers
- Additional Photo Eyes Available
- Manual Switch Operation Available
- Break Away Design

BENEFITS:

- These doors protect customers and employees from wind, cold temperatures, and inclement weather, keeping them comfortable and safe. If a customer is washing their car in a self-serve bay, they'll stay longer if they're sheltered from unpleasant conditions. For oil change and garage staff, improved conditions mean faster work, fewer breaks, and content employees. Plus, because these doors lock in heat while keeping wind out, you lower your energy consumption costs.
- For car washes, doors block chemicals from spraying wildly and exiting the bay. They prevent wind from pushing water runoff astray, ensuring it flows to the correct drain. In addition, doors that open and close between wash cycles help clearly define the appropriate times for vehicles to enter and exit the bay.

AIR COMPRESSORS

CHAMPION AIR COMPRESSORS EQUIPMENT

CHAMPION

• Loaded with rugged features, splash-lubricated RV Series reciprocating compressors deliver long-lasting performance and tremendous value. Special-alloy steel reed valves provide a self-cleaning design that maintains peak performance throughout the life of the compressor. Cast iron cylinders and heads offer rugged, industrial-rated dependability. Tank mounted units are available in 5 and 7.5 horsepower models, mounted on horizontal or vertical ASME coded air receivers for maximum installation versatility. Larger 10 & 15HP sizes are available upon request.

STANDARD EQUIPMENT:

- Magnetic starters - except 5HP 3600 RPM motor
- Enclosed belt guard
- NEMA-Rated electric motors
- ASME coded receivers
- 0-300 PSIG air-pressure gauge on tank
- Preset pressure switch

AVAILABLE OPTIONS

- Vibration isolators
- Low oil level monitor
- Air cooled aftercoolers

COMPRESSOR PUMP SPECIFICATIONS

- Splash lubricated
- Two-stage design
- Alloy steel reed valves
- Oil level site glass
- Industrial grade intake filter and silencer
- 100% cast iron compressor pump
- Deep finned intercooler
- Factory filled with ChampLub AC Lubricant

WATER SOFTENERS

CALL FOR PRICING

SHOWN WITH BRINE TANKS

COMMERCIAL WATER SOFTENER SYSTEM

WATER SOFTENERS

REMOVES CALCIUM AND MAGNESIUM SOLIDS.

FEATURES:

- Continuous soft water with alternating twin tank design
- Regeneration based on water use to minimize salt usage and cost associated with operation
- Soft water regeneration for added performance
- Non-corroding polyglass resin tank and high-density polyethylene brine tank
- Dual guard brine operators for prevention of brine tank overflow and accurate brine selection
- Adjustable regeneration cycles for efficient water usage
- High-capacity, long-life cation exchange resin
- Pre-plumbed manifolds reduce field installation expense
- 25 to 125 PSI
 - 100°F maximum temperature
- 24V, 110V, or 220v-50Hz electrical
 - 5-cycle regeneration (backwash, brine draw, slow rinse, fast rinse, & service)

PURE QUALITY RO SYSTEM

PURE QUALITY REVERSE OSMOSIS SYSTEM

REVERSE OSMOSIS SYSTEMS

THE PURE QUALITY REVERSE OSMOSIS SYSTEM FROM GINSAN

FEATURES:

- 600 - 8800 GPD system configurations
- Stainless steel pressure vessels
- Stainless steel multi-stage centrifugal pump
- Permeate flow meter
- Concentrate flow meter
- Digital TDS meter
- Low pressure safety cut off
- Liquid filled pressure gauges
- 20" pre filter
- Simple installation
- High flow, low energy membranes
- Low energy consumption
- Compact system design
- Individually wet-tested and preserved
- Made in U.S.A.

STANDARD

- **MEMBRANE:** 2½" x 40" / 4" x 40" HF4 membrane elements. Focuses on high permeate flow / low energy
- **MEMBRANE HOUSING:** 2½" x 40" / 4" x 40" stainless steel pressure vessels
- **PUMP AND MOTOR:** 1½ or 2 HP Berkley Centrifugal pump and motor (Procon® on 600 & 1200 GPD models)
Units are configured for 208/230 VAC single phase
- **PRESSURE GAUGES:** Shock and UV resistant liquid filled gauges used for superior quality, accuracy and durability
- **INLET SOLENOID VALVE:** Automatically shuts off feed water to the system

WATER SOFTENERS

PRO POWER WATER SOFTENERS

WATER SOFTENERS

- High-quality water is an essential component to any successful carwash operation. Soft water will improve the efficiency and life of your RO equipment, while at the same time reducing overall chemical costs by 10% or more! If you've ever faced challenges with scaling or plugged nozzles due to hardness/scale, then a PRO power Water Softener is just the solution you need!

DFS 1" SERIES TWIN ALTERNATING SOFTENERS

PRO POWER WATER SOFTENERS

- The DFS Series is the most cost-effective way to ensure 24/7 soft water for your car wash. This twin system features a single control valve, ensuring one tank is always on line while the other is regenerating.
- Noryl, electronic, metered control valve includes by-pass assembly with integrated inlet & outlet valves and MPT (PVC) fittings

PART #	RESIN CAPACITY PER TANK/TOTAL	FLOW RATE (CONTINUOUS)
DCS2100	30,000/60,000	13 GPM
DCS2110	60,000/120,000	16 GPM

DRS 1" SERIES

PRO POWER WATER SOFTENERS

- Simple 3-step programming
- High-efficiency metered system with demand initiated regeneration and override function.
- Large LED display
- Includes pre-installed bypass valve
- WQA tested - complies with ANSI/NSF44 performance & 372 lead free compliance.
- **SUPER LOW COST** - Simple set-up & operation!

PART #	RESIN CAPACITY PER TANK/TOTAL	FLOW RATE (CONTINUOUS)
DCS1110	30,000	15 GPM

IDEAL FOR LOWER VOLUME APPLICATIONS

DCS 1½" & 2" SERIES

PRO POWER WATER SOFTENERS

- Sized for softening all water in a car wash!
- Up to 99 GPM continuous & 130 GPM peak flow rates
- Built tough - Epoxy coated lead-free brass valve body & stainless steel flow meter
- Fully programmable regeneration settings
- **OPTIONAL PRE-PLUMBED HEADER AVAILABLE. SEE BELOW**

REJECT CAPTURE SYSTEM

PRO POWER

- Stop throwing your money down the drain! With a Reject Capture System from PRO Power, you can save the reject water from your RO system and deliver it to another carwash application. Depending on your water costs, you can see a complete return on investment in as little as 12-18 months!
- Low limit safety float system (with ¾" brass solenoid & bulkhead assembly)
- 230V, 1-HP pump & pressure tank, control box, power cord L6-20 plug
- Pressure switch (25/45 setting) & pressure gauge
- 100' of ¾" ID reinforced hose

PART #	GPM	PUMP	PRESS. TANK
DCS6500	20	¾ HP	6 Gallon
DCS6510	40	1.0 HP	19 Gallon
DCS6520	60	1½ HP	32 Gallon
DCS6530	90	2.0 HP	50 Gallon

VFD BOOSTER SYSTEMS

PRO POWER

- Do you have issues with inconsistent water pressure and need a complete solution that you can rely on to get the job done? This system is designed to maintain constant pressures for a variety of flow demands. The simplified controls offer fully adjustable pressure from 0-100 PSI to meet most car wash industry needs.
- Pre-plumbed and pre-wired setup so you can focus on your customer
- Small footprint - 26" x 30" all-in-one frame
- Turn-key system, including pressure tank, pressure transducer, relief valve, pressure gauge & shutoff switch

PART #	FLOW	PUMP
DCS7000	70 GPM @ 40 PSI	3 HP
DCS7010	105 GPM @ 40 PSI	5 HP

RO SYSTEMS

PRO POWER

- If you want to amaze your customers with the cleanest vehicle they've ever seen, then a PRO Power Reverse Osmosis System is what you need. Increase profitability by reducing or even eliminating the need for hand drying, without compromising the end result.
- Delivering enough spot-free water for even your busiest days, this turnkey system is built with high-quality components so that you can depend on its performance with minimal maintenance. Let our water treatment experts assess your needs and custom fit the option that is right for you!
- Panel Mounted Pressure Gauges, Flow Meters & RO Controller
- PVC Membrane Housings, and Thin Film Composite
- 5-Micron Pre-Filter (with 1 additional replacement filter)
- Auto Membrane Flush and Adjustable Concentrate Valve
- Corrosion-Resistant, Powder-Coated Steel Frame

MEMBRANES & RO SUPPLIES

DOW FILMTEC RO MEMBRANES

- THIN-FILM Composite Membranes for replacement in a wide variety of Reverse Osmosis Systems. FILMTEC Brand. These membranes are designed to be used with tap water. Typical salt rejection is between 96% – 99%. Maximum operation temperature is 113°F. Chlorine pre-filters and water softeners should be used on water supply prior to entering these membranes.

New!

DOW TAPTEC COMMERCIAL RO MEMBRANES

- Designed to separate salts from water, while delivering precise, consistent, and reliable results!
- Ideal for use in medium to large water treatment systems.
- 113 °F maximum operating temperature (95 °F above pH 10)
- pH range: 2-11 (continuous operation); 1-13 (<30 minutes for cleaning)
- Free chlorine tolerance: < 0.1 ppm

ION EXCHANGE RESIN FOR WATER SOFTENING SYSTEMS

RESINTECH WATER FILTRATION

- Removes ionic impurities in small and large purification systems
- Crosslinked gel/strong acid cation resin intended for use in residential and commercial water softening applications
- Supplied in beaded sodium form - offers excellent stability across loss of pressure and change in temperature
- NSF/ANSI-44/61 certified material safety
- Polymer type: Gel
- Ionic form (as shipped): Sodium
- Resin color: Amber
- WQA Gold Seal Certified
- Functional group: sulfonic acid
- Water retention: 46-50% (Na form)
- Weight: 50 lbs.
- Polymer structure: Styrene/DVB
- Physical form: spherical beads
- Screen size dist.: +16 to -50 (US MESH)
- Quantity per container: 1 cu. Ft.

WATER HEATERS

9,000 - 199,000 BTU

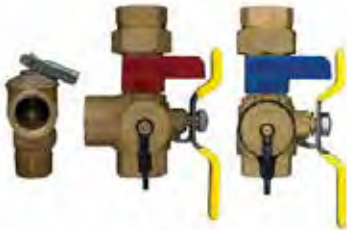

INFINITI® K SERIES TANKLESS (CONDENSING) GAS WATER HEATER INDOOR MODEL BRADFORD WHITE WATER HEATERS

- **ENERGY STAR® QUALIFIED** - Meet or exceed requirements for ENERGY STAR® per the latest ENERGY STAR® criteria revision, as well as most utility rebate programs
- **FEATURING THE SRT™ SCALE REDUCTION TECHNOLOGY** - Significantly reduces the incidence of scale build-up known to result in poor performance, additional maintenance, and pre-mature component or product failure
- **STEADYSET™ TECHNOLOGY** - Virtually eliminates cold water sandwich without the need for an internal buffer tank and recirculation pump
- **BUILT-IN DIGITAL CONTROL** - Temperature can be adjusted on the front control panel (100-140°F) (38°C-60°C).
- **ACTIVE BYPASS** - Achieves superior temperature stability (±2°F) (±1°C)
- Modulation-Segmented burner with 22:1 turn down ratio
- **SELF-CALIBRATING FAN AND GAS VALVE** - Simple combustion management system uses self-calibrating sensors to automatically configure air fuel ratio for flue length, gas type, and altitude - without a combustion analyzer
- **EXTERNAL RECIRCULATION PUMP WIRING-INSTALLED** - Built-in controls provide precise operation of external recirculation pump with, or without, additional external temperature sensor (Recirculation pump sold separately)
- **VENTING FLEXIBILITY**
- **GAS CONNECTION FLEXIBILITY** - 1/2", 3/4", or 1" connections permitted
- **TOP WATER CONNECTIONS** - For easy retrofit
- **INLET WATER FILTER** - External access for easy maintenance
- **SPACE SAVING INSTALLATION** - Compact size for tight installations
- **BUILT-IN FREEZE PROTECTION** - Protects unit from freezing. Activates automatically when the water heater is plugged in
- **PRESSURE RELIEF VALVE** - Included (Integral port)
- **BUILT IN FLUSH VALVES** - For servicing/de-scaling
- **FLUSHING CONDENSATE TRAP**
- **COMPLIES WITH THE LATEST ULTRA-LOW NOX REQUIREMENT (10 NG/J NOX LIMIT)**
- **EASY LP GAS FIELD CONVERTIBILITY** - Purchase of additional kit NOT required to convert from NG to LP

TANKLESS WATER HEATER VALVE KIT

WATER HEATER ACCESSORIES

- Easily install separate hot and cold isolation valves and a pressure relief valve to your existing tankless water heater. Adds more safety features and benefits to your system with ease! This kit provides full port testing and flushing of the system with union connections to ensure a fully secure and safe installation!
- 2-step color-coded union connections
- Full port throughout entire valve body
- Brass construction
- Connection: 3/4" NPT
- Quarter turn ball valve operation
- Flushing and descaling capability
- Pressure: 150 PSI
- Pipe Size: 3/4"

HEATING FIXTURES

HIGH-EFFICIENCY GAS FIRED COMMERCIAL SPACE HEATERS

REZNOR

This gas-fired heating unit is housed in an attractive gloss white cabinet and is power vented to avoid heat losses up the flue pipe and save you money over time. UDAP space heaters boast 82-83% thermal efficiency, which means they meet most thresholds for utility company rebates.

SPECIFICATIONS & KEY FEATURES

- 82-83% thermal efficiency - TOP IN ITS CLASS!
- 50-60° F rise range
- Tcore2 titanium stabilized aluminized steel heat exchanger
- Patented single burner combustion system including a one-piece burner assembly
- 115/1/60 Supply voltage
- 115V open fan motor with internal overload protection
- Transformer for 24-volt controls
- Integrated circuit board with diagnostic indicator lights
- Multi-try direct spark ignition with timed lockout
- Fan relay (included on the circuit board)
- Single-stage natural gas valve (field adjustable for operation to 9,000 ft. elevation)
- Vibration/noise isolated fan and venter motors - designed for low noise operation
- 2-pt and 4-pt Suspension - standard on all sizes
- External terminal strip for 24V wiring
- External gas connection
- Full fan guard - engineered for safety
- Improved cabinet design with less visible hardware

BOILERS

TRINITY LX

BOILERS

- **91+% EFFICIENT, WALL HUNG, CONDENSING GAS, BOILER FOR NATURAL GAS OR PROPANE!**
- NTI's combustion system produces the highest industry modulation rates, which allows the Trinity to modulate the burner to the exact size required to meet the conditions of the system. The Trinity incorporates an electronic state-of-the-art combustion system to reduce the amount of gas that is injected into the burner, to ensure proper combustion throughout the full range of modulation. This system also compensates for extended venting; therefore, adjustments are not required between short and long vent runs. The Trinity is a totally sealed combustion system: all combustion air is drawn from outside, used for combustion and then expelled.

WHEN PURCHASING A TRINITY BOILER, YOU MUST PURCHASE A TACO® CARTRIDGE CIRCULATOR

0011 CARTRIDGE CIRCULATOR

TACO® SYSTEMS

- The High Velocity series Taco 0011 Cartridge circulator is designed for high head/medium flow applications in residential or light commercial hydronic heating, radiant heating, and chilled water cooling systems. The unique ACB anti-condensate baffle with ambient air flow prevents the build up of condensate on the motor windings when pumping chilled water. Its unique field-serviceable cartridge contains all moving parts. Replacing the cartridge rebuilds the circulator. With no mechanical seal, the self-lubricating, maintenance-free design provides unmatched reliability. Compact and lightweight, with excellent performance characteristics, the 0011 is ideal for installations where space is a premium.

- **FLOW RANGE:** 0 - 31 GPM
- **HEAD RANGE:** 0 - 31'
- **MIN. FLUID TEMPERATURE:** 40°F (4°C)
- **MAX. FLUID TEMPERATURE:** 230°F (110°C)
- **MAX. WORKING PRESSURE:** 125 PSI
- **CONNECTION SIZES:** 3/4", 1", 1 1/4", 1 1/2" Flanged

EC SERIES INDIRECT-FIRED PORTABLE HEATERS

PORTABLE HEATERS

- Overheating thermostat (safety device turns off unit and requires a manual reset)
- AISI 430 stainless steel combustion chamber with four-pass heat exchanger technology (EC 200-EC300)
- Single Fuel Line Kit: This accessory allows the unit to recirculate hot oil from the return line back into the filter. The hot oil in the filter eases restarts and increases the performance of the unit in extreme cold temperature
- Combustion air pressure switch (safety device turns off unit and requires a manual reset)
- No supervision required can be controlled by thermostat, humidistat or timer
- Automatic post ventilation cycle to cool down the combustion chamber
- Fuel lines in hydrocarbon-resistant rubber wire-mesh protected
- Oil filter; pre-heated oil filter (EC200-EC300)
- Approved for construction
- 1' power cord
- Bayonet-type fuel tank cap
- Fuel tank drain plug
- Electric control panel (see page 4)
- Electronic flame control unit
- 10" pneumatic wheels

PORTABLE HEATERS

FLAME 115 INFRARED PORTABLE HEATER

PORTABLE HEATERS

- The innovation of the Flame115 Infrared Heater lies in the elimination of the refractory material cone that surrounds the conical combustion chamber that's typical of other competitors units. Our heater features a metallic forced air insulation pocket between the combustion chamber and the external protection cone. The cooling air is blown through the pocket by the burner fan. This innovative technology over comes the well-known problem of the fragility and brittleness of the ceramic cone.
- Electronic flame control unit with metal casing
- Approved for construction & agriculture
- Automatic post-ventilation cooling cycle
- Directional cone locking mechanism
- Built-in oil burner with gear pump
- Shockproof polyethylene fuel tank
- Extendable sliding floor shield
- Patented triple cone design
- CSA approved
- Low noise level
- Screw-on fuel gauge
- AISI 309 L stainless steel cone
- Fuel tank drain plug
- Only 92 lbs.
- Remote thermostat plug
- 8" reinforced plastic wheels

VACUUM PIT CLEANERS

RING-O-MATIC 750 VAC VACUUM PIT CLEANERS

- An electric start 11HP Honda engine and a 160 CFM (cubic feet per minute) vacuum/blower capable of 25 inHg of vacuum. This unit has a 650 gallon collection tank capacity (9,990 lbs fully loaded weight).
- A good solution for operators who have pits deeper than 7'6". The 750 vac pit cleaner operates efficiently at depths up to 10'. See our 750 Deep Vac for cleaning pits up to 15' deep - great for car washes with limited access pits!
- 750 vac can empty a typical 100 cubic foot sediment pit in about 40 minutes
- Easy to use and to unload. The tank is dumped using a hydraulic lift system. The mud load is set free from inside the tank by using a pneumatic load breaker. Both the pneumatic load breaker and the hydraulic system are driven by the pit cleaner's engine with simple, easy-to-use controls.
- The 750 vac weighs in at 9,990 lbs fully loaded. This means it can be safely and legally pulled by a full size pick-up. Check your vehicle to see if it is rated to safely handle this conveniently sized unit.

SPECIFICATIONS:

- **TANK CAPACITY:** 85 cu ft, 650 gal., 3.2 cu yd
- **EMPTY WEIGHT:** 3120 lbs
- **OVERALL TRAILER:** 75" W x 15' L x 7' H
- **HEIGHT IN TRANSPORT:** 7'
- **MAX DIG DEPTH:** 10' below ground level
- **ENGINE:** Electric Start 11 HP Honda
- **MAX HEIGHT:** 7' in operation

INCLUDES:

- 2 5/16" ball hitch
- Jack
- 235/80/R16 tires

CALL PITPUMP750V

RING-O-MATIC 850 DEEP VAC VACUUM PIT CLEANERS

- Engine - electric start OHV air cooled 21 HP
- 230 CFM (cubic feet per minute) vacuum/blower capable of 25 inHg of vacuum
- The 850 Deep Vac is an ideal pit cleaner for operators who have car washes with limited access pits. These pits are often the secondary pits where cleaning access is available through a manhole or other small opening.
- Easy to use and to unload. The tank is dumped using a hydraulic lift system. Mud-cake is set free from the bottom of the collection tank using a pneumatic load breaker. The pneumatic load breaker and the hydraulic system are driven by the pit cleaner's engine with simple, easy-to-use controls. The 850 Deep Vac can also be unloaded with its pressurized off-load feature.
- Weighs in at 12,800 lbs fully loaded. This means it can be safely and legally pulled by a full size pick-up. Check your vehicle to see if it is rated to safely handle this conveniently sized unit.

SPECIFICATIONS:

- **TANK CAPACITY:** 107 cu ft, 800 gal., 3.9 cu yd
- **EMPTY WEIGHT:** 3600 lbs
- **OVERALL TRAILER:** 75" W x 20' L x 7' H
- **HEIGHT IN TRANSPORT:** 7'
- **MAX DIG DEPTH:** 15' below ground level
- **ENGINE:** Electric Start 11 HP Honda
- **MAX HEIGHT:** 7' in operation

INCLUDES:

- 2 5/16" ball hitch
- Jack
- 235/80/R16 tires

KLEEN-RITE EZ-GRATE

EZ-GRATE FIBERGLASS CAR WASH GRATING

KLEEN-RITE

- Kleen-Rite EZ-Grate is a tough fiberglass grating option for car wash pits and industrial drain areas. Made with durable polyester resin with a gritty no-slip grip. The reduced size of EZ-Grate allows it to be moved and lifted much easier, has a smaller footprint for shipping, allows for easier shape customization without cutting, and lets you replace small sections of grating if damage occurs rather than huge sections.
- Gray or yellow color option
- 1 1/4" squares, 1 1/2" thickness
- Gritty non-slip top
- Easier moving and lifting
- Smaller shipping footprint
- Shape customization with less cutting
- 4' x 4' or 3' x 4' pieces
- Super-tough polyester resin fiberglass construction
- Reduced size versus traditional grating
- Non-metal material means no theft for scrapping
- Corrosion-resistant for wet, harsh environments
- Ability to replace smaller sections

GRATE ACCESSORIES

MUD STOPPER FIBERGLASS GRATE PLUGS

VACUUM PROSPECTOR

Have you noticed that mud, grime, and grit sometimes builds up in the outer holes of the fiberglass grating in your car wash bay? It's difficult to clean out this sludge and it might begin to collect gravel and small pieces of trash. This is unattractive and potentially unsafe for customers. In addition, this increases the possibility that brushes will pick up solid particles that can scratch or damage vehicle surfaces. Mud Stopper plugs easily and quickly solve this problem! Once you identify which holes in your grating collect mud, you can clean them out and insert a plug in each one. This directs the mud and sludge further towards the center of the grate where it will fall into the pit instead of collecting.

- 100 plugs included
- Use with fiberglass car wash grating
- Fits 1 1/4" square grate holes
- Easy install - use a mallet or hammer!

\$39.00 **MS32**

OPERATOR PRO

OPERATOR PRO VFD DIRECT DRIVE PUMP STAND

KLEEN-RITE CORP.

KLEEN-RITE CORP.

• The Operator Pro is a fully-built compact pump stand for six bays. The Operator Pro package reduces the amount of equipment needed to operate the standard car wash functions commonly offered in a car wash bay. Includes trusted CAT Pumps and Baldor motors. Hoses, fittings, regulators, electrical parts, and other components are included and it's basically a plug-and-play unit. Designed to service six bays, and you can choose what functions you need.

PUMP SPECIFICATIONS:

- **MAX FLOW:** 4 GPM
- **MIN. PRESSURE:** 100 PSI
- **MAX PRESSURE:** 2500 PSI
- **INLET SIZE:** 1/2" NPT
- **DISCHARGE SIZE:** 3/8" NPT
- **MAX. SPEED:** 1725 RPM
- **MATERIAL:** Brass

MOTOR SPECIFICATIONS:

- Catalog Number: CEM3615T
- Enclosure: TEFC
- Frame Material: Steel
- Output @ Frequency: 5 HP @ 60 HZ
- Agency Approvals: UR, CSA EEV, CSA
- Ambient Temperature: 104 ° F
- Base Indicator: Rigid
- Drip Cover: No Drip Cover
- Duty Rating: Continuous
- Efficiency @ 100% Load: 89.5%
- Synchronous Speed @ Frequency: 1800 RPM @ 60 HZ
- Voltage @ Frequency: 460 V @ 60 HZ, 230 V @ 60 HZ
- Current @ Voltage: 13.4A @ 230V, 13.9A @ 208V, 6.7A @ 460V

SENSOR DYNAMIX

SELF-SERVE PRESSURE MONITORING SENSOR

SENSOR DYNAMIX

One of Sensor Dynamix's most popular sensors is their Self-Serve Pressure unit. This device remotely monitors self-serve high-pressure cycles in real time to increase efficiencies and check for malfunctions. Instant notifications for virtually all malfunctions or failures, which helps recapture lost revenue with drastically decreased response times.

FEATURES:

- Manage device and view all data through the SD Live app
- 1/4" NPT Pressure transmitter
- Power: 110V AC wall outlet
- 6ft power cable
- 24V AC coil (different voltages available with special order)
- 3' coil wiring
- WiFi connectivity
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

\$399.00 **PSA**

Monthly fee required.

Register at www.SensorDynamix.com/Registration/Kleen-Rite when placing order.

AUTOMATIC PRESSURE MONITORING SENSOR

SENSOR DYNAMIX

One of Sensor Dynamix's most popular sensors is their In-Bay Automatic Pressure unit. This device remotely monitors in-bay automatic high-pressure cycles in real time to increase efficiencies and check for malfunctions. Instant notifications for virtually all malfunctions or failures, which helps recapture lost revenue with drastically decreased response times.

FEATURES:

- Manage device and view all data through the SD Live app
- 1/2" NPT Pressure transmitter
- Power: 110V AC wall outlet
- 6ft power cable
- 110V AC coil (different voltages available with special order)
- 3' coil wiring
- WiFi connectivity
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

\$399.00 **PAA**

Monthly fee required.

Register at www.SensorDynamix.com/Registration/Kleen-Rite when placing order.

LOW PRESSURE MONITORING SENSOR

SENSOR DYNAMIX

Sensor unit that monitors a variety of potential issues with the low-pressure auxiliary systems at car washes. Get instant notifications to your smart phone using the SD Live app. You can also schedule maintenance schedule reminders!

FEATURES:

- Manage device and view all data through the SD Live app
- 1/4" NPT pressure transmitter
- Power: 110V AC wall outlet
- 6ft power cable
- 110V AC coil (different voltages available with special order)
- 3' coil wiring
- WiFi connectivity
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

\$399.00 **PLA** For low-pressure auxiliary systems
\$399.00 **PLA-A** For air compressors

AUTOMATIC STATUS AND REVENUE MONITORING SENSOR

SENSOR DYNAMIX

Real-time remote monitoring of in-bay automatic pay stations to increase efficiencies or check for malfunctions. This sensor device monitors all revenue and sends instant notifications triggered by out-of-order malfunctions, dramatically decreasing unexpected downtime.

FEATURES:

- Manage device and view all data through the SD Live app
- Power: 110V AC
- 110V AC coil for status trigger (different voltages available with special order)
- 24V AC coils for wash counting (different voltages available with special order)
- 3' wiring length
- WiFi connectivity
- Waterproof
- Small, compact design
- Simple installation

\$279.00 **AAA**

SENSOR DYNAMIX

BILL CHANGER STATUS MONITORING SENSOR

SENSOR DYNAMIX

Sensor unit that monitors out-of-order malfunctions on bill changers. Compatible with any age of bill changer.

FEATURES:

- Manage device and view all data through the SD Live app
- Power: 110 VAC
- Common 110 VAC or 24 VDC coils (different voltages available with special order)
- 3' wiring length
- WiFi connectivity
- Waterproof
- Small, compact design
- Simple installation

\$199.00	SBA	Compatible with all others

SELF-SERVE REVENUE MONITORING SENSOR

SENSOR DYNAMIX

This sensor monitors your self-serve bay revenue in real-time! This includes all customer transactions: credit cards, cash, coin, and any other revenue sources.

FEATURES:

- Manage device and view all data through the SD Live app
- 24V AC coin system required
- Includes 24V AC to 5V DC power supply for sensor
- WiFi connectivity (includes external mounted antenna)
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

LIQUID TEMPERATURE MONITORING SENSOR

SENSOR DYNAMIX

This sensor monitors any liquid temperature in real-time to increase efficiencies and check for malfunctions. The most popular utilizations include floor heat systems and constant water boilers. Its customizable thresholds allow for instant notifications for any circumstance.

FEATURES:

- Manage device and view all data through the SD Live app
- Power: 110V AC wall outlet
- ½" NPT
- 6' power cable
- WiFi connectivity
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

INTERNAL LIQUID LEVEL MONITORING SENSOR

SENSOR DYNAMIX

Sensor unit that monitors liquid levels in applications like raw chemicals and spot-free rinse tanks.

FEATURES:

- Manage device and view all data through the SD Live app
- Customizable for any liquid material compatibility
- Power: 110V AC wall outlet
- 4' power cable
- WiFi connectivity
- Waterproof
- High accuracy
- Small, compact design
- Simple installation

PLEASE MEASURE TRACK BEFORE PLACING YOUR ORDER

Rotating wands result in a superior wash product by completely covering the vehicle's surface with a dynamic scrubbing action. Continuous sizing delivers a safe and quality wash process for every vehicle. Rugged design and quality components deliver an equipment package that will provide quality performance year after year with minimum maintenance and repair.

RGB GUIDE LITES

RGB GUIDE LITES FLOOR MOUNTED GUIDE SYSTEM

Impress your customers with Hydro-Spray's all new RGB Guide Lites! These color changing LED lights will drive impulsive purchases and help prevent accidents from occurring. With a reinforced structure to prevent against tire traffic, RGB Guide Lites are sure to last!

FEATURES:

- White plastic (UHMW) rails
- Color changing Flex Neon
- Custom Length Linear Foot to meet various bay lengths
- Reinforced structure to protect lights from tire traffic
- Low voltage - safe for wet environments
- Plastic guides attach directly to concrete floor
- Synchronizes with in-bay directional signage

BENEFITS

- Alternative to painted lines/reflective markers
- Faster wash loading
- Reduce customer error
- Help prevent accidents from occurring
- Easy to understand
- Drive Impulsive Purchases
- Quickly captures the attention of the driver

LED LIGHT COLORS

GREEN

Motor City Wash Works, Inc. was founded in 2004 and has grown to become a respected leader in the car wash industry. This reliable car wash company focuses on tunnel wash systems and other automatic equipment. They offer quality systems in a variety of sizes to fit different customers' applications. They also offer fleet systems for auto dealerships, vehicle rental agencies, and truck fleets. Regardless of your type of wash, Motor City will customize your system for things like performance needs, location size, and branding. Motor City Wash Works is fixated on setting the industry standard for innovation, durability, and performance.

Kleen-Rite carries an ample selection of new parts that are designed for use with Motor City Wash Works equipment. We can be your supplier for smaller parts like valves, nozzles, and rollers, as well as larger components like pumps and motors that are compatible with Motor City car wash systems. As with all of Kleen-Rite's products, you'll be sure to find the Motor City Wash Works parts you need at the most competitive prices on the market.

If you're a new owner of a Motor City Wash Works car wash system, it's crucial to select a parts supplier that you can trust to help service and maintain your equipment. Why not start off on the right foot and go with Kleen-Rite right away? If you've had a Motor City Wash Works system for years and are starting to realize that you're paying too much for your replacement parts, make the switch to Kleen-Rite and get yourself on the right track.

Browse our full listing of Motor City Wash Works replacement parts at kleen-ritecorp.com. You can also contact our sales team to discuss your needs and get advice on the parts you're going to need to keep your Motor City Wash Works system running at peak performance!

OSISENSE XM PRESSURE TRANSMITTER SENSOR TELEMECANIQUE

- Used to measure and regulate fluid and steam pressure. Commonly used with booster pumps in car wash systems.
- **PRESSURE SENSOR SIZE:** 300 PSI
- **TEMPERATURE RANGE:** 32° to 176°F
- **FLUID CONNECTION TYPE:** 1/4" - 18 NPT (male)
- **ELECTRICAL CONNECTION:** 1 male connector M12 4 pins

RECORA

- **AUTOMATIC VEHICLE DETECTORS FOR COMMERCIALS AND INDUSTRIAL USE**
- Ideal for turning equipment on without touching cars
- Rugged enough to work under multi-ton trucks
- Easily wires to lights, horn, bells, or any signaling device
 - Molded to 3/16" steel base plate, 7/8" thick, mounting holes on corners
- Standard sensitivity to 10-15 lbs.
- Standard lead wires are 20' of 18 AWG
- Lead lengths can be up to 150'

CLEATS GRIP THE TIRE AND MINIMIZE SLIPPAGE WHILE IMPROVING TRACTION.

SIMPLE ELECTRICAL SWITCH EMBEDDED IN THE TRIP DEVICE.

RECESSED, IT PERFORMS ITS FUNCTION WITHOUT GETTING IN THE WAY OF REGULAR MAINTENANCE AND CLEANING.

DESIGNED TO ROLL WATER OFF ITS BACK.

SIMPLE ELECTRICAL SWITCH EMBEDDED IN THE TRIP DEVICE.

RUGGED WATER AND WEATHER-RESISTANT DETECTOR WITH BUILT-IN RAMP IS DESIGNED AND MANUFACTURED TO LAST. SAVES ON COSTLY MAINTENANCE.

TRACTION CONTROL SERIES

RECORA

- Ideal for turning equipment on without touching cars
- Rugged enough to work under multi-ton trucks
- Sensitive enough to respond to the smallest, lightest cars
- Safe, fast, and easy to move in the wash tunnel or on the apron for exact timing control

FEATURED PRODUCT

CHAR-LYNN MOTORS

Char-Lynn designs each motor for optimum performance. Each LSHT motor provides high-torque strength without the stress of fast-moving parts that can cause damage. They are excellent for conveyors that need power to move objects yet do not need to operate at a quick pace.

LOW SPEED

Motor start-up speed causes a spike in energy usage. Char-Lynn's low-speed design provides smooth operation at all times, from start-up to shut-down, to extend the life of the motor.

HIGH TORQUE

Char-Lynn hydraulic motors transform fluid energy into mechanical power. Power is the result of speed and torque, and high torque is required to start a load moving.

COMPACT & COST-EFFECTIVE

The LSHT motor eliminates the gearbox to save space and lower costs! Only three primary components are needed to transmit torque through the motor: starter, drive, and output shaft.

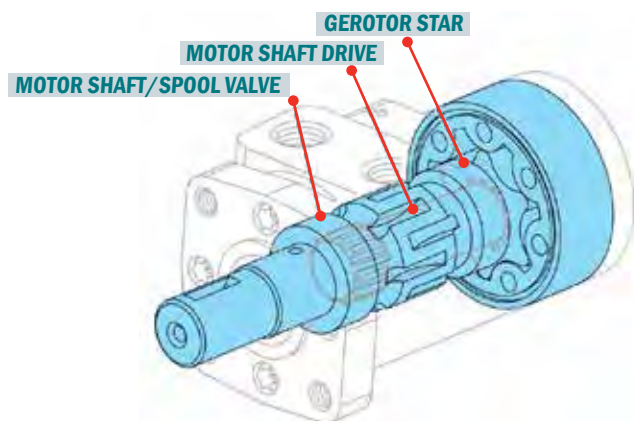

REVERSIBLE DESIGN

These motors let you reverse the direction of hydraulic fluid flow, without losing torque! Plus, the motors mount directly to the driven device.

GENERAL PURPOSE MOTORS

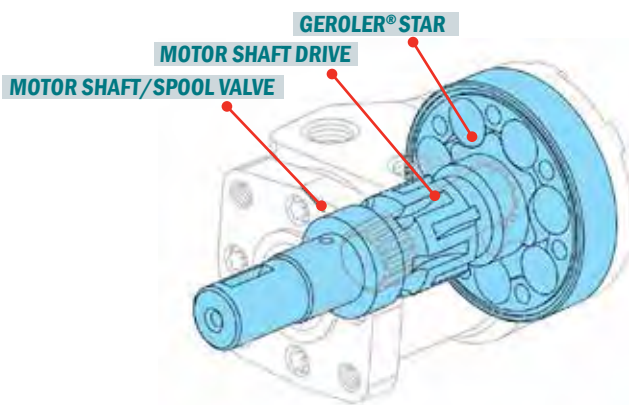

When choosing your motor, consider the following motor specs: pressure range, speed, torque, and fluid compatibility. You can shop for many popular models from the Char-Lynn H Series and S Series at Kleen-Rite.

H-SERIES MOTOR

- Economical and compact
- Designed for medium duty applications
- Features an industry-proven spool valve design with state-of-the-art gerotors
- Gerotors offer fluid-tight sealing for leak-free performance. Great for conveyors and car wash brushes!
- Equipment can be driven direct to save costs

S-SERIES MOTOR

- An S-Series motor with a Geroler has a compact size and an optimized drive running angle to improve mechanical efficiency
- Within the Geroler, rollers provide support as the starter rotates. This minimizes friction and promotes efficiency, especially at start-up and low speeds
- Leak-free performance and smooth operation

TB & TC SERIES MOTORS

PARKER ROSS MOTORS

TC SERIES

TB SERIES

- Provides low-cost hydraulic power for medium to light duty applications
- Fully interchangeable with industry standards for porting, standard shafts & mountings
- Zero-leak commutation valve provides greater, more consistent, volumetric efficiency
- Full-flow lubrication maximizes cooling & extends motor life up to 50%
- Patented 60-40 spline member arrangement transmits more torque with less weight
- Full interchangeability with other motors - designed according to industry standards
- Unique high-pressure shaft seal - eliminates need for case drains
- Up to 13 HP output

JET LUBE® ANTI-SEIZE, SEALANTS & LUBRICATIONS

AUTOMATICS SUPPLIES

\$26.85	JL47102	550 EXTREME ANTI-SEIZE LUBRICANT WITH BRUSH TOP 1 LB. - Enhanced rust and corrosion resistance. Lead free. Protects against seizure, heat-freeze, galling, rust and corrosion. Lowers friction, reduces wrench torque. Provides easy makeup and breakout. Reduces maintenance costs. Not affected by contraction, expansion, or vibration.
\$14.01	JL35050	ARCTIC LOW-TEMPERATURE GREASE CARTRIDGE 14 OZ. - Designed for extreme cold weather environments where fluid film strength is important and grease consistency remains the same. It is ideally suited for applications that experience working environments at subzero climates.
\$16.53	JL33050	202 MOLY-LITH MULTI-PURPOSE GREASE CARTRIDGE 14 OZ. - Excellent for rack/pinion grease cups, drive shaft idler arm and ball joints. Specifically formulated to protect your equipment from premature damages that can occur from dirt, dust, and sediments.
\$17.97	JL37341	769 LUBRICANT AEROSOL 12 OZ. - unique in that it lifts and displaces moisture, rather than trapping it. Pores and crevices of surfaces are freed from moisture and are coated with a thin non-greasy film that prevents additional moisture from clinging or entering.
\$18.99	JL34041	WRL WIRE ROPE & CHAIN LUBRICANT AEROSOL 12 OZ. - quickly penetrates wire rope and cable to the core and builds a shield against offshore weathering conditions. It's highly resistant to rain and salt water atmospheres and is a water displacing spray and lubricant.
\$31.93	JL73560	SILICONE COMPOUND DM 5 OZ. - Dielectric, translucent paste that provides excellent lubrication and sealing properties for plug and gate valves, stuffing boxes, o-rings, vacuum and pressure systems.
\$29.00	JL32460	5.30Z MP SILICONE GREASE - Designed compatibility for O-ring materials including Buna-N, Viton, HSN, Teflon, nitrile, and nylon. Ideally suited as an insulator for electrical connectors against the elements.

FOAM GENERATORS

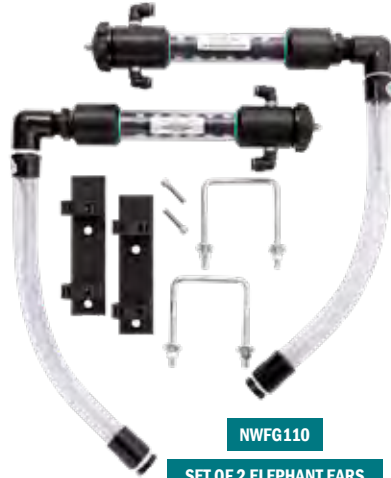

EASY CLEAN CAR WASH FOAM GENERATOR

NEW WAVE INNOVATIONS, INC.

- The easy clean generator is a revolutionary foam generator that takes the trouble out of cleaning your chemical application foam generators - no tools needed since there are no fittings to take apart or any air and chemical lines to disconnect!
- The media is made up of two types: one that mixes and one that foams
- No need for the needle valve or check valves because the media is suspended to the twist off cap so that the media does not compress in the foam chambers, creating unpredictable back-pressure and flow resistance
- Installation is a snap - each unit comes with direct fit air and chemical fittings and outlet sizes to fit your applicators
- Cleans in seconds, not minutes
- Uses less chemical to create a dramatic show of foam, color and scent that your customers will love!
- Reduce expenses in labor, water and chemicals!

LOOP DETECTORS & ACCESSORIES

SP-24 SURFACE MOUNTED LOOP PAD EMX INDUSTRIES, INC.

- The SP-24 Surface Mounted Loop Pad is designed for use with EMX loop detectors
- Size: 23³/₄" x 23³/₄" x 1"
- Material: black polypropylene
- Lead-In: 50 feet shielded twisted pair
- SP-24 Lead-In Guard: 24" x 3" x 1/2" and also made out of black polypropylene

\$574.45	EMSP24	Loop Pad
\$607.83	EMSP24-100	Loop Pad W/ 100' Lead

PREFORMED LOOP EMX INDUSTRIES, INC.

- With 50' lead

\$153.94	EMPR26	2' x 6'
\$149.64	DMLLOOP	4' x 6'
\$161.57	EMPR48	4' x 8'

11 PIN ACCESSORIES EMX INDUSTRIES, INC.

- 11 pin with 3' of wire
- Base for DIN rail mount

\$13.67	EMHAR11	Harness
\$11.44	EMBASE	Socket

New!

UNIVERSAL THRU BEAM PHOTOEYE KIT EMX INDUSTRIES, INC.

- Able to operate up to 115 feet and is compatible with a wide range of input voltages. The photoeye provides a signal to the gate or door operator that the beam is, or is not obstructed.
- **OPERATING RANGE:** 5 to 155 ft.
- **MAX VOLTAGE AC:** 24
- **MAX VOLTAGE DC:** 35
- **MIN TEMP:** -40 F
- **MAX TEMP:** 170 F
- **CONDUIT HOLE SIZE:** 1/2" NPT

\$183.66	EMIRB-MON2
-----------------	-------------------

New!

RETROREFLECTIVE PHOTOEYE KIT EMX INDUSTRIES, INC.

- Delivers exceptional compatibility with a wide range of gate openers
- Type B1 Non-Contact Sensor
- Universal Mounting Bracket
- **MAX RANGE:** 60 feet
- **SENSITIVITY ADJUSTMENT:** Potentiometer

\$190.84	EMIRB-RET2
-----------------	-------------------

LOOP-LESS ULTRASONIC VEHICLE DETECTOR EMX INDUSTRIES, INC.

- Installs easily above ground - just aim to detect
- 4 ultrasonic sensing elements
- Operating range: 1' to 5'
- 2 relay output
- Ideal for fast food, parking, banking, pharmacy, and carwash drive-thru operations

\$287.42	EMUSVD-4X
-----------------	------------------

ULTRALOOP MUTLI-VOLTAGE VEHICLE DETECTOR EMX INDUSTRIES, INC.

- Universal input range: 12 VDC to 240 VAC
- Small size: 73 x 38 x 78mm
- 10 sensitivity adjustments
- 4 frequency settings
- ULTRAMETER display indicates the appropriate sensitivity setting for vehicle on loop
- DETECT-ON-STOP technology distinguishes between moving and stopped vehicles

\$151.88	EMDTEK-ULTMVP
-----------------	----------------------

MULTI-VOLTAGE VEHICLE DETECTOR EMX INDUSTRIES, INC.

- Universal Input Range: 12V to 240V AC/DC
- Loop diagnostics, isolation transformer, conditioner
- Aluminum RF shield housing
- Loop frequency counter
- 10 gold plated sensitivity controls
- 8 gold plated function controls
- 6 gold plated controls for frequency, reset & counter
- 2 High intensity LED indicators
- 2 relays pulse or presence

\$119.10	EMDTEK-MVP
-----------------	-------------------

LOW POWER VEHICLE DETECTOR EMX INDUSTRIES, INC.

- 2 relays
- LED indicators
- Requires 12-24V AC/DC power supply
- Only draws up to 9 mA current
- 3, 6, & 9 second extend direct output controls
- Fail safe detection modes
- Surge protection and loop isolation transformer
- Loop diagnostics and built-in loop conditioner
- Extrudend anodized aluminum RF shield housing
- Frequency counter
- Circular 11 pin connector
- 4 minute limit control

\$111.36	EMDTEK-LP
-----------------	------------------

AUTOMATICS & TUNNELS

LOOP DETECTORS & ACCESSORIES

FLAT PACK VEHICLE SENSOR

EMX INDUSTRIES, INC.

- Housing: Polyamide
- Outputs: NPN - open collector
- Connection: 5 conductor
- Operating environment: -40° F..180° F)
0...95% relative humidity
- Environmental rating: IP69K
- Power supply: 12-30 VDC
- Current draw: 10 mA max
- Dimensions: 4.3" x .9" x .3"
- 50' long lead
- Use with the LRS-C1 Controller
- Purchase as a kit that includes both the sensor and controller (part #LRS-FP-50-K)
- Direct Burial Sensor also available (part #LRS-DB-50)

\$165.32 LRS-FP-50

DIRECT BURIAL VEHICLE SENSOR FOR LRS

EMX INDUSTRIES, INC.

- Housing: PVC
- Outputs: NPN - open collector
- Connection: 5 conductor
- Environmental rating: IP69K
- Power supply: 12-30 VDC
- Current draw: 10 mA max
- Dimensions: 4" x 1"
- 50' long lead
- Use with the LRS-C1 Controller
- Purchase as a kit that includes both the sensor and controller (part #LRS-DB-50-K)
- Flat Pack Sensor also available (part #LRS-FP-50)

\$174.78 LRS-DB-50

LOGIC CONTROLLER FOR LRS

EMX INDUSTRIES, INC.

- Power indicator: Green LED
- Detect indicator: 2 Red LEDs
- Configuration selector: 10 position rotary switch
- Dimensions: 2.9" x 1.2" x 3.1"
- Connector: 11 pin male connector (JEDEC B11-88)
- Two relay operation
- A/B directional logic
- Pulse on entry and on exit
- Relay 1 only

\$121.90 LRS-LC

CONTROLLER FOR LOOP REPLACEMENT SYSTEM (LRS)

EMX INDUSTRIES, INC.

- Housing: ABS plastic
- Dimensions: 3" x .9" x 2.75"
- Outputs: SPDT relay
- Power: 12-30 VDC and 24 VAC
- Output current rating relay: 1 A @ 24-120 VDC
- Current draw: 40 mA (max)
- Supply protection: Reverse polarity and fuse protected
- Use with the Flat Pack Sensor (part #LRS-FP-50) or Direct Burial Sensor (part #LRS-DB-50)
- Available as kits that include a controller and sensor (LRS-FP-50-K or LRS-DB-50-K)

\$115.77 LRS-C1

OVERHEAD MICROWAVE MOTION SENSOR HUMAN/VEHICLE DISCRIMINATION

EMX INDUSTRIES, INC.

- Operating frequency: 24.150 GHz
- Detection range: Maximum detection range of 23' x 23' at an installation height of 16'. and a housing angle of 45° (dependent on sensor height and housing angle)
- Mounting height: 8-23 ft (2.5-7 m)
- Power: 12-36 VDC or 12-28 VAC
- Dimensions: With bracket - 5.16" x 2.87" x 5.35"
- Connection: 26' (8m) cable

\$378.57 RAVEN

(LRS) VEHICLE DETECTION KIT-CONTROLLER AND FLAT PACK SENSOR

EMX INDUSTRIES, INC.

- Sensing technology: 3-axis magnetoresistive
- ULTRAMETER display: 10 levels of sensitivity: 0-9
- Axis sensitivity: 512 counts/gauss (typical)
- Detect-on-step: Requires vehicle to stop for a minimum of 1 second (1-2s typical)
- Power supply: 12-30 VDC and 24 VAC (controller), 12-30 VDC (sensor)
- DETECT-ON-STOP™ (DOS®) feature will allow detection only when a vehicle has come to a complete stop near the sensor. This EMX exclusive technology ignores cross traffic in tight spaces
- Flat Pack Sensor (part #LRS-FP-50) and LRS Controller (part #LRS-C1) available separately
- Dimensions: 3" x .9" x 2.75" (controller), 4.3" x .9" x .3" (sensor)

\$283.60 LRS-FP-50-K

(LRS) VEHICLE DETECTION KIT-CONTROLLER AND DIRECT BURIAL SENSOR

EMX INDUSTRIES, INC.

- Sensing technology: 3-axis magnetoresistive
- ULTRAMETER display: 10 levels of sensitivity: 0-9
- Axis sensitivity: 512 counts/gauss (typical)
- Power supply: 12-30 VDC and 24 VAC (controller), 12-30 VDC (sensor)
- Control module for programming and relay contact output
- Stand-alone sensor stores background and settings in a non-volatile memory
- DETECT-ON-STOP™ (DOS®) feature will allow detection only when a vehicle has come to a complete stop near the sensor. Exclusive technology ignores cross traffic in tight spaces
- Direct Burial Sensor (part #LRS-DB-50) and LRS Controller (part #LRS-C1) available separately
- Dimensions: 3" x .9" x 2.75" (controller), 4" x 1" (sensor)

\$291.92 LRS-DB-50-K

AUTOMATICS & TUNNELS

UNDERCARRIAGE & TIRE CLEANERS

STATIONARY UNDERCARRIAGE CLEANER

MOSMATI

- The TUW stationary is perfect for fixed ramp over or sub-floor undercarriage wash systems. Industrial grade stainless steel plates and boxes come complete with quad bearing swivels and welded balanced rotor arms. The high lift design removes heavy debris and cleans without damage to the vehicles undercarriage
- Compact solid construction • Equipped with nozzle stabilizers
- Modular Design • Requires 4x EG-nozzles, according to your pump specifications
- **PRESSURE:** 4000 PSI • **MAX. TEMP:** 250°F
- **MAX. RPM:** 2000 • **WATER CONNECTION:** 3/4" NPTF
- **WATER DRAIN:** 1" NPTF • **THROUGHPUT MEDIUM:** pH 3-12
- **SWIVEL:** 2x DYT • **ROTOR ARM:** 8"/10"
- **STAB. NOZZLE/ADAPTER:** 4x 14.901 • **DIMENSIONS:** 29½" x 11.8" x 10.8"
- **WEIGHT:** 70.5 lbs

CALL UCM80640

ADDING UNDERCARRIAGE CLEANING TO YOUR WASH INCREASES REVENUE!

Customers want to protect their vehicles from drainage problems due to debris and oil buildup, salt corrosion and more. Adding an undercarriage cleaning option to your bays or a stationary undercarriage cleaner to your automatics will keep your customers happy and your wallet full!

WHEELBLASTER PRO

MOSMATIC

- Polished stainless steel • Equipped with stabilizer nozzle
- Seamless height and angle adjustable • Multiple cleaning heads can be installed
- High impact at a distance
- **PRESSURE:** 4000 PSI • **MAX. TEMP:** 250°F
- **MAX. RPM:** 2000 • **WATER CONNECTION:** ¾" NPTF
- **THROUGHPUT MEDIUM:** pH 3-12

CALL SWMTA84546

TIRE CLEANER WITH 21" STAINLESS STEEL HOUSING

MOSMATIC

- The water pressure makes the rotor arm begin to turn on its own. The design is constructed so simply that any maintenance work can be carried out independently and very quickly. These products are found mainly in automatic car wash facilities in the area of rim/tire cleaning and lateral finish cleaning. It is an efficient and reliable method of achieving optimal cleaning results.

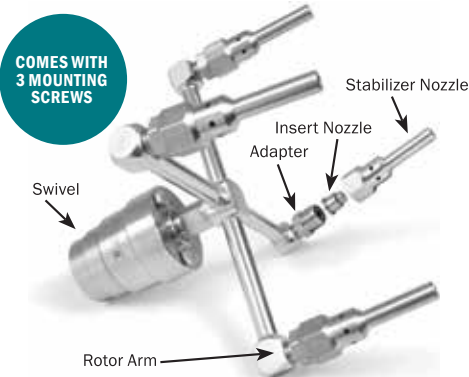

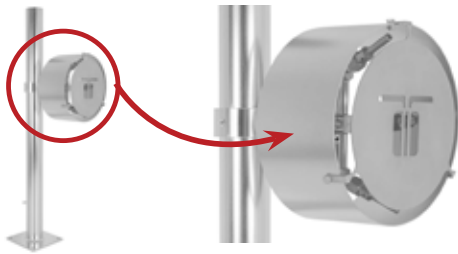

CALL

SWMTC84519

High performance (DYT) Swivel, 18½" / 14" Spinner

SWMTC84504

Standard (DYF) Swivel, 16" / 10" Spinner

ROTATION SYSTEM

MOSMATIC

- As the water pressure builds, the rotor arms begin to rotate independently. The arm rotates only by the force of the water jet and requires no other power. A simple but efficient and solid product for optimal cleaning effect.
- Max. Pressure - 5000 PSI • Max. Temp. - 250°F • Stab. Nozzle / Adapter (4) 14.901

PROTO-VEST DRYERS

CALL FOR PRICING

PROTO-VEST DRYERS will improve the efficiency and profitability of any type of car wash including In bay, roll over and tunnel operations. PROTOVEST DRYERS provide the lowest energy usage and noise levels in the industry that save money for the wash operators.

FEATURES & BENEFITS:

- Constructed using Aircraft Grade Aluminum
- Unmatched Energy Efficiency
- LOW Maintenance
- Touchless Drying Directed Air Flow
- Patented Proto-Duck™ Air Deployment Bags
- Steel Blower Assemblies
- Easy to Install

ACTUAL COLOR MAY VARY FROM PICTURES SHOWN.

CUSTOM COLORS ALSO AVAILABLE UPON REQUEST.

DRYING PERFORMANCE IS AFFECTED BY THE FOLLOWING:

- 1 If the car is not clean;
- 2 Use of RO water without drying agent;
- 3 If cleaning agents are not properly balanced;
- 4 Insufficient rinsing (soap on vehicle);
- 5 Inadequate balance between rinse water & drying agent;
- 6 Excessive drive through speed.

PLEASE NOTE WHEN PURCHASING:

- Wiring and Controls to be provided by the purchaser
- Additional motor specifications available on request
- Additional Motor votages available on special order
- Install not included

SILENCER PACKAGE

PROTO-VEST DRYERS

- Above decibel readings are interpolated from T260 Dryer with 2 of the 30 Hp Motors

WITHOUT SILENCER

REPLACEMENT CLOTH & FOAM

KLEEN-RITE CORP. INTRODUCES FIVE STAR CARWASH CLOTH AND FIVE STAR FOAM.

This top of the line cloth is extremely durable and comes in four vibrant colors that are guaranteed not to fade prematurely.

CAR WASH FOAM
FIVE STAR CAR WASH CLOTH

- Five Star Carwash Foam has the softest, most gentle touch. Five Star Foam Washing Material is lightweight, yet has tremendous tensile strength. The foam comes in 4 vibrant colors and is a great value.

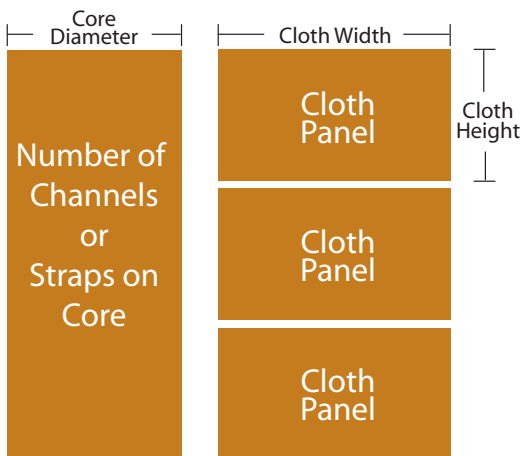

CAR WASH CLOTH
FIVE STAR CAR WASH CLOTH

- Five Star Carwash Cloth has a soft and gentle touch while also being extremely durable. Five Star Cloth color's last and last, the color remains bright and vibrant throughout it's life. The cloth is also designed to hold more soap and water, resulting in cleaner vehicles.

HOW TO ORDER KLEEN-RITE'S 5 STAR CLOTH & FOAM

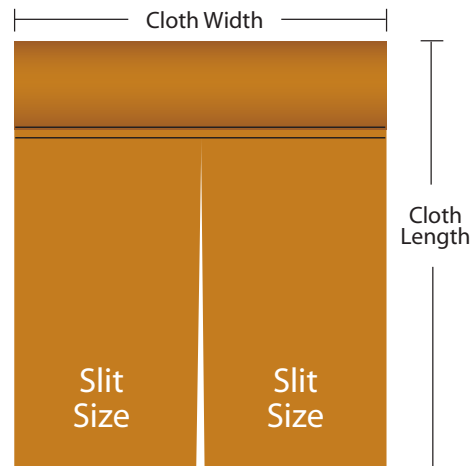

FOAM AND CLOTH AVAILABLE IN THE FOLLOWING COLORS: ● ● ● ●

FOR CLOTH & FOAM REPLACEMENT

FIVE STAR CAR WASH CLOTH

- Measure cloth width & height.
- Measure slit size (1/2", 1", 2").
- Indicate if cloth is 1-ply or 2-ply.
- Indicate the number of pieces.

FOR MITTER CLOTH

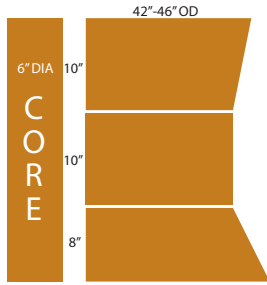

FIVE STAR CAR WASH CLOTH

- Indicate if cloth has attached plastic rod, looped & sewn, or clip on/nylon tie style
- Measure cloth width & length.
- Measure slit size (2", 3", 4", 6").
- Indicate the number of pieces

KNOW WHEN TO REPLACE YOUR CLOTHS

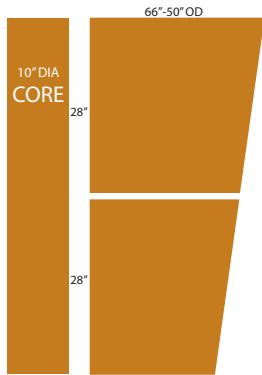

Even the most experienced and conscientious operators eventually have to replace their cloth. Don't wait until the last minute to replace your cloth (when you have a series of damage claims or you start to lose customers because you are not doing a good enough job of cleaning their cars).

Excessive amounts of fraying and tearing at the tips of the cloth is a good indication it needs to be replaced.

SPRAY NOZZLES

**FIND YOUR
SPRAY TIP
NUMBER HERE!**

Spraying Systems Co.®

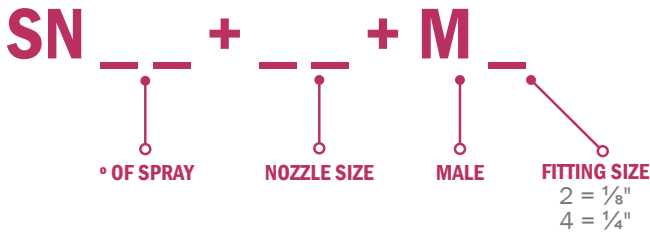

WASHJET® MEG SPRAY NOZZLES SPRAYING SYSTEMS CO.

- Spray angles of 0° to 65°
- Uniform distribution - an internal guide vane stabilizes liquid turbulence
- Longer wear life and flow control accuracy with specially hardened stainless steel
- Female nozzles and VeeJet® nozzles are available

\$4.54	1/4"
\$4.33	1/8"

HOW TO DETERMINE NOZZLE SIZE:

- Calculate GPM & PSI to determine nozzle size
(Ex. 1200 PSI at 3.8 GPM = nozzle size of 07 See * above)
- After determining nozzle size, choose a degree of spray pattern:
 - 15 = 15° (narrow)
 - 25 = 25° (medium)
 - 40 = 40° (wide)
- Available spray patterns : 05, 15, 25, 40, 50, 65, 80
- Degree of spray does not affect nozzle volume

INTERIOR #S ARE GPM

QUICK CONNECT/DISCONNECT ACCESSORIES & NOZZLES

3/8" QUICK CONNECT COUPLER WITH M22 MALE END GENERAL PUMP

- Prosumer-grade, high-performance, high-pressure hose adapter to allow for quick connections. Please note that coupler requires a male quick-connect plug. Reliable and durable construction ensures longevity even over prolonged usage.
- 3/8" Snap Coupler Female Inlet / 22m Threaded Male Outlet
- Pressure Rating: 4000 PSI

\$7.06 **GPP10035**

M22 x 3/8" QUICK CONNECT COUPLER GENERAL PUMP

- Ideal for connecting pressure washers or guns to a hose
- M22 Female inlet x 3/8" QC outlet
- Pressure Rating: 4000 PSI
- Used with DT10088 to convert Karcher gas units

12 GAUGE A FRAME STEEL HOSE REELS (HAND CRANK OR ELECTRIC)

COXREELS

HAND CRANK

ELECTRIC

- "A" frame base constructed with heavy duty 12-gauge steel that is welded all as one piece. Disks are designed with rolled edges and have been ribbed to provide higher durability, strength and protection to both the hose and operator. Incorporates an electroless nickel plated steel 90° inlet swivel with NPT threading. Pillow block bearings are permanently lubricated and feature a self-aligning design delivering smooth rotation.

SPECIFICATIONS:

- I.D: 1/2"
- O.D: 7/8"
- Max PSI: 3,000

FEATURES:

- 12-gauge steel CNC robotically welded "A" frame base
- CNC robotically spun ribbed disks with rolled edges
- Self-aligning permanently lubricated bearings
- CPC powder coat finish hinders rust and resists chipping
- Low profile outlet riser with open drum slot
- 90° electroless nickel plated steel NPT threaded swivel
- Locking pin prevent reel rotation when not in use
- Steel hand crank with a smooth round handle

PRESSURE WASH CHEMICALS

PRESSURE WASHING CHEMICALS

SIMONIZ

NAME	5 GAL.	55 GAL.	DESCRIPTION	DILUTION
ALUM BRIGHT	PA5510*	DR55518*	A powerful blend of strong acids and surfactants made for cleaning of stained and maturated aluminum surfaces. This is an etching type of cleaner and is to be used for the periodic cleaning of aluminum trailer bodies and similar surfaces. It is not recommended for highly polished surfaces.	Heavy Loads - 1:10 Light Loads - 1:20
FORMULA 8000	PA5283	DR55508	An extra heavy-duty caustic liquid for heavy soil removal. One of the strongest liquid pressure and stream cleaning compounds. Special inhibitors allow it to be used to brighten certain aluminum surfaces.	General Purpose 1:60 Low Pressure 1:30
SUPER KLEEN	PA5287	DR55287	A concentrated, "oil splitting" formulation for pressure cleaning in a water reclamation environment. It contains a unique detergent system that allows oils to rapidly "split off" from the cleaning solution.	General 1:40 Heavy-duty 1:20
SC-100	BX5425 50 lb. Box	P01425 100 lb. Drum	A heavy-duty, non-caustic alkaline detergent that contains special inhibitors to stop rust. Removes carbon, heavy grease and oily soils. Ideal for cleaning aluminum motor blocks, heads, castings, crank shafts and similar objects. Does not contain chromium salt or chlorinated solvents.	2-4 oz per gallon
SC-100 WITH D-LIMONENE	BX5165 50 lb. Box	P01165 100 lb. Drum	A heavy duty, non-caustic alkaline detergent. Contains special inhibitors to stop rusting, removes carbon, heavy grease and oily soils. Ideal for cleaning aluminum motor blocks, heads, castings, crank shafts and similar objects. Does not contain chromium salts or chlorinated solvent. Contains naturally occurring d-limonene solvent for added cleaning and degreasing.	2-8 oz per gallon
SC-260	BX5430*	P01430* 100 lb. Drum	Our strongest spray cabinet stationary parts washer cleaner that removes oil, grease, carbon and sludge from motor blocks, engine parts, etc. It will strip paint and cannot be used on aluminum, magnesium or other highly polished metals.	2-8 oz per gallon
SHOP BOSS	PA5523	DR55523	Non-hazardous, non-butyl concentrated cleaner and degreaser for many different cleaning and degreasing operations.	Heavy Duty - 1:10 Medium Duty - 1:20 Light Duty - 1:64
SOLID GOLD	PA5512	DR55517	A highly concentrated degreaser blend of d-limonene solvent and non-ionic surfactants. It is the ideal way to remove grease and oil, adhesives and rubber tire marks from most chemically resistant surfaces, especially concrete floors. It also removes carpet and upholstery stains. Can be applied manually or through automatic scrubbers. This is a biodegradable solvent made from orange peels.	General - 1:50 Industrial - As is
TRUE	PA5501	DR55503	An all-purpose, free rinsing pressure wash liquid that gives outstanding results in cold water. It is ideal for cutting through film build up on trucks, equipment, mobile homes and in degreasing operations.	1:60
Z-100	PA5526	DR55526	A concentrated slightly caustic, butyl, heavy-duty degreaser and pressure wash detergent.	Heavy Duty - 1:20 Light Duty - 1:60
969	PA5515*	DR55515*	An extra heavy-duty caustic liquid for heavy soil removal from steel, concrete masonry and similar inert surfaces. It is the strongest of our liquid pressure and stream cleaning compounds.	2-4 oz/gallon 1:10 for soak cleaning

CHEMICAL & CHEMICAL FOAM INJECTORS

PRESSURE WASHING KITS

SIMONIZ

NAME	PART #	DESCRIPTION	DILUTION
BIG RIG KIT	PO1140	A heavy duty pressure washing detergent, slightly caustic and free rinsing. Kit contains (1) 5 gallon Big Rig Liquid, 40 lb. of Big Rig Powder. Both parts mixed together yield (1) 55 gallon of concentrated cleaner.	Medium Soil - 1:64 Light Soil - 1:128
B-1 KIT	PO1150*	A low foaming all-purpose butyl cleaner and degreaser. Kit contains (1) 5 gallon B-1 Liquid, 40 lb. B-1 Powder. Both parts mixed together yield (1) 55 gallon of concentrated cleaner.	Heavy Cleaning - 1:3-5 Light Cleaning - 1:40
C-1 KIT	PO1154	A heavy duty, slightly caustic non-butyl cleaner and degreaser. Kit contains (1) 5 gallon C-1 Liquid, 40 lb. C-1 Powder. Both parts mixed together yield (1) 55 gallon of concentrated cleaner.	As Is.
T-1 KIT	PO1158	A heavy-duty concentrated truck wash and general purpose pressure wash cleaner and degreaser. Kit contains 5 gallons of liquid and 26 lbs of powder. Both parts mixed together yield (1) 55 gallon of concentrated cleaner.	As Is
SUPERPOWER WASH KIT	PO1175*	30 pounds powder + 5 gallons liquid + water = 55 Gallons product. Very cost effective drum kit for touch free automatics. High sudsing, high pH detergent.	20-60:1

* HAZARDOUS MATERIAL

ALL PURPOSE CLEANERS

SIMONIZ

NAME	5 GAL.	55 GAL.	DESCRIPTION	DILUTION
BLUE BUTYL	PA5504	DR55504	A concentrated all-purpose butyl cleaner and degreaser for all types of equipment. Versatile enough to be used in a spray bottle for general cleaning and heavy-duty degreasing and cleaning through a pressure washer.	All Purpose - 1:30 Floors, Asphalt - 1:20 Alum., Marble - 1:10 Batteries, Concrete - 1:3
CRUSH PLUS	PA5247	DR55273	A concentrated all-purpose cleaner and degreaser based on d-limonene. It has equal cleaning properties to most petroleum-based solvents. Safer for employees to handle than petroleum based solvents.	Heavy Duty - 1:4 Carpet Spotting - 1:10 Medium Duty - 1:64 Light Duty - 1:128
PINE KLEEN	PA5548	DR55548	A mildly concentrated, low foaming pine-scented cleaner. Recommended for heavy duty soil removal, light degreasing and all-purpose cleaning.	Spot Cleaning - 1:1 Heavy Duty - 1:10 Medium - 1:25 General - 1:40
TRU BLUE LIQUID CLEANER	PA5549	DR55549	A non-butyl surfactant-based degreaser and all-purpose cleaner. Environmentally safe.	Heavy Duty - 1:20 Medium Duty - 1:30 Light - 1:50

SPECIALTY PRODUCTS

SIMONIZ

NAME	1 GAL.	5 GAL.	55 GAL.	DESCRIPTION	DILUTION
ASPHALT RELEASE	-	PA5502	-	A specially formulated detergent for use as a lubricant on asphalt slides and asphalt truckbeds. A modern day replacement for traditional solvent lubricants.	1:6 - (22 oz./gallon)

UNIVERSAL FOAM INJECTOR KIT

SUTTNER

- Durable injector allows for the injection of a single pressure washing chemical. The nozzle produces a thick foam for an easy and safe application of chemicals with greatly reduced splashing and drifting of chemicals.

INJECTOR SPECS:

- Stainless steel construction
- 3/8" inlet/outlet
- 5000 PSI

NOZZLE SPECS:

- 1/4" inlet
- 4000 PSI

PRICE	PART #	ORIFICE

STEEL DIRECT OPERATED SOLENOID VALVE 1/4" NPT

SMC PNEUMATICS

SPECIFICATIONS:

- Function: Normally Closed
- Thread Type: N (NPT)
- Bracket: None
- Size: 2 (Series 20)
- Rated Voltage: 3 [120 (110) VAC]
- Orifice Diameter/Port Size: 302 (Orifice Diameter: ø3.2mm; Port Size: 1/4)
- Body Material: S (Stainless Steel)
- Seal Material: N (NBR)
- Electrical Entry: DS (DIN Terminal, w/Surge Voltage Suppressor)

FEATURES:

- Internal stopper reduces metal noise
- 360-degree coil rotation
- Stainless steel enclosure for superior resistance to both corrosion and water
- Coil technology maximizes magnetic efficiency and reduces energy consumption
- Standard stainless-steel body, IP67 protection rating
- UL, CE and NSF compliant

SOLENOID VALVES

ASCO® SOLENOID VALVES

- The solenoid is an electromagnetic part of a valve, comprised of a coil, coretube, core and enclosure. ASCO Red Hat brand solenoid valves are designed to handle the most demanding fluid control applications.

NORMALLY CLOSED LOW PRESSURE SOLENOID VALVES

ASCO RED HAT

- When no power is applied to the coil, the valve stays closed. Once power is applied the valve opens

FEMALE DIN CONNECTORS

ASCO RED HAT

- ASCO's electrical connection devices are designed using the DIN 43650/ISO 4400 or DIN 46244 form standards consistent with their solenoid valve coil designs and permitting industry interchangeability. Each size is available for user wiring or factory prewired installations. Other options include 1/2" conduits, and LED/VDR models.
- Glass fiber reinforced polyamide housing and lid
- IP65 protection against moisture entry and washdown when properly installed with gaskets
- LED: Light Emitting Diode. A solid-state diode that emits light to indicate power to the connector
- VDR: Varistor absorbing the self-inductance of the coil. The VDR is there to protect the coil or controller against supply over-voltage or peak
- Maximum voltage 240V

PRICE	PART #	SIZE	ROTATABLE

SOLENOID VALVES

SOLENOID VALVES

DANFOSS VALVES

- Covers a wide range of direct-operated 2/2-way solenoid valves for universal use. A robust valve program with high performance and can be used in all kind of tough working conditions. The lifetime of the valve is significantly extended because of the specially shaped diaphragm that reduces the stress level of the rubber. This special shape also ensures optimal flow.

FULL PORT BALL VALVE

BALL & METERING VALVES

- 3/8"

\$10.15	VL0032
----------------	---------------

BALL VALVES ARE BUILT TO LAST.

These durable, simply designed valves boast a long operational life and act as an ideal shut-off mechanism. Don't forget, due to their design, ball valves can crack in the event of a freeze. Consider adding heat tape to your pipes!

METERING VALVE

BALL & METERING VALVES

- Precision calibrated dial to determine and allow a return to required flow settings
- Safe positive stop for needle travels
- One-piece forged housing
- Positive no-leak stem seal
- Nickel-plated available
- 1000 PSI maximum operating pressure
- Suitable for natural gas

METERING VALVE

FLUID CONTROLS

- All adjusting knobs have oversize brass inserts with double setscrews to prevent loosening
- Valve bodies are either brass or stainless steel
- Panel mount or in-line styles, hose barb or threaded ports
- 1/4" F x F
- All adjusting shafts are stainless steel with double Viton o-ring seals
- All models have flow areas equal to a .140 diameter orifice
- Valves are in-line controls where flow is locked at a specific setting

FLOAT VALVES

TOPAZ INDUSTRI FLOAT VALVE

JOBE VALVES

- Topaz Industro Float Valves are designed to maintain water levels in applications requiring a valve with high mechanical strength and heat resistance, like industrial storage tanks and heated water cisterns
- Compact robust construction
- Made from corrosion-resistant materials
- Comes complete with float and arm
- Has a switch to lock valve in off position
- Has an internal filter to keep debris out of the valve
- Shuts down slowly to minimize water hammer
- Mounts horizontally or vertically
- Has port to connect to Frostpro anti-freeze device

- **WATER DIFFERENTIAL:** ¾" - 2 ½" increases as water inlet pressure increases
- **VALVE BODY:** Grivory
- **WHITE INTERNAL PARTS:** TE21 Acetal
- **FILTER:** PP/Nylon
- **DIAPHRAGM:** EPDM
- **VALVE SEAL:** Santoprene
- **SPRINGS, BOLTS, NUTS**
- **PIN, SCREW:** 304 Stainless Steel
- **O-RINGS:** Nitrile
- **FLOAT:** HDPE
- **FLOAT CORD:** Polyester
- **MAX OPERATING TEMP.:** 176°F
- **PRESSURE RATING:** 5-100 PSI
- **FLOW:** Up to 90 GPM

FOR HOT WATER

----------------	---------------	-------------

TOPAZ FLOAT VALVE

- Shuts down slowly to minimize water hammer
- Has port to connect Frostpro anti-freeze device
- Comes complete with float and arm
- Has a switch to lock valve in off position
- Has an internal filter to keep debris out of the valve
- Float position easily adjustable without tools
- High flow
- Made from corrosion-resistant materials
- Mounts horizontally or vertically

- **WATER DIFFERENTIAL:** ¾" - 2 ½" increases as water inlet pressure increases
- **VALVE BODY & TAIL:** Glass filled nylon
- **WHITE/YELLOW INTERNAL PARTS:** Acetal
- **FILTER:** PP/Nylon
- **DIAPHRAGM:** EPDM
- **SEAL:** TPU
- **SPRINGS, BOLTS, NUTS**
- **PIN, SCREW:** 304 Stainless Steel
- **O-RINGS:** Nitrile
- **FLOAT:** HDPE
- **FLOAT CORD:** Polyester
- **MAX OPERATING TEMP.:** 140°F
- **PRESSURE RATING:** 5-100 PSI
- **FLOW:** Up to 90 GPM

MOUNTS ABOVE OR BELOW WATER

\$86.58	JFVTS12	¾" Valve
\$85.05	JFVTS16	1" Valve

\$86.23	JFVTS18	1¼" Valve
\$18.66	JFVSTK	Service Kit

TOPAZ DIFFERENTIAL VALVE

- Designed to allow the water level to drop to a set distance (2 inches - 9 feet) without electricity.
- Powered entirely by the water pressure/water level in the tank. It reduces the cycling wear and tear on the pump, and energy wasted when pumps turn off/on prematurely.
- Has a switch to lock valve in off position
- Has an internal filter to keep debris out of the valve
- **VALVE BODY:** Glass Filled Nylon
- **WHITE/YELLOW INTERNAL PARTS:** Acetal
- **FILTER:** PP/Nylon
- **DIAPHRAGM:** EPDM
- **SEAL:** Urethane
- **SPRINGS, BOLTS, NUTSPIN, SCREW:** 304 Stainless Steel
- **O-RINGS:** Nitrile
- **FLOAT:** HDPE
- **FLOAT CORD:** Polyester
- **ACTUATOR ARMS/CAPS:** ABS
- **MAX OPERATING TEMP.:** 140°F
- **PRESSURE RATING:** 15-150 PSI
- **FLOW:** Up to 90 GPM

MOUNTS ABOVE WATER

\$244.30	JFVD12	¾" Valve
\$246.36	JFVD16	1" Valve

TOPAZ VALVE OUTLET EXTENSION

- Detachable outlet extension is designed to fit over the existing outlet on your Topaz valve with detachable base. The outlet extension directs the flow into a narrow stream creating a less turbulent water flow. This product lengthens the outlet by 2"
- User can glue in a longer piece of 1" PVC pipe - extending the outlet as far as they like
- Extends outlet 2"
- Built-in air break non-siphon
- Fits Topaz valves with detachable base
- Converts oval outlets to round outlets
- **SCREWS:** Stainless steel (holds outlet in place)
- **MATERIAL:** PVC
- **MAX TEMP:** 140°F

NOT FOR USE WITH HOT WATER - DO NOT USE WITH TOPAZ INDUSTRI

ROJO FLOAT VALVE

JOBE VALVES

- Mounts above or below water level
- May be placed on side, bottom, or top of water tanks and troughs
- Easy to service - just unscrew the parts!
- Fully adjustable float arm
- Made with corrosion-resistant materials
- Includes backnut and seal washer
- Built-in check valve
- Includes switch to lock valve in off position
- Flow automatically stops during servicing

- **PRESSURE RATING:** 0-150 PSI max
- **VALVE BODY:** ABS
- **YELLOW PARTS/FILTER:** Acetal
- **FLOAT:** HDPE
- **TAIL & NUT ARM, EXTENSION ARMS INTERNAL BLACK MOLDINGS:** Glass filled nylon
- **SEAL WASHER:** LDPE
- **METAL HARDWARE:** 304 Stainless Steel

\$33.88	JFVR12	3/4" Valve

ROJO COMPACT FLOAT VALVE

JOBE VALVES

- Fits in compact spaces
- Float no wider than valve
- Multiple mounting positions - side, bottom, and top
- Fully adjustable float
- Non-corrosive material
- Lead-free
- Flow stops when unscrewed
- Valve body screws apart by hand for easy servicing
- Flow stops when unscrewed for servicing
- Supplied with backnut and seal washer
- Built-in check valve
- Fully adjustable float angle

- **PRESSURE RATING:** 0-150 PSI max
- **VALVE BODY TAIL & NUT:** ABS
- **YELLOW PARTS/FILTER:** Acetal
- **FLOAT:** HDPE
- **ARM EXTENSION ARMS INTERNAL BLACK MOULDINGS:** Glass Filled nylon

FLOAT VALVES

**S4-100 STAGE 4
FLOAT VALVE WITH BACK UP**
CLEVELAND

- Features a smooth positive shutoff with redundant backup
- 2-in-1! If primary valve fails, the backup takes over
- Provides no more flooded pump rooms or high water/sewer bills
- **DIMENSIONS:** 9" x 14 1/2" x 6 1/4"
- **PRESSURE RANGE:** 5-110 PSI
- **PORT:** 1" FPT inlet/outlet

\$84.27 **FVC16-4** Stage 4 - 1" Float Valve with Redundant Back Up

**S3-100 STAGE 3 VERTICAL
FLOAT VALVE WITH PILOT**
CLEVELAND

- Designed for use in high turbulent tank conditions requiring 3/4" water level change before activations
- **DIMENSIONS:** 9" x 9" x 3 1/4"
- **PRESSURE RANGE:** 5-110 PSI
- **PORT:** 1" FPT inlet/outlet

\$47.99 **FVC16-3** Stage 3 - 1" Vertical Float Valve w/Blue & White Pilot

**S2-100P STAGE 2
FLOAT VALVE WITH PILOT**
CLEVELAND

- Operates independent of the main valve for reduced wear and extended functional life
- A 2 1/2" float is all that is required to shut off the 1 1/2" valve
- 1- piece urethane diaphragm
- 1/2" red plastic pilot valve
- 1" FPT inlet and outlet pipe size
- 4" float diameter
- **PRESSURE RANGE:** 5-110 PSI
- **FLOW:** Up to 250 GPM @ 60 PSI

\$42.53 **FVC16** Stage 2 - 1" Float Valve with Pilot
\$76.52 **FVC24** Stage 2 - 1 1/2" Float Valve with Pilot

**100 SERIES:
FLOAT VALVE DIAPHRAGM**
CLEVELAND

\$8.75 **FVC71D**

FLOAT VALVE WALTERS

- "Lo Valve" kicks in when a small amount of water is needed. When valve completely opens, the "Main Valve" is activated. Designed for car & truck washing.
- Features two interacting valves • **RATED TO 140°F**

FLOAT VALVES & PREVENTERS

HUDSON HIGH TEMPERATURE FLOAT

- The unique patented design of the Hudson Valve uses fluid pressure, as opposed to a lever arm and ball, as the force to close the valve. This compact, self-contained design greatly enhances the valve's reliability. The valve body is made of durable glass-filled nylon 6/6. Internal parts are of ABS plastic, silicone, and stainless steel. When properly installed, the valve will meet anti-siphon requirements.

PARKER® PS Series swivels are designed to eliminate hose twist and torque that may cause premature hose failure. These swivels have a full flow, sealed bearing design with hardened bearing races that are resistant to side load and are suitable for high pressure. PS Series swivels are available in 90° and in-line configurations with a wide variety of port ends, making them ideal for an array of dynamic applications.

GUN SWIVELS

SUPER SWIVELS® WAS ESTABLISHED IN 1986 AND IS A LEADER IN THE DESIGN AND MANUFACTURING OF HYDRAULIC LIVE SWIVELS.

Super Swivels uses a heat treating process that allows for a higher working pressure rating. These superior quality, heavy-duty, leak free live swivels are sure to get the job done. Available in several materials, plating options and a wide variety of seal options.

MOSMATIC AUTOMATIC CAR WASH SWIVEL CONVERSIONS

STAINLESS STEEL CLEANING HEAD SPIDER

MOSMATIC

- Features reinforced self-lubricating ball bearings and a long-lasting carbon seal system
 - 2500 PSI maximum pressure
 - 1" FNPT inlet
 - 250° Fahrenheit maximum pressure
- Includes: (1) High RPM Swivel (39.905)
(1) 4s4 Rotor Arm (88.796)
(4) Stabilizer Nozzles (14.933)

CLEANING WAND WITH STAINLESS STEEL SPINNING WASH HEAD MOSMATIC

- Achieve incredible spraying capability in some of the most difficult-to-reach areas!

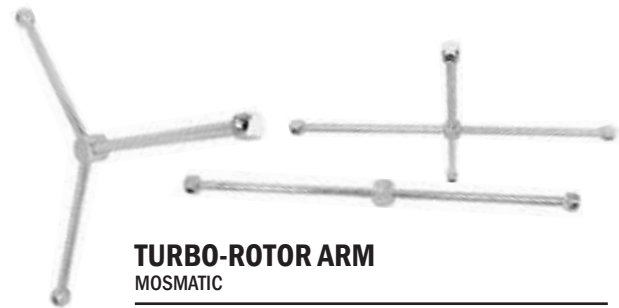

SPECIFICATIONS:

- **INLET:** 3/8" NPTF
- **MAX PRESSURE:** 4000 PSI
- **MAX TEMP:** 250 °F
- 62" length
- 6" head circumference
- 3-12 pH throughput
- 0502 nozzles

PRODUCT INCLUDES:

- (1) Wand
- (1) SS rotating cleaner head
- (3) 0502 spray nozzle tips
- (1) High-pressure gun
- (1) Gun swivel

CALL PWM81925

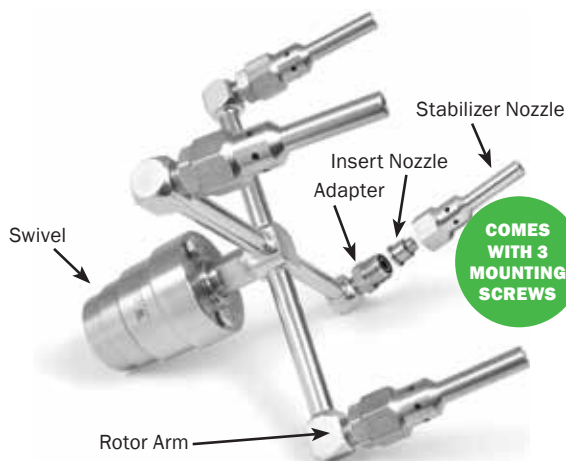

TURBO-ROTOR ARM MOSMATIC

- The turbo rotor arm, in conjunction with a swivel, begins to turn on its own from the water pressure. This product is found mainly in automatic car wash facilities in the area of rim and finish cleaning.

CALL	SWMTA82811	16" Two-Arm
	SWMTA82812	18" Two-Arm

	SWMTA82837	16" Four-Arm

More available sizes online

ROTATION SYSTEM MOSMATIC

- As the water pressure builds, the rotor arms begin to rotate independently. The arm rotates only by the force of the water jet and requires no other power. A simple but efficient and solid product for a optimal cleaning effect.
- Max Pressure: 5000 PSI • Max. Temp: 250°F • Stab. Nozzle / Adapter (4) 14.901

3/8" TO 1/4" REDUCER NIPPLE SMC PNEUMATICS

- Pack of 10 and lightweight
- Reduces a 3/8" port to accept 1/4"
- Use for a wide pressure range from low vacuum to approximately 145 PSI
- Special profile seal
- Temperature Range: 23° to 140°F

PRICE	KR #	SMC #
\$7.47	FRN-0604	KQ2N07-11

**NOT INTENDED
FOR POTABLE
WATER SYSTEMS**

STRAIGHT UNION FITTINGS SMC PNEUMATICS

- Pack of 10 and lightweight
- For vacuum and positive pressure applications
- Release collar allows easy removal of tubing without damaging the tube
- Maximum vacuum pressure of 145 PSI
- Accepts nylon and urethane tubing

PRICE	KR #	SMC #	TYPE	LENGTH
\$16.83	FSU-04	KQ2H07-00A	1/4" UNION	34.5mm

SEALED BRANCH TEE FITTINGS SMC PNEUMATICS

- 10 count pack
- 1/4" NPT connection port x 3/8" outer tubing
- Brass thread connection
- -100 kPa to 1 MPa operating pressure range
- 3 MPa proof pressure
- Temperature range, ambient: 23° to 140°F
- Temperature range, water: 32° to 104°F
- Accepts nylon and polyurethane tubes
- Stud allows body rotation for easy installation
- Release collar - easily remove tubing w/o damage
- Use for a wide pressure range from low vacuum to approximately 145 PSI

Since 1924, Parker Hannifin Corporation has served the marketplace with dependable fluid power technology. Much of that expertise originates with Parker's precision-made tube fittings, which were among the first products manufactured by the company. As such, they reflect Parker's ongoing commitment to excellence.

PARKER DE SERIES PORTABLE CRIMPER

PARKER CRIMPERS

- Parker DE crimpers simplify the gauging aspects of crimping, and the new pusher retraction stop reduces cycle time, speeding up the task of making hydraulic hose assemblies. Strong yet lightweight top and bottom plates, improved one-piece handle and base design and a micrometer gauging mechanism are features that make this machine ideal for portable hose assembly. DE30's four strain rods reinforce precision and durability while color coded die sets make finding the right one a snap. This crimper is easily customized with a choice of optional pumps, dies and a die storage box.
- New micrometer gauging mechanism yields precise and infinitely variable crimp diameters
- Choice of pumps allows crimper to be run without electricity or on pneumatic power
- Compact, lightweight design makes transportation easy and convenient
- 30 tons of crimping force
- Dies are ordered separately, so choose only the dies you need
- One pusher plate serves all six die sets to reduce potential errors
- Four strain rods increase accuracy and durability

HOSE GUARDS & ACCESSORIES

TEFLON TAPE SWAGE FITTINGS SUPPLIES

- 1/2" x 520"
- Lubricates, allowing for a deeper seating of threads. Helps prevent threads from seizing when being unscrewed.
- Helps seal joints without hardening them, making them easier to tighten.

\$1.48 BFAT520

THREAD SEALANT SWAGE FITTINGS SUPPLIES

- 4 oz. jar with brush top
- All-purpose thread sealant that remains pliable after installation. Temperature range -65°F to 550°F. Withstands pressures up to 10,000 PSI.

KLEEN-RITE HOSES & CUSTOM HOSE ASSEMBLIES

Kleen-Rite sells many different sizes of car wash high-pressure hose assemblies. Looking to reduce hose costs in your facility? In need of specific lengths and fittings? Don't sweat it, we've got you covered. Our hose department makes high-quality, custom hoses and fittings on a daily basis and will work with you to get you exactly what you need!

Hoses are essential for everyday car wash operations, and it's important to keep your facility well-stocked at all times. Kleen-Rite advises car wash operators to have one or two hose assemblies on hand for every bay, plus at least one foamy hose for every self-serve bay.

Thanks to custom hose assemblies, you can save costs and buy only the lengths you need. You can pick the right fittings compatible with your car wash equipment. Our professional, high-quality custom hoses are reliable and affordable.

CUSTOM HOSE ASSEMBLY CONSIDERATIONS:

LENGTH

From small 1 ft. assemblies to large lengths - just ask us!

PSI REQUIREMENT

DIAMETER

• 1/4" • 3/8" • 1/2" • 3/4" • 1"

COLOR

Black or Blue in 1/4" & 3/8"
Black available in other sizes!

WIRE BRAID

• Single or double wire braid

HOSE FITTINGS

- Male permanent or male swivel
- Female pipe
- Male & female 37° JIC
- Male & female 45° SAE

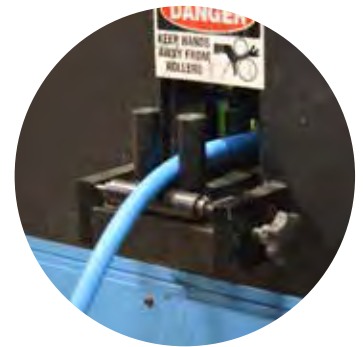

FEATURED PRODUCT

KLEEN-RITE'S CUSTOM HOSES

It's easy to order custom hose assemblies at Kleen-Rite. You can specify if you want a single or double wire braid hose designed for high pressure, low pressure, or foamy brush applications. Then, choose your desired hose color, length, diameter, and fittings. Once you've made your selections and the order comes in, our technicians will get to work!

Our staff will use machinery to precisely cut the hose to specified lengths. We've cut hoses of all sizes, from small 6 ft. assemblies to large 50 ft. hoses for truck washing applications. The hose ends enter our crimp machine, which secures your chosen fittings to the hose. We stock a large selection of permanent and swivel ends, as well as JIC and SAE fittings!

TIPS TO EXTEND THE LIFE OF YOUR HOSE ASSEMBLY

- ✓ • Make sure your hose has a higher working pressure than that of the pressure of the fluid being pumped through the hose. Putting a hose suited for 3000 PSI into a 5000 PSI application can cause over-pressurization that results in leaks and pulsation.
- ✗ • Avoid bending the hose too much, as this can cause kinks and premature hose failure.
- ✓ • Use elbow fittings. If a hose bends at a sharp angle without the added support of an elbow fitting it undergoes unnecessary stress leading to premature failure.
- ✗ • Don't stretch or compress the hose during installation.
- 💡 • Keep hoses off ground to avoid being run over by equipment or rubbing which will cause premature failure.

Learn more about new car wash supplies, industry news, and car wash shows. Kleen-Rite offers informative articles, blog posts, buyer's guides, resources, and videos. We cover material for in-bay automatic, tunnel, self-serve, and pet washes. You'll hear from car wash owners and industry experts sharing their tips and tricks. In the Resource Library, you'll find safety data sheets and wiring diagrams you may need for your wash.

HOSES & FITTINGS

HYDRAULIC HOSES & ACCESSORIES

M3K HYDRAULIC HOSE

GATES HOSES

- High-pressure hydraulic oil lines. Exceeds ISO 18752 Grade B, SAE 100R17 and ISO 11237 R17 working pressure, minimum bend radius requirements, and performance requirements of EN 857 1SC. M3K hose has smaller exterior dimensions and significantly tighter bend radius than other SAE 100R1 and 100R2 hose.

XR16SC EXTENDED LIFE HYDRAULIC HOSE

CONTINENTAL HIGH-PRESSURE HOSES

- Don't worry about breaking or bursting a hose when choosing the Continental XR16SC Extended Life hose! It offers greater durability than a Standard Cover SR2SN hose thanks to its extra abrasion-resistant cover as well as its higher working and burst pressure. You can use this hose with the same B2 fitting series as your existing SR2SN hose - the switch is easy!
- 3000 PSI working pressure - 12000 PSI burst pressure
- XR extra abrasion resistant cover lasts up to 14 times longer than standard
- Use with B2 fittings
- Can directly replace standard hose version SR2SN (#20240259)
- 6" minimum bend radius - half of the SR2SN!
- Weight per foot: 0.83 lbs.
- Note: this hose is priced by the foot

\$9.09 PER FOOT **H00098**

FEATURES XR ABRASION RESISTANT COATING

HOSES

SOLD IN 50' INCREMENTS ONLY
USE WITH PUSH-ON BARBS - NO CLAMPS

INSTA-GRIP™ LOW-PRESSURE FOAMY BRUSH HOSE

CONTINENTAL HOSES

- 500' Reel • 300 PSI working pressure in all sizes with 4:1 minimum safety factor
- For use with push-on fittings at working pressures of 300 PSI. For low-pressure hydraulic and pneumatic systems such as shop air systems, general industrial, and maintenance. Non-conductive, minimum electrical resistance, greater than 1 megohm per inch of hose length at 1000 volts DC. MSHA approved covers.
- Field repairable - No special tools needed
- Class "A" high oil resistant tube
- One braid of high strength synthetic yarn laid at the most effective angle for maximum strength & coupling holding ability

CLAMP ASSEMBLIES

A NEW BREAKTHROUGH
IN CUSHIONED CLAMPING

CUSH-A-NATOR® CLAMPS

- Thumb Drive - The Cush-A-Nator® has the exclusive "Thumb Drive" that provides the installer a gripping point to easily open the cushion with the help of leverage tabs and a living hinge. Easy and effortless to install.
- Self-Alignment - Cushion can be opened and placed over the pipe or tube and rotated into place while on the channel and automatically aligned with the channel opening ready for clamping. No more pre-installing cushions or awkward installation. Cushion replacement has been made simple and easy.
- Pressure Control - The Cush-A-Nator® cushion has a built in squeeze control as part of the cushion design. The side opening and the squeeze control tab provide evenly distributed pressure around the tube or pipe.
- Complete Clamping Unit - The Cush-A-Nator® is the only strut mounted cushion that is mechanically connected to the supporting steel clamp because the bolt passes through the squeeze control tab forming the single unit connection. This design helps prevent the cushion from excess vibration by being attached directly to the clamp.

HOSES & FITTINGS

CLAMP ASSEMBLIES

OMEGA SERIES® CLAMPS

- Omega Series clamp assembly retains, guides, protects and uniformly spaces line runs. Attached with 2 standard fasteners to any flat surface, eliminates the use of special channels. Lines are rigid and look neat.
- **THE CLAMP:** Available in steel (with electrochromate finish), and stainless steel.
- **THE CUSHION:** Manufactured from a thermoplastic elastomer, it's built tough to withstand the effects of most oils, chemicals and industrial cleaning compounds, in temperatures from -50°F to 275°F. Interlock edge ensures the cushion remains in place.

CUSH-A-CLAW® CLAMPS

- Cush-A-Claw grabs tube, pipe, or hose and holds it firmly. One-piece patented design for quick and easy installation. Will not rust because it's molded from the same TPE Material as other ZSI products that you've come to know and trust.
- Quick, simple, and easy snap-in installation of tube, pipe, or hose
- Sure Grip Strut Base easily rotates into strut
 - Non-conducting
 - Saves time and money
 - Works great indoors or outdoors
- Will not rust
- Temp range: -50° to 275°F
- Six sizes of tube and three sizes of EMT
- Designed for light duty loads and applications
- Prevents galvanic corrosion of dissimilar metals
- An excellent alternative to steel, stainless steel, or galvanized clamps

NEW!

KLEEN-TRACK CERAMIC SEALANT

**Ceramic car wash
sealant at a price
you'll love!**

Kleen-Rite is proud to offer a new ceramic product that allows more owners to offer this popular option at their car wash! Ceramic is all the rage with car lovers and has quickly caught the attention of many car wash operators. With that in mind, Ceramic Sealant has been added to the Kleen-Track line, a group of products that utilize a 2-step low and high pH presoak approach. Kleen-Track Ceramic Sealant is the perfect complement to the presoaks, as it's ideal for friction washes where pH is neutralized.

The ceramic polymer formula is highly hydrophobic, providing excellent water break and beading.

And it's more affordable than comparable brand name products!

KLEEN-RITE CORP.
YOUR RELIABLE SUPPLIER FOR THE CAR WASH INDUSTRY

FEATURED PRODUCT

KLEEN-RITE CONCENTRATED CHEMICALS

Kleen-Rite concentrated chemicals are a cost-effective way to get great results at your self-serve, tunnel, or automatic car wash! Our selection of highly concentrated formulas includes:

- Foam Detergent
- Foam Polish
- Presoak
- Beading Sealant
- Shine Sealant
- High Pressure Soap
- Wheel & Tire Cleaner

WHAT ARE CONCENTRATES?

Kleen-Rite concentrated formulas are full of active ingredients - in fact, that's all they are!

Traditionally, car wash chemicals sold in large drums are pre-mixed with water. That means you're paying for something you already pay for at your business: H₂O. Concentrates leave the water out, giving you just the chemical formula.

Concentrates come in compact 5-gallon containers that are easy to ship, lift, and move. This size is perfect for the solo car wash operator, or anyone tired of figuring out where to put large drums! Kleen-Rite concentrates can be easily stored until use, then blended with water. Combining a single 5-gallon Kleen-Rite ultra concentrated formula with 10 gallons of water produces 15 gallons of ready to use formula!

CONCENTRATED BENEFITS

- More product per dollar
- Allows complete control over dilution levels
- Ships in a space-saving 5 gallon container
- No freight lift gate required on small orders!
- For use at all types of car washes
- Wide variety of formulas and scents available

KLEEN-PAK SOLUTIONS

Want the benefits of a concentrate but not interested in any 55-gallon drums - not even for mixing? Check out the incredibly space-saving Kleen-Pak system!

Every component of the Kleen-Pak system is rectangular, meaning it's easy to line up, stack, and store. Each Kleen-Pak formula comes in a set of two 2.5-gallon containers - even easier to lift than our regular concentrates! These convenient containers fit directly on top of Kleen-Rite's compact Easy-Kleen dispensing station. One Easy-Kleen station holds up to 12.5 gallons of concentrate, which makes more diluted product than you'd find in a standard 55-gallon drum! More product, more free space, and less money out of your pocket!

KLEEN-RITE AUTOMATIC - DETERGENTS, WHEEL CLEANERS & POLISHES

IN-BAY PRESOAK KLEEN-RITE DETERGENTS

- High quality, liquid alkaline presoak detergent at low distributor pricing. It breaks down stubborn road film and is the best presoak to choose for friction conveyor washes. It's also considered the second step to follow up a low pH first step in a touch-free wash process.

FEATURES:

- Liquid alkaline detergent
- Contains unique water conditioners for optimal performance
- Removes road film/soils, & windshield residue
- High strength and high sudsing

DILUTION:

- 75-120/1 • Touchless: 50-75/1
- Friction: 120/1

FEATURED PRODUCT

KLEEN-TRACK CHEMICALS FOR IN-BAY AUTOMATICS

THIS PRESOAK SYSTEM PACKS A POWERFUL 1-2 PUNCH!

The Kleen-Track System is formulated for both touchless and friction automatic car washes. This two-step process is used in the early stages of an automatic wash and employs a strategic application of low pH presoak followed by a high pH presoak. Kleen-Track is available in three options: System 1, System 2, and Non-Corrosive System 3. All are available in 5-gallon, 30-gallon, and 55-gallon sizes.

SYSTEM 1

Kleen-Track 1A is the strong low pH option in the Kleen-Track line, and the first step of System 1. The acidic 1A liquid presoak contains powerful ammonium fluoride. Dilute to 75-120/1. Also available in an extra-strength concentrated form.

Kleen-Track 1B is the high pH second step of System 1. This alkaline formula is applied after 1A. Dilute to 64-90/1. If you choose to only use a single presoak, we recommend this product from the Kleen-Track line.

SYSTEM 2

Kleen-Track 2A is the low pH first step of System 2 and contains phosphoric acid. Dilute to 75-120/1. System 2 tolerates slightly hard water conditions. Also recommended for operators desiring a less aggressive presoak.

Kleen-Track 2B is the second step of System 2 and is formulated with high pH alkalines. This formula is applied after 2A. Dilute to 64-90/1.

SYSTEM 3 NON-CORROSIVE

Kleen-Track 3A is the low pH first step of System 3. It blends surfactants, solvents, and citric acid together in a non-corrosive formula. Dilute to 75-120/1.

Kleen-Track 3B is the high pH step in System 3. This formula contains both surfactants and alkalines. Applied after 3A has already been used. Dilute to 64-90/1.

WHY USE BOTH A LOW PH AND HIGH PH PRESOAK?

When a two-step presoak method is used properly, a low pH acidic formula is used before the high pH alkaline formula. Low pH presoaks can tackle materials like oxidation, salts, light oil, tiny metal particles, and small dirt fragments. It also cools the vehicle surface and reduces the chance of chemically flashing the paint.

High pH presoaks attack oils, larger dirt particulates, proteins, and heavy grease. You'll find that the high pH presoak does the bulk of the cleaning work. Most heavy-duty cleaners, in general, are alkaline.

KLEEN-TRACK 1A PRESOAK

- Low pH - strong and effective formula
- Contains ammonium fluoride
- 55-gallon size - Dilute 75-120/1
- KR# **KRKT1A55**

KLEEN-TRACK 1B PRESOAK

- High pH
- Alkaline blend
- 55-gallon size - Dilute 64-90/1
- KR# **KRKT1B55**

HELPFUL TIP

- You may need to try each system to find what works best with your equipment, the climate you live in, or the contaminants that commonly end up on vehicles in your area. Consider first buying 5-gallon sizes of each Kleen-Track system to test and determine the optimal system for you. After that, you can buy the larger bulk sizes to save money!

FEATURED PRODUCT

KLEEN-RITE AUTOMATIC - TOUCHLESS®

PRODUCT	PART #	GALLONS	COLOR	DESCRIPTION	DILUTION
Winter Foaming Brush	JBAF5*	5	Pink	High-foaming foam brush detergent. Effective up to -50°F. Cherry fragrance.	By Temp

Protect yourself from dangerous freezing temperatures by using Simoniz, JBS, and Kleen-Rite anti-freeze chemicals. These specially-formulated detergents offer the same cleaning power and visual appeal as regular triple foam, but they also have added anti-freeze ingredients that keep your self-serve or automatic wash operating at full strength in harsh, below-freezing temperatures. Using anti-freeze detergents eliminates the risk of equipment damage and malfunctions caused by low temperatures. Available in a variety of bright colors, so you can offer the impressive triple foam experience while also having the security of anti-freeze properties in your soap!

YOU GET TWO 2½ GALLON JUGS!

- Complete Convenience - Kleen-Pak easy-to-store 2.5-gallon jugs pack premium cleaning power and unbeatable shine into a compact container.
- Store Kleen-Pak 2.5-gallon jugs on a shelf and free up the 55-gallon drum footprint to create a cleaner more spacious equipment room
- Anyone can easily handle, store and refill
- Using smaller 2.5-gallon containers translates into savings on shipping, container cost and blending expenses.
- Each Kleen-Pak 5-gallon refill pack contains two 2.5-gallon easy-pour jugs

PRESOAK				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
High pH	KRKP5210	Yellow	-	Highly concentrated, heavy duty, high pH liquid car wash presoak. Effective in every application, especially powerful for touch-free washing. Won't charge the car's surface and increases rinsability and shine. Can be used as a single step presoak or as a two-step process in combination with low pH products.
Low pH	KRKP5220	Green	-	Hyper concentrated presoak specifically for use in a 2-step Low pH/High pH wash process. Contains high quality low pH acids that emulsify, neutralize and loosen dirt and grime in a high pressure wash system. Significantly reduces eyebrows on windshields.
High Pressure	KRKP5202	Clear to Amber	Bubble Gum	This ultimate high pressure detergent concentrate combines high suds, alkalinity and visual appeal for superior cleaning. Suitable for tunnel and self-serve washes.
Fragrant Presoak	KRKP5200	-	-	Highly concentrated, heavy duty, high pH liquid car wash presoak with fragrance. Effective in every application and especially for the self-serve car wash.
LUBRICANT/DETERGENT				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
Body Shampoo	KRKP5207	Clear to Amber	-	Premium foam lubricating detergent, designed for all cloth washes, produces a thick and rich lather and provides excellent cleaning and rinse ability. This highly concentrated lubricating soap reduces damage claims, such as mirrors, antennas, and license plates.
Foam Brush	KRKP5203	Red	Cherry	Hyper concentrated lubricant detergent with cleaning agents for use in self-serve brush application.
Pink Foam Brush	KRKP5203C	Pink	Cherry	Hyper concentrated lubricant detergent with cleaning agents for use in self-serve brush application.
PROTECTANT				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
Clearcoat Conditioner	KRKP5305B	Blue	Bubble Gum	High concentrate pH balanced surface conditioner with cleaning agents and protectants is available in pink, blue and yellow. Applied through foamers.
	KRKP5305P	Pink		
	KRKP5305Y	Yellow		
Sealer	KRKP5303	Red	Cherry	High concentrate polymeric-based cherry-scented protectant maintains and preserves all car surfaces. Provides a visible high gloss appearance and protective coating. Also great in a self-serve application.
AquaGuard	KRKP5310	Amber	-	Maximum protection on all vehicle surfaces with an optimized water repellent formula. Perfect for use on glass, chrome, plastic trim and paint.
DRYING AGENT				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
Drying Agent	KRKP5300	Blue	-	Super concentrate drying agent creates instantaneous water break to achieve optimum blower efficiency and a drier car. Reduce labor costs with minimum wipe down time.
TIRE CLEANERS				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
Wheel & Tire	KRKP5400	Fluorescent Yellow	-	High concentrate, non-corrosive product for cleaning all types of wheels (including chrome, aluminum, and magnesium) and whitewall tires. Safely removes brake dust and makes whitewalls white again. Simply spray on and rinse off. This product also give you a visual green look. Great for self-serve.
BUG REMOVER				
TYPE	PART #	COLOR	SCENT	DESCRIPTION
Bug Buster	KRKP5500	Green	-	High-concentrate bug remover.

EASY-KLEEN STATION FOR KLEEN-PAK CONCENTRATES

KLEEN-RITE CHEMICALS

- Short on space? Large, round, 55-gallon drums can be very difficult to handle, store, maneuver around, and use in your car wash equipment room. Now there's a better, space-saving way to store your soaps and chemicals with the Easy-Kleen Station!
- The Easy-Kleen Station is designed for use with our Kleen-Pak hyper concentrates (sold separately). Our 2.5-gallon Kleen-Pak jugs are super concentrated and compact to save you plenty of space! Plus, the rectangular design of the Easy-Kleen storage container lines up perfectly with other rectangular containers for a small footprint and superior organization.
- In addition, the Easy-Kleen storage container features easy-to-read markings on the label for accurate measurements. This storage and measurement station is an easy way to make your equipment room cleaner and more efficient!
- Saves space in your equipment room | Easy to install, maintain, handle, store and refill | No heavy drums
- Measurement markings on label for accuracy
- Unique top pierces induction-sealed containers for easy and automatic product delivery
- Designed for use with 2.5-gallon compact Kleen-Pak hyper concentrates
- 15½" W x 17½" D x 24¾" H

CHEMICALS

SIMONIZ® CHEMICALS

PRIME PAK SIMONIZ

- SIMONIZ® brings you a surfactant system that is designed to be environmentally considerate, more stable, and biodegradable than ever before, in a compact package.
- Prime Pak is a true concentrated system, with formulations containing little-to-no water, reducing shipping weight and necessary storage space.
- Less packaging means less waste after use. Concentrated formulation means no more heavy drums to move around your site, or work around in tight equipment room.

PRESOAK		
Low pH	PP54002	First step presoak for in-bay automatics. A blend of mild but effective organic acids, water soluble solvents and both cationic and non-ionic surfactants.
High pH	PP54013	Amazing second step presoak that works synergistically with LPH. A unique, high pH blend of alkaline builders, chelating agents, water softeners, solvents and wetting agents.
LUBRICANT/DETERGENT		
Foam Brite	PP53040	High foaming long lasting "show foam" with excellent cleaning and lubricity for IBA friction systems.
High Pressure Detergent	PP53005	SIMONIZ® Prime Pak High Pressure Detergent is a highly concentrated blend of surfactants that loosens and removes road film in high pressure prep wands and self-service bays.
PROTECTANT		
Clear Coat Sealer	PP53052	A highly concentrated and very economical Piña Colada scented clear coat sealant. Clear Coat Sealer quickly de-foams and disperses water for a dry and spot-free finish.
Triple Foam Polish	PP53060	Blue
	PP53070	Red
	PP53075	Yellow
These amazing foam polishes are highly visual and will fill your bays with a strong cherry scent. They possess quick flash foam for visual appeal but rinse freely and bead up quickly when followed with Clear Coat Sealer.		
DRYING AGENT		
Drying Agent	PP53020	Highly concentrated drying agent that provides superior beading and water break. May be applied to vehicle under low or high pressure.
TIRE CLEANERS		
Presoak and Wheel Cleaner	PP53045	 Terrific alkaline presoak that can be used in a one-step wash process or as a second step presoak. Excellent in both hard and soft water, Prime Pack Presoak and Wheel Cleaner uniquely blends high alkaline builders, wetting agents and surfactants in a highly synergistic blend.

DID YOU KNOW...

You're tight on space and don't have time to blend powders – but you need chemistry that works. Prime Pak is a revolutionary rack and funnel fill system that uses highly effective concentrated chemicals. Prime Pak is ideal for in-bays, convenience store car washes, and small equipment rooms.

CERAMIC SEALANT ARCH START-UP KIT

SIMONIZ

The Simoniz Ceramic Sealant Package One is a convenient kit that provides the equipment, ceramic sealant formula, and marketing tools to begin offering Simoniz Ceramic Sealant at your car wash today! Customers will be drawn in by the arch in your tunnel wash, which is complete with appealing full-color graphics and bright LED lights. To complement the arch, Windmaster signs and drum covers are also provided to catch customer attention. This Simoniz Ceramic Sealant kit also boasts a nozzle setup and Dosatron pumping station to effectively apply the ceramic coating. A 30-gallon drum of Ceramic Sealant is included in this package.

WHAT DOES SIMONIZ CERAMIC SEALANT DO?

Simoniz Ceramic Sealant is a breakthrough in the car wash industry; a highly hydrophobic formulation that includes a ceramic polymer. After being applied to a vehicle exterior, this formula chemically bonds with the paint to create a layer of durable protection. The sealant contains positively charged ions that are attracted to the negatively charged painted surface. This creates the hydrophobic coating that repels water.

The coating makes water bead effectively, protects from UV and oxidation, and makes it more difficult for grime and dirt to stick to the car surface. Lastly, the vehicle has a deep, clear, glossy shine that brings out the reflective properties of the paint and clear coat. Offers protection and shine for up to thirty days. Please call Kleen-Rite for a freight shipping quote.

DIMENSIONS: 168" Width x 136.34" Height ** Please visit our website and view the product brochure on this product for advanced dimensions

PACKAGE INCLUDES:

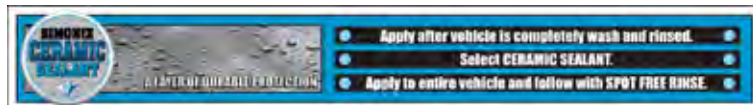

- Simoniz Ceramic Sealant full-color arch
- Fully lit LED panels
- Flashing diamonds
- 144 Watt blue LED top light
- Complete nozzle setup
- Dosatron pump station
- (2) Windmaster inserts
- (2) drum covers
- (1) 30 gallon drum of Simoniz Ceramic Sealant

CARBONITE ARCH START-UP KIT SIMONIZ

WHAT DOES SIMONIZ CARBONITE DO?

Graphene is a single layer of graphite, one atom thick. A carbon-based nanoparticle, graphene is arranged in a honeycomb structure. Because of its honeycomb structure and chemistry, graphene-infused Carbonite has a very high water contact angle (125°), a measure of wettability of a solid, compared to most coatings currently being applied. As a result, any moisture, like rainwater, will easily slide off thereby leaving minimal risk of any water evaporating on the surface and resulting in water spots. These water spots will etch into the coating and eventually into the paint finish. Also, our graphene-infused Carbonite is known for its thermal and electrical conductivity. Because of this property it can safely be described as "anti-static". For a vehicle, this means its coating will repel dust and other micro-particles, which is a real concern for most vehicle owners. Please call Kleen-Rite for a freight shipping quote.

BENEFITS: Improves surface hardness, glossy appearance, high slickness, hydrophobic, water-spot and moisture resistance, high chemical and abrasion resistance, extreme durability, long lasting, anti-corrosion against road salt and other contaminants, oxidation and uv protection

DIMENSIONS: 168" Width x 136.34" Height

PACKAGE INCLUDES:

- (1) Carbonite Arch with Strobe Lights
- (2) Windmaster Sign Inserts

SIMONIZ® CHEMICALS

WE STOCK A COMPLETE LINE OF SIMONIZ® PRESOAK POWDERS COVERING ALL TYPES OF APPLICATIONS INCLUDING CAR WASHING, TRUCK WASH AND POWER WASH INDUSTRIES.

Simoniz® powders clean very well, while at the same time are very economical by being less expensive to ship and handle at your location. Many car wash and truck wash locations rely on the Simoniz® powder chemical soaps everyday to clean many vehicles. Simoniz® powdered car wash detergents can be used for both friction and frictionless cleaning. In addition, powders are a great choice for friction full-service tunnel conveyors as high-pressure prep gun presoak.

CORRECT SIMONIZ POWDERS

HAZARDOUS MATERIAL

- Powdered alkaline presoak detergent containing the naturally occurring solvent D-Limonene. Very effective on oil based road film. Exhibits medium foam levels and is free rinsing.
- **DILUTION:** 40-60:1

BX5135*	50 lbs.
P01170*	100 lbs.

POWER SOLVE SIMONIZ POWDERS

HAZARDOUS MATERIAL

- Quality high pressure detergent. Outstanding performance in moderately hard water. Ideal 2nd step detergent in high volume washes. Free rinsing powder.
- **DILUTION:** 20-40:1

BX5122*	50 lbs.
P01102*	100 lbs.

SUPER POWER WASH SIMONIZ POWDERS

- Most popular, designed especially for electronic soap dispensers and self serve bays. Stays liquid when mixed.
- **DILUTION:** 40-60:1

BX5105	50 lbs.
P01104	100 lbs.

KLEEN POWER SIMONIZ POWDERS

- Finest quality. No free alkali. A must in hard water. Will eliminate scale problems.
- **DILUTION:** 40-60:1

GREEN SCENE

ECO-FRIENDLY CAR WASH PRODUCTS

• The green movement now has traction and is being mandated everywhere. Use this to promote the environmental correctness of your car wash. Communicate to your customers that you recycle your water, discharge to sanitary sewers, and most importantly that you use Green products approved by the EPA's "Designed For The Environment" program. Always at the cutting edge, SIMONIZ has a complete line of EPA approved products, as well as, merchandising and marketing collateral. Let us show you how to deliver a "Green Clean Car" with a message that will resonate with your existing customer base and will entice new customers... Especially the younger and more environmentally conscious drivers.

KLEAN TUNNEL

AP FORMULATORS

Klean Tunnel is a fast acting, lower acidic car wash cleaner. Its powerful formula quickly removes buildup or dirt and grime without the scrubbing. Klean Tunnel is safe and effective on most surfaces including fiberglass, FRP, metal, vinyl, painted block, and most types of brick while the lower acid level provides a safer solution for the user.

- Potent clinging properties work longer on heavy buildup of dirt and grime
- Fast acting formula
- Provide a visually appealing atmosphere
- Simply spray on and pressure wash clean
- No need for excessive scrubbing
- Safe on most surfaces

\$74.23	KT100-5	5 Gallons
\$675.00	KT100-55	55 Gallons

BREAK DOWN

AP FORMULATORS

Break Down is a premium, professional grade, water-based bug remover. Its fast acting formula dissolves and softens even the toughest bug residue. The potent clinging properties allow for longer dwelling on heavy buildup, reducing the need for excessive scrubbing. Break Down is quick, easy to use and safe on all painted surfaces.

- Water-based bug remover
- Fast acting formula
- Dissolves and softens bug residue
- Longer dwelling for heavy buildup
- Reduced need for excessive scrubbing
- Safe on all painted surfaces
- Easy to use

TEST KITS

EC/TDS DIGITAL HYDROTESTER HM DIGITAL

- Measures electrical conductivity (EC), total dissolved solids (TDS). Perfect for testing RO systems
- Four scales: EC: μS , mS; TDS: ppm, ppt
- Automatic Temperature Compensation (ATC)
- Measurement Range: 0-9990 μS ; 0-5000 ppm; 0-9.9 mS; 0-5.0 ppt
- Digital Calibration (push button) to any point within the tester's range
- Auto-off function, data-hold function and low-battery indicator
- Display: large and easy-to-read LCD screen includes simultaneous temperature reading
- Includes a protective cap and batteries

\$49.42

HMO080

WATERPROOF EC/TDS/TEMP METER HM DIGITAL

- Measures electrical conductivity (EC), total dissolved solids (TDS), salinity and temperature
- UPGRADED: Four scales: μS , mS, ppm, ppt
- Three different non-linear EC-to-TDS conversion factors (KCl, 442TM, NaCl)
- Automatic Temperature Compensation (ATC) using three temperature coefficients
- Measurement Range: 0-9990 μS ; 0-8560 ppm; 0-9.99 mS; 0-8.56 ppt
- Digital Calibration (push button) to any point within the meter's range
- Auto-off function, data-hold function and low-battery indicator

\$86.32

HACH TEST KITS

- Testing kits for water hardness, nitrates, nitrites, alkalinity and pH analysis. Designed for quick checks on the quality of water supplies or the efficiency of water softeners, spot free systems, etc.

LOW RANGE TDS TESTER HACH TEST KITS

- Easy calibration steps take the guesswork out of calibrating the sensor to keep it in optimum condition.
- Easy to replace AAA batteries and convenient sample cup make maintenance and measurement simple.
- The large LCD screen is easy to read; backlighting is included on Pocket Pro models, allowing measurement in almost any lighting environment.
- Intended for professional use only.

\$252.87

TK9531200

PH TEST KIT HACH TEST KITS

- With pH measurement paper strips for analysis
- 0 - 14 pH Range, 100/pk
- Designed for quick checks on the quality of water supplies or the efficiency of water softeners, spot-free systems, etc.

\$51.47

TK26013

HARDNESS TEST KIT HACH TEST KITS

- With hardness measurement paper strips for analysis
- 0-425 PPM
- Easy to use, disposable, and inexpensive
- A great way to obtain quick, quantitative answers in the field or in the lab

\$29.35

TK274525

TOTAL WATER HARDNESS TEST KIT HACH TEST KITS

- Hardness test kit with a liquid drop count titration method of analysis.
- Measures hardness as CaCO_3 (1 μg = 17.1 mg/L)

\$44.06

TK5B

TITRATION TESTING KIT FOR SELECT KLEEN-RITE CHEMICALS TEST KITS

- This titration kit allows you to test a diluted Kleen-Rite product to determine the dilution level. Includes chemicals, graduated cylinder, beaker, and instructions in a convenient carrying case.

CONTENTS:

- Graduated Cylinder
- Testing Instructions
- Phenolphthalein Indicator (in a dropper bottle)
- 1.0 Normal Sulfuric Acid (in a dropper bottle)

USE FOR THESE KLEEN-RITE CHEMICALS:

- In-Bay Presoak
- High pH Extreme

HYDROMINDERS & ACCESSORIES

HYDROMINDERS

HYDRO SYSTEMS

- For a Constant Supply of Chemical Solution. Keep your reservoir ready at all times with accurately mixed solution. No pouring, stirring, or waiting. When the solution level drops in the reservoir, the float ball activates a magnetic valve. As water flows through your Hydrominder, it siphons liquid chemical through a metering tip to create a mixture of ready-to-use solution. The float automatically adjusts as fluid is added or removed from the holding so there is always enough solution for your customers to use. Self-contained and self-controlled. Easily installed.

HYDROMINDER FOR ULTRA-CONCENTRATES

HYDRO SYSTEMS

- Designed to consistently keep reservoirs filled with accurately proportioned solutions of ultra-concentrate chemicals. When the level of solution contained in the reservoir drops, a float opens the magnetic valve enabling a flow of water to mix with a chemical concentrate ensuring a consistently mixed solution is dispensed into holding tanks. Perfect for pre-soak, detergent, special chemical applications, wax/protectants/rinse aids, and tire care

FEATURES & BENEFITS

- Uses water power – no electricity required
- Built with high quality, chemically resistant materials
- Economical, easy to operate and maintain – minimizes downtime
- Better chemical performance – designed specifically for use with ultra-concentrate car wash chemicals with dilution capability down to 2500:1
- Features ULD technology eliminating clogged metering tips
- Can be used with a variety of vehicle wash chemicals ranging from low to high pH
- Features our patented AccuPro Technology, eliminating dilution variance by controlling the amount of water allowed into the unit and never allowing it to “lean out” the desired dilution target

FLOAT VALVES

AQUA MASTER

DEMA

- The premier reservoir mounted float valve system
- Compare the Aqua Master to other reservoir systems and see the difference. The new, more economical unit is designed to reduce service and potential problems.
- Superior float valve design avoids hang-ups and flooded floors.
- Float is filled with water soluble granular material instead of system clogging sand.
- 90 degree chemical metering barb rotates 180° to avoid kinking problems of straight barbs.
- New design mounting bracket has identical dimensions of competitive bracket.
- Tip kit and competitive metering tip cross reference included with every unit.

BACKFLOW PREVENTER

- Action Gap Backflow Preventer meets ASSE 1055B for backflow prevention.

INDP1630

DEMA CHEMICAL INJECTORS

ROCKET HIGH PERFORMANCE INJECTOR

DEMA

- The Rocket injector was designed to be the most versatile venture injector in the marketplace. Designed to be serviceable and last for a lifetime and not a season. The Rocket is the most efficient injector, with the lowest pressure loss amongst competitive units, delivering more pressure for any application. It enables cleaning at greater pressure while consuming less chemicals. With the use of a removable nozzle and metering barb, it makes maintenance and repair extremely simple, extending the life of the injector and reducing the cost of ownership. It has the greatest range of any injector on the market.

New!

- What if you could modify an injector when the application changes, rather than replace it?
- What if you could fully field service an injector, rather than replace it?
- What if you could save money on your overall cost of ownership for an injector, making it the only injector you need?

What makes the Rocket unique?

It's the most efficient injector in the market. With the lowest pressure loss among competitive units, the Rocket delivers more pressure for any application. The Rocket enables cleaning at higher pressures while consuming less chemicals overall.

Rocket is simple to repair. We believe that when you buy an injector, you buy it for the long haul, not to be replaced a year down the road. With the use of a removable nozzle and metering barb, the Rocket makes maintenance and repair simple, extending the life of an injector well beyond what you thought was possible.

PROPORTIONAL INJECTORS & PARTS

ADJUSTABLE WATER DRIVEN PUMP

HYDRO SYSTEMS

The HydroMinder WDP (Water Drive Pump) is an advanced chemical dosing pump, with adjustable dilution rates. High dosing accuracy and repeatability for constant, precise chemical delivery. Highly engineered wet parts are constructed of materials with extremely high chemical resistance to alkaline chemicals including (but not limited to) hydroxides and phosphates as well as acids including (but not limited to) sulfuric, phosphoric, citric and hydrochloric acids. Consult Hydro Systems for any additional information on chemical compatibility as required.

Mounting versatility allows for water flow in both directions providing better installation versatility

Lasts up to 62 million cycles

Improved dilution accuracy across all flow rates reduces the risk of improper chemical dispensing that could result in vehicles needing rewash

Features fewer parts and tool-free maintenance resulting in up to 50% reduction in maintenance time compared to other technologies

SPECIFICATIONS:

AVERAGE DOSING ACCURACY: +/- 5% of selected ratio

FLUID MINIMUM TEMPERATURE: 34°F (1° C)

FLUID MAXIMUM TEMPERATURE: 100°F (38° C)

USE FOR:

- Pre-soak
- Special chemical applications
- Wax/protectants/rinse aids
- Detergent
- Tire care

SUPERDOS NON-ELECTRIC, FLUID DRIVEN PROPORTIONAL INJECTORS

- SuperDos operates without electricity to precisely inject liquid concentrates into a water supply line using fluid flow as the power source.
- SuperDos is designed with a patented internal mixing chamber that promotes homogeneous mixing, while segregating harsh chemicals from critical internal components. It comes in various models that easily satisfy the demands of your most challenging applications.
- Proprietary composite body for chemical compatibility and for mixing aggressive chemicals
- Built-in on/off switch (30 and 45 models only), which allows user to stop the injection – but not the system
- Separate internal mixing chamber to prevent chemical contact with motor piston – for longer life and uniform mixing
- Interchangeable lower ends with the ability to adjust ratios while in operation

SPECIFICATIONS:

- **HOUSING:** Proprietary engineered composite material
- **REPEATABILITY:** +/- 3% of Ratio
- **FLUID MINIMUM TEMPERATURE:** 34°F (1° C)
- **MAXIMUM VERTICAL SUCTION OF CONCENTRATE:** 3.6 m
- **AVERAGE DOSING ACCURACY:** +/- 5%
- **FLUID MAXIMUM TEMPERATURE:** 100°F (38° C)
- **SELF-PRIMING:** Yes
- **MAXIMUM HORIZONTAL SUCTION OF CONCENTRATE:** 15.0 m

MINIDOS WATER DRIVEN PROPORTIONAL INJECTOR

- MiniDos operates without electricity to precisely inject liquid concentrates into a water supply line using fluid flow as the power source. It is designed with a patented internal mixing chamber that promotes homogeneous mixing, while segregating harsh chemicals from critical internal components.
- MiniDos comes in various models that easily satisfy the demands of your most challenging applications.
- Proprietary composite body which exceeds PVDF for chemical compatibility and for mixing aggressive chemicals
- Built-in on/off switch which allows user to stop the injection, but not the system
- Separate internal mixing chamber helps prevent chemical contact with motor piston, for longer life and uniform mixing
- Highest standard operating pressure in the industry, minimizing pressure surge damage

SPECIFICATIONS:

- **HOUSING:** Proprietary engineered composite material
- **REPEATABILITY:** +/- 3% of Ratio
- **FLUID MINIMUM TEMPERATURE:** 34°F (1° C)
- **MAXIMUM VERTICAL SUCTION OF CONCENTRATE:** 3.6 m
- **AVERAGE DOSING ACCURACY:** +/- 15%
- **FLUID MAXIMUM TEMPERATURE:** 100°F (38° C)
- **SELF-PRIMING:** Yes
- **MAXIMUM HORIZONTAL SUCTION OF CONCENTRATE:** 15.0 m

TWIST II CLEAN

HYDRO SYSTEMS

- Inline filter designed to remove organics, sand and sediment from your water supply
- Used to filter water before entering equipment
- Simple 1/4" turn operation
- Filter element flushes completely clean in less than 20 seconds
- No need to turn off water to clean (eliminates air in system)
- Rugged design installs indoors or outdoors
- Stainless steel filter element lasts for years
- Never buy filter cartridges again!

SUPERDOS NON-ELECTRIC FLUID INJECTOR

HYDRO SYSTEMS

- Injects liquid concentrates into a water supply line using fluid flow as the power source.
- Offers chemical compatibility
- Interchangeable lower ends
- Great for car wash applications, cleaning, descaling, disinfecting and decontamination, hydroponics, misting systems, agricultural applications, soaps and foams
- Work well with acids, oils, and pesticides

PRICE	PART #	MODEL	FLOW RATE	INJECTION RANGE	PSI

PROPORTIONERS

OPERATING PRINCIPLE

DOSA LOCK

DOSATRON BEST PRACTICES

WATER QUALITY: Install a 200 mesh or 80 micron filter on inlet side of the unit.

WATER PRESSURE: Install pressure regulator on inlet side of the Dosatron unit.

WATER TEMPERATURE: Maximum 104°F (40°C)

CHEMICAL PROPORTIONERS

DOSATRON

- The water-powered Dosatron provides accurate car wash chemical dispensing while cutting your cost-per-car, and the units automatically compensate for flow and pressure changes providing consistent, repeatable results.

THE NEW D40 SERIES OFFERS:

- Metal-free and simplified piston
- Viton seal and o-rings
- Polypropylene housings
- Easy-to-adjust ratio stem

LOW PRESSURE PANEL SYSTEMS

4 BAY PANEL

6 BAY PANEL

MODULAR HIGH & LOW PRESSURE SELF-SERVE SYSTEMS

DOSATRON

- Easy-to-install, modular style chemical dispensing unit mounted on a 24" x 17" durable black, polypropylene wall panel
- 3/4" outlet for additional panel hookup | 3/8" poly elbow for delivery to bays
- Dispenser operates on only water flow - only solenoids require electricity
- Eliminates Venturi premix tanks - saves space and keeps your equipment room organized
- No need for air diaphragm pumps - less air compressor use
- Get rid of messy Venturi metering tips that clog

WHEN CALLING FOR QUOTE PLEASE INDICATE:

- **NUMBER OF BAYS**
- **REQUIRED SOLENOID VOLTAGE (24V OR 110V)**
- **ARE YOU GOING TO USE THE PANEL FOR FOAMING APPLICATIONS?**

* Indicates second solenoid manifold included for foaming applications requiring air

** Indicates single solenoid manifold for spray application not requiring air

MIXING FOR FOAM APPLICATION WITH AIR? CONSIDER PURCHASING A MIXING CHAMBER FOR BETTER BLENDING.

3/4" MIXING CHAMBER

DILUTION SOLUTIONS

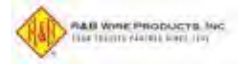

- Enhance chemical blending with a mixing chamber. Excellent for low flow applications (like foam brush)
- Made from chemical resistant blue poly | capacity of 3250 mL (110 oz)
- Excellent for: Low volume requirements | Minute injection rates | Constant on/off applications

TOWEL EMULSIFIERS & SANITIZING

TOWELS BY DOCTOR JOE® PRIME EMULSIFIER MICROFIBER TOWEL CLEANER

LAUNDRY PRODUCTS

- Gentle cleanser that not only removes oils and dirt from your microfiber towels, but improves their absorbency, too! When used regularly, Dr. Joe's formula opens the pores in towel fibers, allowing more water retention during use, and allowing the release of dirt, oil, and grease during wash cycles.
- Safe for all fabrics including microfiber and cotton
- Removes oil, dirt, and grease
- Opens towel fibers to promote better absorption
- No effect on wastewater pH

CRYPTOPAY WIRELESS CREDIT CARD SYSTEM FOR LAUNDRY

- Reduces fees and secures your transactions.
- The MyCryptoPay Online Program allows you to view recent purchases, configure your CryptoPay Swipers, and ensure your system is up and running remotely from your computer or mobile device.
- The CryptoPay Coordinator unit wirelessly and securely transmits to each of the CryptoPay Swipers. The Coordinator connects to the internet and authorizes and finalizes transactions, and is used to remotely re-configure the swipers. One coordinator is needed per wash location and supports many Swipers.
- The CryptoPay Wireless Swiper encrypts credit card data at the moment of credit card swipe and securely transmits the encrypted data. Encrypted data can only be decrypted by the Magensa Protected Payment Gateway. The Magensa Protected Payment Gateway is PCI-DSS certified and listed by MasterCard and Visa as a compliant service provider.
- Simple design that is easy to install.
